1. Important Tips

Please read and understand warnings & safety instructions before operating

a. insert SD card

- 64GB SD Card is inserted in the dash cam already.
- The SD card can only be inserted from one direction. Before insert it, Please make sure the direction is correct as the figure photo.

Push

IMPORTANT NOTES

b. Time Lapse video Mode and **24H Park Monitor** will be triggered only when the Hardwired Kit is connected.

GMAIPOP Hardwire Kit:
ASIN: **B0CC9JXNVD**

c. Turn on WiFi Quickly

Step ① Press  stop recording

Step ② Long Press on  to turn on WiFi

d. Battery & Charger

- The dash cam batter(200mAh)is just to maintain and save settings. It should be connected to the car charger or USB to get constantly powered, if the power is interrupted to the unit, it will shut down.
- Please use the original car charger provided to avoid fault or incompatibility.

e. Cautions for High Temperature

- Don't leave this product where the temperature may exceed 70°C (160°F)for an extended period.
- When using a sunshade, please do not place the dash cam between the windshield and sunshade, it may cause damage from heat buildup

f. Getting a rear camera cable extension

If the length(19.7feet) of the rear camera cable is too short for your car,please get a GMAIPOP extension cable by ASIN:**BOCH84SXZP**
