

Slush Frozen Drink Machine

1050W Powerful Motor & Digital Screen Display & Changeable Light Box

- The 8L freezing drink dispenser provides an attractive way to serve your guests their favorite fresh juices. Compact and durable construction is a huge plus to any contemporary dining space, catered event, or banquet, and it dispenses a variety of frozen beverages with added convenience and accessibility. Suitable for both commercial and family use. It features a premium compressor with a solid copper condenser that cools rapidly, saves energy, and operates at low noise. Set the bar for quality higher and taste the difference with VEVOR!
- 8L Slushie Machine
- Quality that Can't be Beaten
- Rapid Refrigeration & Blending
- Precise Control Panel
- A Drink for Everyone

Key Features

Stainless Steel Material

Made of high quality food grade stainless steel, which has excellent corrosion and rust resistance.

Surplus Discharge

Discharging the remaining ingredients to avoid clogging.

Shortage Reminder

Remind you to replenish the raw material in time.

Designed Just For You

The slush maker has a password lock function to avoid other unauthorized personnel from operating it. It inserts potential warnings in advance and provides solutions on the machine so that you can find and solve problems quickly.

Details That Can't Be Missed

This margarita machine is forged from stainless steel for easy cleaning; the body has a small hole for remaining material, making it less likely to clog. There is also a shortage reminder in the cylinder for timely replenishment of raw materials; it also includes a gorgeous advertising light box that can be changed at will to suit your favorite poster.

Wide Application

Taste ice-cool juice, tea, coffee or any beverage to your heart's content! More than suitable for prosperous catering businesses including chain restaurants, commercial streets, convenience stores, hotels, schools, families and other places with high demands.
