Product Interface	
Charge Input:	DC 5V

RX Audio Output:	3.5mm/RCA
RX Mode	
RX cable output:	Speaker/Wired Headset/Soundbar
Bluetooth Connection:	Smartphone/Tablet/PC
RX Usage:	<p>1. Power on B06T3 with USB charge cable we shipped to you.</p> <p>2. Plug the B06T3 to your speaker/soundbar/subwoofer by RCA to 3.5mm audio cable(RCA to B06T3 and 3.5mm to speaker).</p> <p>3. Press the middle of B06T3 until LED flashes in Red and Blue. That means it is ready to pair Bluetooth device.</p> <p>4. Open your smartphone/tablet/PC Bluetooth and find B06T3, and pair.</p> <p>5. When LED stays on without flashes, that means B06T3 is ready to play music.</p>
How to pair a second device:	<p>1. Set B06T3 to pairing mode again. After turning it on, press and hold the middle button for one second. If the LED light flashes red and blue, it means it has entered pairing mode.</p> <p>2. Turn on the Bluetooth of the second mobile phone, find B06T3 to connect, get close and wait for successful pairing.</p> <p>3. After successfully connecting to the second device, the first device will be disconnected. You need to manually click B06T3 to connect in the Bluetooth list of the first phone to achieve simultaneous pairing of two devices with B06T3.</p>
	<p>1. Use the USB charging cable we provide you to power on B06T3.</p>

<p>How to connect two speakers:</p>	<p>2. Plug the B06T3 into the speaker/soundbar/subwoofer via RCA to 3.5mm audio cable (RCA to B06T3 and 3.5mm to speaker). Connect the B06T3 to another speaker/soundbar/subwoofer via an 3.5mm audio cable .</p> <p>3. Press and hold the middle of B06T3 until the LED flashes red and blue. This indicates that the Bluetooth device is ready to be paired.</p> <p>4. Turn on your smartphone/tablet/PC Bluetooth and find B06T3, and pair it.</p> <p>5. When the LED is always on and not flashing, it means B06T3 is ready to play music.</p> <p>Note that you can only play music on one device at a time, so if you want to play music on a second device, you need to pause the music on the first device before you can play music on the second device.</p>
<p>Reset B06T3:</p>	<p>If the transceiver cannot connect to Bluetooth or work normally, press the button in the middle of Changing for 10 seconds, the LED purple light will flash three times quickly, and then the device will restart and clear the pairing, and restore to the factory device successfully.</p>
