 on the remaining battery level in the charging case.

Charging Indicator			Remaining
○	○	○	Over 75%
○	○	●	50〜75%
○	●	●	25〜50%
●	☼	●	Under25%

■Auto Power ON/OFF

Put the Ear Buds into Charging Case, Ear Buds power OFF automatically.
When pick up the Ear buds power ON automatically.
※When Case battery is low, this function does not work.

Switching Master and Slave

The role of the Master unit / Slave unit, when the earbuds taken out from the charging case, the earbud with the larger battery remaining becomes Master unit, the one with the low battery level becomes Slave unit.
For this reason, there is a possibility that Master unit and Slave unit may be switched each time the earbuds is taken out from the charging case.
Also, by periodically putting the earbuds in and out of the charging case, you can efficiently use the batteries of the left and right earphones. So it will be able to operate for a longer time.
Master earbud is displayed as "Connected" on the Bluetooth screen of the connected device.

Active Noise Canceling (ANC)

This product equipped with active noise cancellation (ANC) and Ambient sound functions.
Each time you press the sub-button, the function switches from ANC to Ambient and then to Off.

This product's active noise canceling function uses two microphones, an outward-facing microphone and an inward-facing microphone, to capture external noise.
It captures sound and digitally reduces unwanted noise.
The effectiveness level of active noise cancellation can be changed in the N10 CONNECT app.

ANC Mic

When the Ambient sound function is enabled, you can listen to the ambient sound through the earbuds.
The operation settings for Ambient sound function can be changed with the N10 CONNECT app.

※ANC and Ambient sound cannot be used at the same time.

N10 CONNECT APP

The N10 CONNECT app (free of charge) allows you to get the most out of this product.
You can customize various features, update the firmware and more.

Download the app by searching for "N10 CONNECT" in the Apple App store or Google Play store.

Federal Communications Commission Part15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

Herey declare our ANC Truly Wireless Stereo Earbuds does not have enough space to print the product name、model and tademark on the product itself, thus we locate them on product packaging.About MIC ID and LOGO are printed on the headset
