Design Tip - Price Presentation

Would you be pleased with your waiter or waitress if they started to tell your customers about food on the menu beginning with the price?

Next time you are out looking at a menu (not your own) and the prices are all neatly aligned on the right, I bet you look at the prices before you read all the words about the dish on offer. Be honest. We all do it.

Do this:

crayfish and tomato risotto

shaved fennel salad and salsa verde. 18
