Cautions

1. Install the charger according to the instruction.
2. Do not install the charger under any metal desk.
3. Do not place any metal objects, credit card and ID cards on the charging area. Or it might activate the FOD function and cause the device display flashing situation.
4. Keep away from humidity and heat.
5. The working temperature should be 0-30°C
(10-25°C is best working temperature).
6. Do not cover the fan when using.
7. Do not try to disassemble, repair or remold the product by yourself.
8. Unplug this device when unused for long periods of time.
9. Do not drop, squeeze or puncture the device.
10. Cut off the power before cleaning the charger.
11. Keep it beyond the reach of children.
12. Please use the original adapter to ensure the charging effects.

13. Only supports Qi standard wireless charging mobile phones.

14. Charging time depends on battery capacity, phone input specifications, current phone energy consumption, phone position on the wireless charger, charging distance, etc.

15.If mobile phones cannot be charged due to other factors, please move the phone out of the charging area and try again.
