

# yeti NANO

**PREMIUM USB MIC FOR RECORDING & STREAMING**

## *Legendary Blue Broadcast Sound*

Yeti Nano is a premium USB microphone designed for broadcast-quality podcasting, YouTube™ content, game streaming, Skype™ calls and voiceover work. Inspired by the #1-selling Blue Yeti microphone, Yeti Nano features 24-bit sound quality, a compact design, and plug 'n play operation for instant streaming on PC/Mac. The premium finish looks great on camera and on any desktop. Featuring a no-latency headphone output and controls for headphone volume, mic mute and pickup pattern, Yeti Nano is the perfect mic for modern broadcasters.
