

INVERTER REMOTE CONTROL

Compatible with: RS-V3P12, RS-V3P24, RS-V2P12,
RS-V2P24, RS-V1P12 inverters

MODEL: RS-RM01

FEATURES

- **Smart LCD Display**

Real-time monitoring of inverter performance
Displays voltage, output power, and battery status
Symbol-based fault alerts for quick diagnostics

- **User-Centric Design**

Clear and intuitive interface for easy operation
Backlit screen for low-light visibility
Direct plug-in to inverter control port

- **Reliable Wired Control**

6 m (19.69 ft) high-grade shielded cable included
RJ45 industrial-grade connector for stable data transmission
No signal interference vs. wireless solutions

- **Ergonomic Control Design**

Raised bubble buttons with tactile feedback
Flush mount for sleek integration
Durable construction with scratch-resistant finish

SPECIFICATIONS

Compatibility	RS-V3P12, RS-V3P24, RS-V2P12, RS-V2P24, RS-V1P12 inverters
Display	Backlit LCD
Overall Dimensions (L×W×H)	93.5×56.5×18.5 mm/3.68×2.22×0.73 in
Mounting	Flush mount, 76.5 mm (3.01 in) hole spacing, 6.5 mm (0.26 in) hole diameter
Connection	Wired RJ45 (6 m/19.69 ft cable)
