- Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
- To protect against fire, electric shock and personal injury, do not immerse blender, its cord or plug in water or other liquid.
- This appliance is intended for household only.

ADVICE: There exist potential injury from misuse.

2. BEFORE USE

1. After removing the packaging, make sure the product is complete and undamaged and that all accessories are present. Do not use the appliance if it is visibly damaged. Contact with the technical assistance service.
2. Connecting the appliance. Check that the mains power supply voltage corresponds to the value indicated on the rating label. If the power socket does not match the plug on the appliance, have the socket replaced with a suitable type, or change the plug by a qualified professional.

3. OPERATION

1. Place the appliance on a flat surface.
2. Turn the container lid in an anti-clockwise direction and lift it.
3. Pour the desired amount of coffee beans into the container.
4. Tighten the lid by turning it fully home in a clockwise direction. A safety device prevents switch-on if the lid is not well inserted.
5. Do not attempt operation without the cover being in place.
6. Extract the necessary amount of wire and introduce the plug into the socket.
7. Press lid to active the coffee grinder and hold it down until the desired level of grinding is obtained.
- 8 Unplug the unit, have a container ready to hold your ground coffee.

4. RECOMMENDATIONS FOR USE

1. Always keep the lid of bean container closed hermetically in order to preserve the flavor and the aroma of the coffee beans.
 2. Only grind the amount of coffee necessary at the time.
 3. Never overfill the bean container.
- As per general indications, consider one tablespoon of beans per cup (e.g. 4 spoons of coffee beans for 4 cups). Naturally, optimal amounts, defined on the basis of personal taste, will be identified with time.
4. Coffee grounds left in your grinder can become stale and affect the flavor of freshly. Be sure to clean grinding bowl, blades and cover after each use.
 5. This grinder can only handle dry, brittle foods. Do not grind oil seeds (e.g. peanuts) or hard products (e.g. rice).

5. CLEANING AND MAINTENANCE

1. Be sure to unplug this appliance before cleaning. To protect against electrical shock, do not immerse cord, plug or unit in water or liquid.
2. Remove ground coffee residues using the brush. Do not touch the blade because it is sharp.
3. Do not immerse into water.

4. To remove residue or aromas left behind by nuts, grind one tablespoon of baking soda in the bowl then wipe thoroughly.
5. All removable parts are dishwasher-safe on the top rack. Do not put parts on bottom shelf. Never immerse the grinder base unit in water or other liquid.
6. Clean the exterior of the appliance using a soft cloth.
7. Store excess cord by pushing a section at a time into the cord storage area in the base of the unit.

8. DISPOSAL OF OLD ELECTRICAL APPLIANCES

The European directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), specifies that old household electrical appliances must not be disposed of with the normal unsorted municipal waste. Old appliances must be collected separately, in order to optimize the recovery and recycling of the materials they contain, and reduce the impact on human health and the environment.

The crossed out "wheeled bin" symbol on the product reminds you of your obligation to dispose of the appliance correctly. If the product has a built-in battery or uses batteries, they should be removed from the appliance and disposed of appropriately.

Consumers must contact their local authorities or retailer for information concerning the correct disposal of old appliances and/or their batteries.
