Troubleshooting

Problem Malfunction	Solutions
Not atomized or not working	a. Check if the battery is fully charged
	b. Whether the machine is in a shutdown state
	c. Check whether the atomizer head is blocked
	d. Check if the oil bottle is loose

Product maintenance

1. Machine Cleaning
   a. Please use wet towel to clean the machine
   b. Please turn off and take out the battery when cleaning the inside of the machine
   c. If this product is not used for a long time, please clean the oil bottle and remove the battery

2. Clean the oil bottles and atomizer heads
   a. Remove the essential oil bottle and unscrew the atomizing head
   b. After washing the essential oil bottle, it is recommended to add an appropriate amount of alcohol and then reload it into the atomization equipment for improved performance and to eliminate any residual odors. Rinse the bottle again after this step and allow it to dry before using it again

Points to note

⚠ Attention Notes

🚫 After installation, please keep the machine vertical. Tilting or flipping the machine will cause oil leakage and result in damage to the machine.

❗ Remove the battery when the machine is not in use for a long time.

❗ Please do not immerse the equipment directly in water or wash it with water. Doing so can cause a short-circuit and result in damage to the machine.

🚫 Essential oil must not be mixed with debris or particles in order to avoid pipe blockages.

🚫 Do not alternate the use of different types of essential oils to avoid cross-contamination of scents.

🚫 Please keep the machine in a cool place and out of direct sunlight.

🚫 Keep the machine out of reach of children. Minors are advised to use the machine under adult supervision.

🚫 Do not disassemble, repair, or modify the machine, as this can cause product failure. For repairs, please consult your purchasing store or our customer service. (MEIDI_Service@meiditech.com)

🚫 Keep the machine away from fire.
