

Temple Touch Mini Thermometer

Model 09-330/09-331

THANK YOU FOR PURCHASING A MINI TEMPLE THERMOMETER. PLEASE READ THESE INSTRUCTIONS CAREFULLY TO ENSURE PROPER USE AND SAFE OPERATION OF YOUR THERMOMETER.

QUICK START TIPS

1. Press and release the POWER button, wait 2-seconds.
2. Hold unit firmly to temple until a long single beep is heard, 6-8 seconds.
3. Results will be displayed on the screen.
4. Wait one minute before new measurement.
5. To alternate between $^{\circ}\text{F}$ and $^{\circ}\text{C}$, press and hold the POWER button.

PLEASE READ AND SAVE THESE INSTRUCTIONS

- This product is not intended to diagnose or treat any health problem or disease and should not be used as a substitute for the consultation and advice of a physician or other medical professional.
- Thermometers should only be used under the supervision of an adult.
- Before use, it is recommended that the patient avoid eating, drinking, smoking, or exercising for at least twenty minutes prior to taking a measurement. Never walk, run or talk during a measurement.

NORMAL BODY TEMPERATURE AND FEVER

Body temperature can vary from 97°F and 100.0°F and still be considered normal. The medically accepted "normal" body temperature is 98.6°F . Body temperature is commonly lower in the morning than at any point during the rest of an individual's waking hours.

Temperature readings will vary based on the body location point of the reading. Average "normal" temperature ranges by measurement location site:

Forehead	97.0°F – 100.0°F (36.1°C – 37.8°C)
Oral	97.0°F – 100.0°F (36.1°C – 37.8°C)
Rectal	97.3°F – 100.4°F (36.3°C – 38.0°C)
Axillary	95.4°F – 99.0°F (35.2°C – 37.2°C)

A fever is defined as a body temperature that is elevated above the normal for that person. It is important to determine what is normal for an individual before determining if a fever is present. Tracking an individual's temperature on a consistent basis, at the same body site and at the same time everyday when the person is well or healthy will help determine an individual's normal temperature.

GUIDELINES FOR TEMPLE MEASUREMENTS

This thermometer is designed to measure the temperature at the forehead, in proximity to the temple area between the end of the eyebrow and the hairline.

- Do not place the thermometer on scar tissue, skin disorder, open sores or abrasions, or patients in trauma.
- Consult your physician when using drug therapies that may elevate skin temperature in the forehead.
- Do not use skin exposed to direct sunlight, fireplace heat, air conditioner or fan air flow, or hot/cold compress therapies.
- **Wait at least one minute between measurements to allow the unit sensor to readjust to room temperature.**
- If the thermometer has been stored in an excessively cold or warm environment, allow the thermometer to adjust to the ambient room temperature before use. Performance and operation of this unit may be compromised if operated outside of the specified temperature and humidity operating ranges.

OPERATING INSTRUCTIONS

1. Press and release the POWER button to activate the thermometer.
2. The unit will beep and the thermometer will perform a self-test, showing all of the symbols on the display, Fig 1.
3. The last measurement taken will show on the display.
4. Gently place the probe in the center of the temple area between the end of the eyebrow and the hairline. Maintain firm contact with the skin, hold the thermometer in place during the reading and do not move the thermometer to ensure reliable results.
5. If not press the power button again. The measurement will start automatically once the probe is in place and will take approximately 6-8 seconds. A running circle will appear on the display indicating the reading is in progress, Fig 2.
6. The unit will sound one long beep when the measurement is complete and the reading will appear on the display, Fig 3.
7. To turn the unit off, simply press the POWER button. The unit will automatically shut-off after approximately one minute.

NOTE: If you take another measurement before 1 minute has elapsed, the device will perform a 10 to 0 countdown to allow the device to reset for a new measurement.

DO NOT TRY TO MEASURE DURING THIS COUNTDOWN. If you attempt to measure during the countdown time, the device will display the previous result, beep 8 times and turn itself off automatically.

CHANGING MODES - FAHRENHEIT OR CELSIUS OPERATION

This unit defaults to Fahrenheit measurement. To change modes:

1. Press and hold the POWER button for approximately 5-seconds.
2. The unit will beep, then the display will indicate the self-test screen, last measurement and finally will show only the current mode in the upper right corner.

3. Continue to hold the POWER button, the $^{\circ}\text{F}$ or $^{\circ}\text{C}$ will alternate to the desired mode, either Celsius or Fahrenheit.
4. Release the POWER button. Either proceed with your measurement, or press and release POWER to shut the unit off.

MEMORY RECALL

This unit includes a recall of the last measurement taken. When the unit is OFF, press the POWER button to turn the unit on, and release. After the self-test, the unit will briefly show the last reading on the display.

REPLACING THE BATTERY

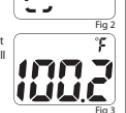

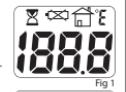

This thermometer includes 2 AAA 1.5V batteries. The low-battery symbol will appear on the top center of the display when the battery needs to be changed.

1. Carefully slide the battery cap away from the unit.
2. Replace the batteries, taking care to match the correct polarity.
3. Carefully replace the battery cap.
4. Do not dispose of used batteries in the trash. Consult your local recycling center for the proper way to dispose of batteries in your area. Keep used batteries away from children, pets and excessive heat.

TROUBLESHOOTING / IDENTIFYING DISPLAY SYMBOLS

The thermometer has been designed to display feedback/warnings to ensure proper usage and accurate temperature measurement. When an error appears, the device will "beep" 5 times, and then the thermometer will turn off automatically. In the event of a malfunction or incorrect temperature measurement, the following warnings will be displayed:

ERROR	PROBLEM/CAUSE	SOLUTION
H1	The measured temperature is above 107.6°F (42°C)	1. Turn the unit OFF and then ON again 2. Retake temperature 3. If still reads H1, this indicates that the patient has a high fever; seek medical attention
L0	The measured temperature is below 95°F (35°C)	1. Turn the unit OFF and then ON again 2. Retake temperature 3. If still reads L0, this indicates that the patient has a low body contact; seek medical attention
Er1	The thermometer is too cold or too hot to operate	1. Verify that the room temperature within product range 60.8°F – 104°F (16°C – 40°C) 2. Retake temperature
Er2	Temperature did not register because of poor contact, patient movement, or poor placement	Turn the unit OFF, wait 2 minutes, turn it ON again and retake temperature
Er3	Unit malfunctioned	Do not use the thermometer – contact Customer Care
B	Low battery - Battery icon displays continuously	Battery is low; enough power remains for approximately 10 measurements
BO	Drained battery - Battery icon is the only icon the display and unit turns off	Battery is completely expired and must be replaced

PRODUCT SPECIFICATIONS

MEASUREMENT TIME:	6-8 seconds
MEASUREMENT SITE:	Temple area of forehead
MEASUREMENT RANGE:	95.0°F – 107.6°F (35°C – 42°C)
OPERATING TEMPERATURE:	60.8°F – 104°F (16°C – 40°C) Humidity 15-95% (non condensing)
STORAGE TEMPERATURE:	-40°F – 107°F (-40°C – 42°C) Humidity 15-95% (non condensing)
MEASUREMENT SCALE:	Fahrenheit and Celsius
MEMORY:	Recall of last measurement taken
BATTERY:	2 AAA 1.5V batteries
BATTERY LIFE:	Approximately 24 months; minimum of 1000 measurements
AUTOMATIC SHUT-OFF:	After 5 minutes of non-use complies with ASTM E 1112-00 standards
ACCURACY:	Liquid crystal display
DISPLAY:	LCD 0.63" x 0.44"
DISPLAY RESOLUTION:	4.7" X 1.17" X 1"
DIMENSIONS:	1.3 ounces with batteries

Specifications are subject to change without notice.

ONE-YEAR LIMITED WARRANTY

Congratulations on your purchase of a Temple Touch Mini Thermometer. Your Temple Touch Mini Thermometer is covered by the following limited warranty commencing upon the date of purchase, and subject to the following terms and conditions:

The Warantor warrants that its Temple Touch Mini Thermometer will be free from defects in materials and workmanship under normal consumer usage for a period of one year for the original purchaser of the Mini Thermometer.

Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage. Defects or damage that result from: (a) improper storage, storage, misuse or accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or like, extreme heat, or food; (c) use of the Temple Touch Mini Thermometer for commercial purposes or subjecting the Temple Touch Mini Thermometer to unusual storage or conditions; or (d) other acts which are not the fault of the Warantor, are excluded from coverage. This does not cover batteries or other power sources that may be provided with, or used with the Temple Touch Mini Thermometer.

If the Digital Thermometer fails to conform to this limited warranty, return the Temple Touch Mini Thermometer to: **Attn: Repair Department, 1175 Lakeside Drive, Guruee, IL 60051.** When returning the unit, attach a copy of the sales receipt, a copy of the product packaging, and a brief description of the problem. Please include your name, address and telephone number. Carefully package the product to avoid any damage that may occur while in transit; shipping insurance with returned receipt is recommended. At no option, the warantor will repair or replace the unit found to be defective in materials or workmanship under normal consumer usage. The warantor will be notified of any additional repairs required prior to completing the repair, and will be responsible for parts charges, if any, and repair changes not covered by this limited warranty.

EXCEPT AS PROVIDED FOR IN THIS LIMITED WARRANTY, ALL EXPRESS AND IMPLIED WARRANTIES AND CONDITIONS ARE DISCLAIMED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE REPAIR OR REPLACEMENT PROVIDED UNDER THIS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED AS AN "AS IS" BASIS. THE WARANTOR SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR FOR DAMAGES TO PROPERTY, OR FOR LOSS OF OTHER PROPERTY OR EQUIPMENT OR PERSONAL INJURIES TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.
