PAIRING MOBILE DEVICE TO SURESHADE BLUETOOTH CONTROLLER

1900 47TH TERRACE EAST, BRADENTON, FL 34203 • PHONE: 877-333-8323 • INTERNATIONAL: 215-673-2307

NOTE:

• Bluetooth controllers are indicated with a **BLUE** sticker across the front of the box. If the sticker is **ORANGE** the box is operated with a key fob and not Bluetooth.

• **Actuators must be connected** when pairing a device to the Bluetooth Controller

1. Download the **SureShade Control** App (Not SureShade Bimini)

2. Open **SureShade Control** App and press the "Connection" button

3. Press "Add SureShade"

4. The controller will be in open pairing mode for 120 seconds after power is applied.

• Afterwards you can cycle power or press the rocker switch Retract 3 times in a row. The ATX controller (21 pin connector type) will display the actual serial # on the controller on screen

NOTE: Previous versions the number shown will in no way identify with the controller.

5. Press Pair

6. There are 2 versions that will be displayed based on the version controller you have.

• First one is the previous BT controller (3 grey cables extending from the box)

• Second is the ATX controller (Newest version 21 pin connector) That will have the addition of the Auto Extend and Auto Retract buttons.
