

Frequently Asked Questions

How often should I use Nizoral?

You only have to use Nizoral[®] every 3 to 4 days (about twice a week) for 8 weeks. On the days you don't use Nizoral[®], you can use your regular shampoo and conditioner.

Can I continue to use Nizoral?

Always follow label instructions. You may use Nizoral[®] every 3 to 4 days (about twice a week) for 8 weeks, then as needed to control dandruff.

Is Nizoral safe to use on color treated or keratin treated hair?

Yes. Nizoral[®] is safe to use on color-treated, chemically processed and gray hair.

Is it ok to use a conditioner with Nizoral?

We recommend using a conditioner in between uses of Nizoral[®].

Some dandruff shampoos don't smell very good. What does Nizoral smell like?

Nizoral[®] has a clean, fresh scent and a pearlescent, soft look and feel.

Does Nizoral work on severe dandruff?

Clinical studies show that Nizoral[®] is effective in controlling dandruff symptoms like flaking, scaling and itching in people with mild, moderate, and even severe dandruff.

How fast does Nizoral work?

Always follow label instructions and use Nizoral[®] every 3 to 4 days (about twice a week) for 8 weeks. Results from a published clinical study showed that ketoconazole, the active ingredient in Nizoral[®], starts working from the first use to start relieving dandruff symptoms and control the fungus that causes dandruff.
