

Connect with Allflex Link

SIMPLE, SEAMLESS AND
EFFICIENT HERD IDENTIFICATION
AND MONITORING

Rugged and durable, Allflex Link is an easy-to-use stick reader that enables data collection across both electronic identification (EID) and monitoring near-field communication (NFC) devices.

SIMPLIFIED WORKFLOWS START WITH FLEXIBLE TAG READING SOLUTIONS

Introducing **Allflex Link** — a robust, rugged, waterproof tag reader with enhanced reliability and longevity that streamlines workflows and eases automation of all records.

With its ability to pair EID and monitoring devices on individual animals, Allflex Link facilitates more seamless data collection, promotes data integrity and creates new efficiencies.

And because it can read both EID and NFC tags, Allflex Link evolves with your operation, enabling you to add SenseHub™ monitoring solutions without having to purchase new readers.

Connect more data in less time
with Allflex Link, so you can
spend more time managing your
day-to-day operations.

ALLFLEX LINK WORKS HARD TO MAKE YOUR JOB EASIER

- Eliminates time-consuming manual processes
- Simplifies operations for farms using EID and NFC technologies
- No lag time between reading different tags
- Seamless integration with Allflex Connect our on-farm data collection app
- More connected insights for better animal health
- Aids with record compliance and accuracy for regulatory matters

Your time is valuable. And whether you're already using both technologies, or you need an EID tag reader that will grow with your farm, Allflex Link automates and improves workflows — to give you back time in your day to focus on what matters most.

Contact your MSD Animal Health representative to learn more about how Allflex Link can help you simplify operations to enhance the automation of your data collection.
