	Input Voltage	100-277V AC
	CCT	6500K
	Mounting	Suspension / Surface mount
	Life span	> 30,000 hours
	Warranty	24 Months

INSTALLATION

- Connect the tubes by series as follows, each red circles requires its own power source.

CAUTION!!

1. Please be careful when connecting the light bars with the connectors. Don't damage the copper needle in the connectors.
2. TEST BEFORE INSTALLING TO THE CEILING.
3. Only 1 connector for AC input cord:
Printed wire / Black - Line
Blank wire / White - Neutral

1. Confirm the correct AC input connector

2. Connect the 120° Y connector

3. Connect the 120° V connector

Note: Use one cable per 62 tubes, with a maximum connection of 440W@120V. If you need to use more than 62 tubes, make sure to evenly distribute the input lines. For any questions or assistance, feel free to contact us.

- How to install it on the ceiling.

1. Grid roof - Tie it with zip ties

2. Flat roof - Screw the connector from the hole to the ceiling directly

Remarks:

1. There should be 1 wire out to connect with 120V;
2. Please install by professional electrician;

⚠ WARNING

Please do not match the connectors by violence, it would damage the whole set of lamps.
If it does not match the lamps well, please try to joint accurately or change the lamp, do not damage the connectors by violence. Test by AVO meter before powering on.

The well made copper parts
