

Smart Home Starter Kit Quick Start Guide

Thank you for choosing Aqara Smart Home Starter Kit.

Visit <https://aqara.com> for installation videos or follow the quick start guide that is included.

Aqara Smart Home Starter Kit is a smart home system with the Hub as the control center and includes a central gateway, a motion and temperature sensor, a wireless remote control, a smart plug and a light. It enables functions, such as, adding app capabilities, turning on the light automatically when motion is detected at night, and controlling the smart plug remotely with the help of the wireless remote control. Simply set up accessories in the app and more interesting scenes can be achieved.

Quick Setup

1. Download app
Scan the QR code in the App Store/Google Play, or use the QR code below to download and install the app.
2. Add accessories
