Temperature

OSD Setting

Chapter 05 Setting Up(Windows10)

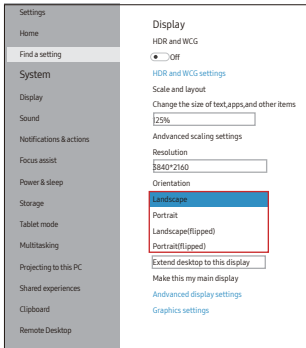

Set via Windows key + P keyboard shortcut

- A: Verify that your cables are connected properly to the new monitors.  
B: Enter the "Windows" key and "P" keyboard at the same time.  
C: select an option from the drop-down list to determine how your desktop will display across your screens. For the largest work area, select Extend desktop.

Rotate the Screen

- 1: Verify that your cables are connected properly to the new monitors.  
2: Right-click anywhere on your desktop and select Display settings to open the Display page.  
3: Under the "Select and rearrange displays" section, select the monitor that you want to adjust.  
4: Under the "Scale and layout" section, use the Orientation drop-down menu to select Landscape or Portrait screen.

Chapter 06 Q&A

**Q:** Abnormal conditions occurred - like the splash screen or spots when using the monitor.

- A:** 1. This situation is generally caused by insufficient voltage; Please check whether the factory-packed cables are used, and then check whether an external power supply is used.  
2. If the resolutions above do not work, please try another computer device. If it failed, please contact us for the replacement of the cable.

**Q:** The display is TURN-ON, shows "NO SIGNAL" or "POWER SAVING".

- A:** 1. Please check if the mobile phone or computer supports USB3.1/Thunderbolt 3 when you are using Type-C to Type-C to connect. IF NOT, An HDMI Adapter is required to transfer the signal ( the Computer) or 3 in 1 USB Type C HDMI Cable Adapter is required to transfer the signal (the mobile phone)  
2. Please check whether the connection is correct. Please use the genuine cable provided.  
3. The monitor battery is low, please use external power adapter to supply  
4. Please try another computer. If it failed, please contact us for the replacement of the touch cable.

**Q:** My phone is a Google brand, but I cannot connect it directly to the display?

- A:** Some Google phones cannot be connected directly to the display.  
The mobile phone interface needs to support USB3.1 in order to connect directly to the display.  
Please confirm if your mobile phone supports it. If not, you need to purchase the "IOS / Android to HDTV" cable. If you need, you can tell us and we will send it to you .

**Q:** My camera and monitor are used together, but there is no display. What can I do?

- A:** ① Not all cameras can be directly connected to the monitor, it is determined by the camera model.  
② Please tell us your camera model and interface, we will help you solve it within 12 hours.

**Q:** The monitor is constantly restarting.

- A:** 1. It is caused by an insufficient power supply. Monitor required large power support. Please use the attached genuine cable provided to power the monitor.  
2. If use the mobile power bank to power the monitor, please confirm whether the mobile power bank is a power bank that has reached 30W or more. Please contact us if you need a power bank.  
3. If the resolutions above do not work, please try another computer device. If it failed, please contact us for the replacement of the cable
