WHAT IS SOUNDTOUCH®?

Millions of songs. Thousands of stations. At your fingertip.

NEW

PANDORA®

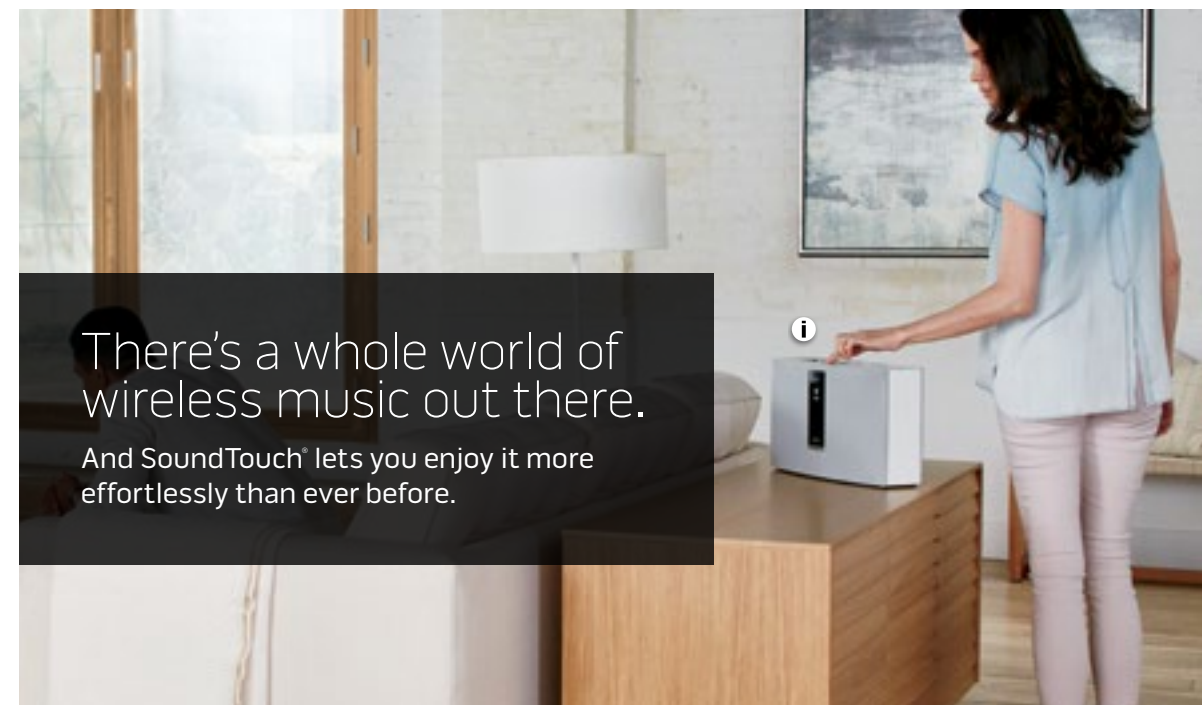

iTunes

There's a whole world of wireless music out there.

And SoundTouch® lets you enjoy it more effortlessly than ever before.

SoundTouch® systems are easier to use than any other home wireless systems available and come with a free, powerful app and a simple remote control. The app lets you set six custom presets and change them whenever you want — a Pandora® station on one, a Spotify® playlist, iTunes playlist, or radio station on the others. And your remote and SoundTouch® speakers automatically remember them, too. So when you want to use your phone or tablet to control your system, you can. And

when you don't want to power up, swipe and put in a passcode — you don't have to. Just use the remote or press a preset and your music starts in an instant. Plus, with Bluetooth® built in to every SoundTouch® system, you can listen to whatever you want from any Bluetooth device. SoundTouch® systems work together to create a multi-room listening experience, so you can play the same music everywhere or listen to different music in different rooms — even on the patio.

SOUNDTOUCH® 10 WIRELESS MUSIC SYSTEM Stream in full, rich sound with our smallest wireless system. Play your music instantly – simply press one of the six presets on the speaker or remote. In **A** White or Black. **\$199.95**
