

VOPLLS P1E

VOPLLS P1E

Manufacturer VOPLLS offers the P1E, an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 20000:1. The LEDs give the projector a lifespan of 100000 hours of light, which would be the equivalent of over 68.5 years at 4 hours a day. Including an integrated media player that can be used to play files directly. The projector can be set up very freely thanks to the horizontal and vertical keystone correction. Since VOPLLS indicates the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 1800 Ansi-Lumen ensure that an image width of 431 cm is also possible. However, if room light is present, the image should not exceed 287 cm in width. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.

Brief Introduction Beta 2.5

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

1800 / 30000 Lumen

800 Lux (bei 200 cm Screen)

Contrast
