8. Specifications

Declaration of conformity

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

The ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, tablecloths, curtains, etc.;

Hereby, Faurecia Clarion declares that this [P2401/P2402] is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

The full test of the EU declaration of conformity is available at the following internet address: <https://www.clarion.com/xe/en/product-compliance/mmc/re-doc/index.html>

RECYCLING: This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

This product max. operating ambient temperature is 45 degree C.

Operation radio frequency

Reception frequency AM: 526.5 ~ 1606.5 KHz STEP:(9)KHz

Reception frequency FM: 87.5 ~ 108 MHz STEP:(50)KHz

Reception frequency DAB: 174 ~ 240 MHz

Operation frequency

Bluetooth: 2402 MHz to 2480 MHz

5GHz Wi-Fi: 5745 to 5825MHz

Max RF output power

EIRP(MAX): 3.28dBm for BT, 13.14dBm for 5GHz Wi-fi

GPS: 1575.42 MHz±1.023 MHz

GLONASS: 1602 MHz + n × 0.5625 MHz
