INTRODUCING BLUETOOTH®

Your new **LS6381/LS6381-2/LS6381-3/LS6381-4/LS6381-5/LS6382/LS6382-2/LS6382-3/LS6382-4/LS6382-5/VS324/VS324-2/VS324-3/VS324-4/VS324-5** telephone system with Bluetooth wireless technology has the following features:

- Pair up to two Bluetooth enabled devices (cell phones or personal computers) with the telephone base.
- Connect one cell phone at a time to make and receive cell calls.
- Receive calls using your cell phone service with your telephone base or system handsets.
- Download phonebook entries from your cell phone.
- Stream audio and music from your cell phone or personal computer to the telephone base.

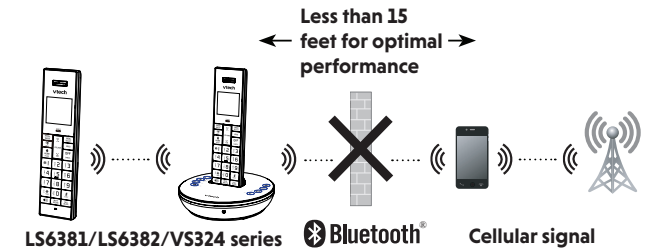

NOTES

- Your **LS6381/LS6381-2/LS6381-3/LS6381-4/LS6381-5/LS6382/LS6382-2/LS6382-3/LS6382-4/**

LS6382-5/VS324/VS324-2/VS324-3/VS324-4/VS324-5 is compatible with Bluetooth version 2.0 or above devices.

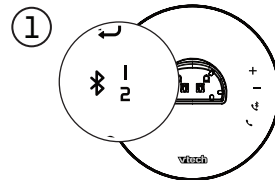

- After plugging in the telephone base, wait at least 20 seconds before connecting a Bluetooth device.
- Bluetooth wireless technology operates within a short range (a maximum of approximately 15 feet) from the telephone base. Keep connected cell phones and personal computer within this range.

ADD A BLUETOOTH CELL PHONE/PERSONAL COMPUTER

You can pair up to two cell phones or personal computers to the telephone. To use a paired device, it must be paired and connected.

Select a device slot:

Press  on the telephone base when in idle to select a Bluetooth device slot.

Each press toggles between slot 1 and slot 2.

The LED of the selected device slot lights up and indicates the device status in different colors.

Add a cell phone/PC:

After selecting a device slot, press and hold  on the telephone base for 4 seconds to enter pairing mode.

When the LED of the selected slot is flashing blue, turn on the Bluetooth feature of your cell phone or PC and search for or add new devices.

Once your device finds your telephone (**Vtech DECT 6.0**), press the appropriate key on your device to continue the pairing process.

- 4 When a Bluetooth device is successfully paired and connected to the telephone, the LED of the selected slot will turn to steady blue. The handset screen will display  1 (slot 1) or  2 (slot 2).

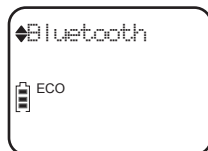

SELECTED SLOT 1/2 LED  COLORS		LED COLOR INDICATION OF SELECTED SLOT
Blue	Flashing	Telephone base tries to pair with your Bluetooth device.
Blue	Steady on	Paired and connected. Ready to use.
Red	Steady on	No Bluetooth device is paired or pairing failed.
Purple	Steady on	Paired but lost connection. Telephone enters auto-connection mode for 60 minutes.
Off		Paired but auto-connection mode is timed out. Press  on the telephone base to turn on the auto-connection mode.

REVIEW THE DEVICE LIST

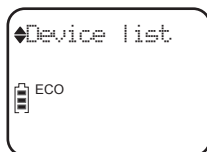

Check what devices you have paired to the telephone system.

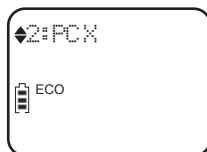

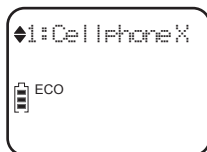

- 1 Press **MENU** on the handset.

- 2 Press **▼/▲** to scroll to **Bluetooth**, then press **SELECT**.

- 3 Press **SELECT** to choose **Device list**.

TIP
When a device (1: or 2:) is displayed on the handset screen, press **DELETE** will remove the device.

DOWNLOAD CELL PHONE PHONEBOOK

Before downloading a phonebook, make sure the cell phone is paired, active, and connected to your telephone system.

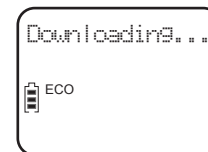

- 1 Press **MENU** on the handset.

- 2 Press **▼/▲** to scroll to **Bluetooth**, then press **SELECT**.

- 3 Press **▼/▲** to scroll to **Download PB**, then press **SELECT**.

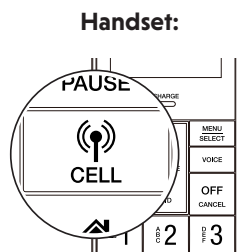

OPERATE WITH BLUETOOTH

Make sure your device is paired and connected to your telephone system via Bluetooth.

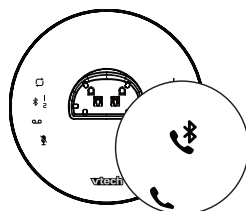

Make a cell line call

Handset:

- 1 Enter the phone number.
- 2 Press .

Telephone base:

Answer a cell line call

Handset:

Telephone base:

Press  - OR -  - OR -

Stream audio and music at base

- 1 Make sure your cell phone or PC is paired and connected.
Music or audio played on your device will automatically transfer to the telephone base.
- 2 Press  on the telephone base to play or pause the music.

TIP
Use your connected cell phone or personal computer to make further controls, for example, skip tracks or end cell calls.

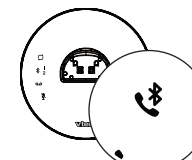

ACTIVATE REMOTE VOICE CONTROL

Handset:

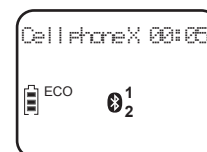

- 1 Press **VOICE** on the handset.

Telephone base:

- OR - Press and hold  on the telephone base.

- 2 When the telephone plays the confirmation tone as forwarded by the cell phone's voice app, start speaking toward the handset or telephone base, and then wait for feedback. Make reply to the voice app's feedback, if necessary.

NOTE
If you press **VOICE** while the telephone is in idle and has no paired cell phone(s), then the handset will prompt **Pair cell first** to remind you for remote voice control activation.
