

Quick Start Guide

This quick guide will help you go through installation quickly

HC-1570-PW

Touch Panel PC

Contents

Indication

- | | | | |
|--------------------|------------|-----------------------|----------------------------|
| 1 MIC | 5 Camera | 9 Reset hole | 13 RJ45 / PoE+ |
| 2 Reset | 6 Display | 10 KNX | 14 RS485/ CAM |
| 3 Power Button | 7 NFC | 11 USB 3.0 | 15 DC IN |
| 4 Proximity Sensor | 8 Side LED | 12 USB Type C for ADB | 16 12 Kensington Lock Slot |

Installation

1. Cable connection

Tape Mount

Surface Mount

- NOTICE:
- ⦿ This Panel PC is also compatible with VESA mounting (100mm x 100mm). It is recommended to secure with M3 screw. The suggested length of the M3 screw is the thickness of VESA mounting bracket plus 8mm(Screw not included).
 - ⦿ Please ensure the mounting surface is clean and smooth before using the tape.
 - ⦿ M2 / M3 screw Torque<2 kgf-cm
 - ⦿ Installation height: <2M

⚠ **WARNING :**

Changes or modifications to this unit not expressly approved by the party responsible for compliance will void the user's authority to operate the equipment.

📌 **NOTE :**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/panel PC technician for help.

- May not cause harmful interference.
- Must accept any interference received, including interference that may cause undesired operation.

- **Correct disposal of this product :**
 - This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
 - The power consumption of the product in networked standby is 12V/1.5A (18W) which all wired network ports are connected and all wireless network ports are activated.
 - FCC & CE RF radiation Exposure Statement Caution : To maintain compliance with the FCC & CE's RF exposure guidelines. Place the product at least 20cm from nearby persons.
 - Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types); Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion; Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of amammable liquid or gas; A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas .
 - The product is to be connected only to PoE networks without routing to the outside plant.
- **Canada, Industry Canada (IC) Notices**
 - This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
 - (1) This device may not cause interference.
 - (2) This device must accept any interference, including interference that may cause undesired operation of the device.
 - Canada, avis d'Industry Canada (IC)
 - L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
 - 1. L'appareil ne doit pas produire de brouillage;
 - L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- **Radio Frequency (RF) Exposure Information**
 - The radiated output power of the Wireless Device is below the Industry Canada (IC) radio frequency exposure limits. The Wireless Device should be used in such a manner such that the potential for human contact during normal operation is minimized. This device has also been evaluated and shown compliant with the IC RF Exposure limits under mobile exposure conditions. (antennas are greater than 20cm from a person's body). Informations concernant l'exposition aux fréquences radio (RF)
 - La puissance de sortie émise par l'appareil de sans fil est inférieure à la limite d'exposition aux fréquences radio d'Industry Canada (IC). Utilisez l'appareil de sans fil de façon à minimiser les contacts humains lors du fonctionnement normal. Ce périphérique a également été évalué et démontré conforme aux limites d'exposition aux RF d'IC dans des conditions d'exposition à des appareils mobiles (antennes sont supérieures à 20 cm à partir du corps d'une personne).
