Quick View

Specifications

Model No.	GL-TM52
Material	PET+PA
Battery	3200mAh ²
Power	20W
Charging Port	Type-C
Charging Input	DC 5V/2A
Charging Time	3 Hrs
Working Time	40 Minutes
Product Weight	232 g
Product Dimensions	166×71×35 mm

Operation Guide

1. On/Off Button: Press the "On/Off Button" for 2 seconds to start. Press the "On/Off Button" for 1 second to power off.

2. Temperature Setting Adjust: After startup, every touch of the "On/Off Button" will increase or decrease the temperature by one level. It reaches the temperature we set when the temperature indicator stops flashing. We recommend that you first choose the highest temperature, then decrease the temperature accordingly.

a: For hard beard, select 210°C/410°F.

b: For general beard, select 180°C/356°F.

c: For soft beard, select 150°C/302°F.

Power Display:

"Power Display" has three settings. It shows "How much electricity it has".

We suggest you charge it when there is 1 LED light on. Do not use it when charging, as it could damage the batteries. The indicator lights flash when charging.

How to use it?

a: Please keep your beard clean and tidy before use.

b: First turn it on and wait for the temperature to rise to the set value.

c: Make sure your beard is tidy before use, and then brush the beard from top to bottom.

d: For the amount of beard to put into the brush, it should not be too much. If you brush too much beard, please brush more slowly.

e: Batteries have passed the aging test before sending to you, the remaining power is insufficient, you need to charge it for first use.

f: Auto Shut-off: For safety, this product will automatically turn off after 30 minutes of being on.

Cleaning and Storage

1. Make sure the power is off, unplug the charging plug, and the product is not so hot.

2. Use a cleaning brush or cotton swab to clean.

3. Make sure the product is dry when preserved.

Safety Precautions

To ensure you use this product correctly, please note the following safety precautions:

Do not allow children under 14 years old to use this product.

Do not use this product with water, in the bathroom, or in wet areas.

Do not use this product to beat something or drop it from high. If it is damaged, please do not use it.

Do not disassemble or repair the product by yourself.

This product cannot be put near fire or external heating.

Warning

1. Do not use in the basin, bathtub, and pool, as it is easy to cause damage to the product.
2. Please check if there is any damage before use. Please stop using it if damaged.
3. Check that the cable is damaged or not. If damaged, please stop using it.
4. Do not arbitrarily place the rechargeable product, so as to avoid it being used by children.
5. When placing the product, wait until it is cool.

Advantages

1. USA High Temperature Resistant Engineered Plastic Shell (PET/PA).
2. High Quality Electronic Main Board (European CE standard and USA standard).
3. The advantages compared to traditional beard straighteners.
4. Rotatable and faster than traditional beard straighteners.
5. Easy for personal use to straighten the beard.
6. Small and portable, also eliminates the cord.
7. It is not easy to damage the beard on both sides, quickly absorbs moisture from the beard. This product only works during the brushing process, and the beard loses less water.
8. New design, safe, practical, small, compact, generous, and exquisite.

Caution

1. If you use it for the first time, it shall be fully charged; the charging port is Type-C, and it takes 3 hours to fully charge.
2. After being fully charged, it can be used continuously for 28 minutes at the highest temperature and 40 minutes at the lowest temperature.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
