

manual Smart Ring

Charging activation

· When using for the first time, please charge and activate the device
If the factory settings are restored on the app, please charge and reactivate

1. There are two ways to charge the ring: USB cable charging or wireless charging (charging box) of your (purchased) product
2. After connecting to the power supply, the ring indicator light is always red
3. Indicator status: · The red light is always on during charging · The green light is always on when charging is completed
4. Charging time: 60 minutes
5. Check the power: Check the power at the device connection on the APP home page
6. Charging box: If the box charger is out of power, you need to plug in the Type-C cable to charge. The red light is off, indicating that the box charger has completed charging

Optional package comes with 200mah charging case

Frequently Asked Questions

1. Reasons for abnormal heart rate and blood oxygen data measured by the ring
1) Generally, the ring sensor is not in good contact with the human body during measurement.
2) Please make sure that the sensor is in full contact with the finger during measurement.

JRing

4. Flashing red light means the ring is charging

Box charger - built-in 200 mAh battery

Note

1. Do not charge in a humid and wet environment
2. Please clean the magnetic charging hole on the back of the ring with a clean flannel regularly to ensure that the magnetic charging hole of the ring fits the magnetic charger to ensure normal charging. This product is not equipped with a power adapter. To ensure the safety of your family and property, you can use the computer USB port or choose a power adapter with an output of no more than 5V1A when charging. Please purchase power adapters through formal channels and avoid using low-quality and counterfeit power adapters to avoid explosions or fires.
