本设备需连接SONOFF ZigBee网关进行智能操作。

⚠ 设备支持其他无线协议为ZigBee 3.0的网关, 具体以实际产品为准。

断电

⚠ 设备安装、故障维修请由专业资质电工操作, 以免发生触电危险! 设备在正常使用的情况下不可触碰到。

接线

⚠ 确保零火线接入无误。

⚠ S1/S2接或不接机械开关两端(不支持自动回弹的机械开关), 设备都可以正常使用。为确保安全, 请勿接入零火线等强电。

ZSS配置说明

1. 下载最新版Alexa App

Amazon Alexa

2. 添加亚马逊音箱

>

3. 添加设备

将设备上电后，信号指示灯呈“闪烁”状态，等待1-2分钟，再刷新Alexa App的设备列表，即可看到新添加的设备。

Ⓢ 如长时间未进行下一步操作，设备可能退出配对模式，如需再次进入，长按手动开关5秒直到信号指示灯“闪烁”即可。

Ⓢ 如果ZSS配置失败，可通过“易微联”App进行配网。

易微联 App 配网

1. 下载“易微联”APP

Android™ & iOS

2. 添加SONOFF ZigBee网关

3. 上电

通电后，设备首次使用，默认进入配对状态，信号指示灯呈“闪烁”状态。

⚠ 如长时间未进行下一步操作，设备可能退出配对模式，如需再次进入，长按手动开关5秒直到信号指示灯“闪烁”即可。

4. 添加子设备

打开eWeLink APP，选择要连接的网关，点击“添加”子设备，等待搜索添加设备。

⚠ 如添加失败，请将设备移近网关后再重新添加。

SONOFF ZigBee网关支持同时连接多个子设备

先将网关通电, 设置让所需配对的子设备进入配对状态, 然后打开eWeLink APP网关页面, 点击“添加”, 等待搜索添加设备。

更多APP应用平台及网关推荐

SmartThings

Amazon Alexa

Hue

本设备除支持SONOFF ZigBee网关外, 还支持以下网关:

Echo Studio
Echo (4th Gen)
Echo Plus (型号: ZE39KL)
2nd Gen Echo Show (型号: DW84JL)
2nd Gen Echo Plus (型号: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

添加说明:

1. 参照网关使用说明书下载相应APP和连接网关。
2. 将设备设置到配对模式。
3. 根据网关对应的APP提示添加设备, 添加过程中选择 eWeLink 或 SONOFF 品牌。

⚠ 如添加失败, 请将设备移近网关后再重新添加。

产品参数

产品型号	ZBMINI
输入	100-240V AC 50/60Hz 10A Max
输出	100-240V AC 50/60Hz 10A Max
ZigBee	IEEE 802.15.4
支持平台	Android & iOS
工作温度	-10~40°C
外壳材料	PC
产品规格	42.6x42.6x20mm

产品介绍

⚠ 设备重量<1Kg, 建议安装高度<2米。

产品特点

SONOFF智能开关 (ZigBee版) 基于ZigBee无线通讯协议, 通过连接ZigBee网关实现远程控制、设置定时开/关、设备智能场景联动等功能。

远程控制

智能定时/延时

语音控制

智能场景控制

分享功能

⚠ 以上功能特点取决于ZigBee网关的功能。

更换设备网络

设备更换新的网络环境使用时，需长按设备配对按钮5秒直到 ZigBee 指示灯呈闪烁状态，松开，此时设备进入快速配网模式，即可再次添加。

恢复出厂设置

在eWeLink app端“删除设备”，设备即恢复出厂设置。

The device can be operated intelligently via working with the SONOFF ZigBee Bridge.

⚠ The device can work with other gateways supporting ZigBee 3.0 wireless protocol. Detailed information is in accordance with the final product.

Power off

⚠ To avoid electric shocks, please consult the dealer or a qualified professional for help when installing and repairing! Please do not touch the switch during use.

Wiring instruction

⚠ Make sure the neutral wire and live wire connection is correct.

⚠ S1/S2 can connect with the rocker light switch (the self-return rocker light switch is not supported) or doesn't connect. To ensure safety, do not connect the neutral wire and live wire to it.

ZSS setup instruction

1. Download the latest Alexa App

Amazon Alexa

2. Add Amazon Echo

>

3. Add device

After the device is powered on the LED signal indicator flashes., wait 1-2 mins to refresh the device list in Alexa App, and the added device will appear in the device list.

ⓘ The device will exit the pairing mode if no next operation for a long time. If enter again, please long press the manual switch for 5s until the LED signal indicator flashes and release.

ⓘ Please try to pair the device using eWeLink App if ZSS setup is failed.

eWeLink App pairing

1. Download APP

Android™ & iOS

2. Add SONOFF ZigBee Bridge

3. Power on

After powering on, the device will enter the pairing mode during the first use and the LED signal indicator flashes.

- ⚠ The device will exit the pairing mode if no next operation for a long time. If enter again, please long press the manual switch for 5s until the LED signal indicator flashes and release.

4. Add sub-devices

>

Access eWeLink APP, select the Bridge that you want to connect, and tap "Add" to add a sub-device, and be patient until the pairing completes.

- ⚠ If the addition failed, move the sub-device closer to the Bridge and try again.

SONOFF ZigBee Bridge supports connecting multiple sub-devices at the same time.

Power the Bridge on, set the sub-device to the pairing mode. Then access the Bridge page in the eWeLink APP to tap "Add", and be patient until the pairing completes.

More APP application platforms and gateway recommendations

SmartThings

Amazon Alexa

Hue

This device supports the following gateways besides SONOFF ZigBee:

Echo Studio
Echo (4th Gen)
Echo Plus (model: ZE39KL)
2nd Gen Echo Show (model: DW84JL)
2nd Gen Echo Plus (model: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Gateway adding instruction:

1. Refer to the gateway user manual to download the matched APP and get it paired.
2. Set ZBMINI to the pairing mode.
3. Add ZBMINI according to the prompt of APP. Please select eWeLink or SONOFF when adding.

⚠ If the addition failed, move the sub-device closer to the Bridge and try again.

Specifications

Model	ZBMINI
Input	100-240V AC 50/60Hz 10A Max
Output	100-240V AC 50/60Hz 10A Max
ZigBee	IEEE 802.15.4
Operating systems	Android & iOS
Working temperature	-10~40°C
Material	PC
Dimension	42.6x42.6x20mm

Product Introduction

- ⚠ The device weight is less than 1 kg.
The installation height of less than 2 m is recommended.

Features

The is a smart device with ZigBee wireless communication protocol that allows you to remotely turn on, schedule on/off and set smart scenes to trigger other devices, etc.

Remote Control

Single/Countdown
Timing

Voice Control

Smart Scene

Share Control

- ⚠ Above functions are determined by the connected ZigBee Hub.

Switch Network

If you need to change the network, long press the pairing button for 5s until the ZigBee LED signal indicator flashes and release, then the device enters quick pairing mode and you can pair again.

Factory Reset

Deleting the device on the eWeLink app indicates you restore it to factory setting.

Das Gerät kann intelligent betrieben werden, indem man mit dem SONOFF ZigBee Gateway arbeitet.

⚠ Das Gerät kann mit anderen Gateways zusammenarbeiten, die das drahtlose ZigBee 3.0-Protokoll unterstützen. Detaillierte Informationen sind in Übereinstimmung mit dem Endprodukt.

Ausschalten

⚠ Wenden Sie sich bitte an den Händler oder einen qualifizierten Fachmann, um Hilfe bei der Installation und Reparatur zu erhalten und um Stromschläge zu vermeiden! Bitte berühren Sie den Schalter nicht während des Betriebs nicht.

Verkabelungsanleitung

⚠ Vergewissern Sie sich, dass der Anschluss von Neutralleiter und stromführender Phase korrekt sind.

⚠ S1/S2 kann mit dem Wippenlichtschalter verbunden werden (der sich selbst zurücksetzende Wippenlichtschalter wird nicht unterstützt), muss aber nicht damit verbunden werden. Schließen Sie aus Sicherheitsgründen keine stromführende Phase und keinen Neutralleiter daran an.

ZSS-Installationsanweisungen

1. Laden Sie die neueste Alexa App herunter

Amazon Alexa

2. Fügen Sie Amazon Echo hinzu

>

3. Gerät hinzufügen

Warten Sie nach dem Einschalten des Geräts 1-2 Minuten, um die Geräteliste in der Alexa App zu aktualisieren, sodass das hinzugefügte Gerät in der Geräteliste erscheint.

- ⚠ Das Gerät verlässt den Kopplungsmodus, wenn über einen längeren Zeitraum keine weitere Bedienung erfolgt. Bei erneuter Eingabe drücken Sie bitte den Handschalter 5 Sekunden lang gedrückt, bis die LED-Signalanzeige blinkt und dann loslassen.
- ⚠ Versuchen Sie bitte, das Gerät anhand der eWeLink App zu verknüpfen, falls die ZSS-Konfiguration fehlschlägt.

Verknüpfung der eWeLink App

1. APP herunterladen

Android™ & iOS

2. Fügen Sie SONOFF ZigBee Bridge hinzu

3. Einschalten

Nach dem Einschalten schaltet sich das Gerät während des ersten Gebrauchs in den Kopplungsmodus und die LED-Signalanzeige blinkt.

- ⚠ Das Gerät verlässt den Kopplungsmodus, wenn über einen längeren Zeitraum keine weitere Bedienung erfolgt. Bei erneuter Eingabe drücken Sie bitte den Handschalter 5 Sekunden lang gedrückt, bis die LED-Signalanzeige blinkt und dann loslassen.

4. Untergeräte hinzufügen

>

Rufen Sie eWeLink APP auf, wählen Sie das Gateway, das Sie verbinden möchten, und tippen Sie auf „Hinzufügen“, um ein Untergerät hinzuzufügen, und haben Sie Geduld, bis die Kopplung abgeschlossen ist.

- ⚠ Wenn das Hinzufügen fehlgeschlagen ist, bewegen Sie das Untergerät näher an das Gateway und versuchen Sie es erneut.

SONOFF das ZigBee-Gateway unterstützt die gleichzeitige Verbindung mehrerer Untergeräte.

Schalten Sie die Gateway ein, stellen Sie das Untergerät in den Kopplungsmodus. Rufen Sie dann die Seite Gateway in der eWeLink APP auf, um auf „Hinzufügen“ zu tippen, und warten Sie, bis die Kopplung abgeschlossen ist.

Freigabesteuerung

- ⚠ Alle Funktionen werden durch den ZigBee Hub bestimmt.

Schalt-Netzwerk

Wenn Sie das Netzwerk wechseln müssen, drücken Sie die Paarungstaste 5s lang, bis die ZigBee LED-Signalanzeige blinkt und dann loslassen, wechselt und das Gerät in den Schnellkopplungsmodus wechselt, Sie können dann erneut paaren.

Zurücksetzen auf Werkseinstellungen

Wenn Sie das Gerät in der eWeLink-App löschen, wird es auf die Werkseinstellung zurückgesetzt.

El dispositivo puede operarse de forma inteligente trabajando con el SONOFF de ZigBee puerta de enlace.

- ⚠ El dispositivo puede trabajar con otras puertas de enlace que sean compatibles con el protocolo inalámbrico de ZigBee 3.0. La información detallada es conforme al producto final.

Apagado

- ⚠ Para evitar descargas eléctricas, consulte con su distribuidor o un profesional cualificado para solicitar ayuda durante la instalación y la reparación!
No toque el interruptor durante el uso.

Instrucciones de cableado

- ⓘ Compruebe que las conexiones del cable neutro y activo sean correctas.
- ⚠ Posible conectar S1/S2 con el interruptor de la luz (no se admiten pulsadores) o no conectarlo. Para garantizar la seguridad, no conecte el cable neutro y el activo al dispositivo.

Instrucción de configuración de ZSS

1. Descargue la última App Alexa

Amazon Alexa

2. Adicione Amazon Echo

3. Añadir el dispositivo

Después de encender el dispositivo, espere 1-2 minutos para que se actualice la lista de dispositivos en App Alexa, después de los cuales el dispositivo añadido App en dicha lista.

- ⚠ El dispositivo saldrá del modo de emparejamiento si no entra en funcionamiento por durante un largo periodo. Si vuelve a ingresar, mantenga presionado el interruptor manual durante 5 segundos hasta que el indicador de señal LED parpadee y suelte el botón.
- ⚠ Intente sincronizar el dispositivo usando la App eWeLink si la configuración ZSS falla.

Sincronización de la aplicación eWeLink

1. Descargar la aplicación

Android™ & iOS

2. Adicione SONOFF ZigBee Bridge

3. Encender

Después de encender el dispositivo, este se pondrá en modo de emparejamiento durante el primer uso y el indicador de señal LED emitirá parpadeos.

⚠ El dispositivo saldrá del modo de emparejamiento si no entra en funcionamiento por durante un largo periodo. Si vuelve a ingresar, mantenga presionado el interruptor manual durante 5 segundos hasta que el indicador de señal LED parpadee y suelte el botón.

4. Agregar subdispositivos

>

Acceda a la aplicación eWeLink, seleccione la puerta de enlace que desee conectar y toque en “Agregar” para agregar el subdispositivo, y tenga paciencia hasta que se complete el emparejamiento.

⚠ Si se produce un error al agregar, mueva el subdispositivo más cerca de la puerta de enlace e inténtelo de nuevo.

El SONOFF del puerta de enlace de ZigBee es compatible con la conexión de múltiples subdispositivos al mismo tiempo.

Encienda el Puente, configure el dispositivo subordinado en el modo de emparejamiento. Luego acceda a la página Puente en la aplicación eWeLink para tocar "Agregar" y sea paciente hasta que se complete el emparejamiento.

Más plataformas de aplicaciones y recomendaciones de pasarelas

SmartThings

Amazon Alexa

Hue

Este dispositivo admite las siguientes pasarelas además de SONOFF ZigBee:

Echo Studio
Echo (4th Gen)
Echo Plus (Modelo: ZE39KL)
2nd Gen Echo Show (Modelo: DW84JL)
2nd Gen Echo Plus (Modelo: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Instrucciones de adición de pasarelas:

1. Consulte el manual del usuario de la pasarela para descargar la aplicación correspondiente y emparejarla.
2. Establezca ZBMINI en el modo de emparejamiento.
3. Agregue ZBMINI de acuerdo con la solicitud de aplicación. Debe seleccionar eWeLink o SONOFF para agregar.

⚠ Si se produce un error al agregar, mueva el subdispositivo más cerca de la puerta de enlace e inténtelo de nuevo.

Especificaciones

Modelo	ZBMINI
Entrada	100-240V CA 50/60Hz 10A máxima
Salida	100-240V CA 50/60Hz 10A máxima
ZigBee	IEEE 802.15.4
Sistemas operativos	Android & iOS
Temperatura de funcionamiento	-10~40°C
Materiales	PC
Dimensiones	42.6x42.6x20mm

Introducción al producto

- ⚠ El peso del dispositivo es inferior a 1 kg.
Se recomienda una altura de instalación inferior a 2 m.

Características

Este es un dispositivo inteligente con protocolo de comunicación inalámbrica ZigBee que le permite encender/apagar de forma remota, programar encendido/apagado y configurar escenas inteligentes, entre otras funciones.

Control remoto
desde plicación

Sincronización
simple/regresiva

Control por voz

Escenas

Control compartido

- ⚠ Las funciones de más arriba están determinadas por ZigBee Hub.

Cambiar Red

Si necesitas cambiar la red, presiona sin soltar el botón de emparejamiento por 5 segundos hasta que el indicador de señal LED de ZigBee emitirá parpadeos. y luego de que dispositivo entre en el modo de emparejamiento rápido, podrás emparejarlo de nuevo.

Restablecimiento de los ajustes de fábrica

Si borras el dispositivo en la aplicación eWeLink se restaurará a valores de fábrica.

L'appareil peut être utilisé de manière intelligente en travaillant avec la passerelle SONOFF ZigBee.

- ⚠ Le dispositif peut fonctionner avec d'autres passerelles prenant en charge le protocole sans fil ZigBee 3.0. Les informations détaillées sont conformes au produit final.

Éteindre

- ⚠ Pour éviter les électrocutions, prenez contact avec le revendeur ou un professionnel qualifié pour obtenir de l'aide pour l'installation et les réparations éventuelles! Veuillez ne pas toucher l'interrupteur pendant l'utilisation.

Instructions de câblage

- ⚠ Assurez-vous que le fil neutre et le fil sous tension sont correctement installés.
- ⚠ S1/S2 peuvent se connecter au commutateur d'éclairage (le commutateur d'éclairage à rappel automatique n'est pas pris en charge) ou ne se connectent pas. Afin d'assurer la sécurité, ne pas lui connecter les fils de neutre et de phase.

Instructions de mise en place du ZSS

1. Téléchargez la dernière version de l'application Alexa

Amazon Alexa

2. Ajouter Amazon Echo

3. Ajouter l'appareil

Après la mise sous tension de l'appareil, attendez 1 à 2 minutes pour actualiser la liste des appareils dans les App Alexa, et l'appareil ajouté apparaîtra dans la liste des appareils.

⚠ L'appareil quittera le mode d'appairage si aucune opération suivante n'est effectuée pendant une longue période. Si vous entrez à nouveau, appuyez longuement sur l'interrupteur manuel pendant 5 secondes jusqu'à ce que l'indicateur de signal LED clignote et se relâche.

⚠ Veuillez essayer de coupler l'appareil en utilisant l'App eWeLink si la configuration du ZSS a échoué.

Couplage de l'App eWeLink

1. Télécharger l'application

Android™ & iOS

2. Ajouter SONOFF ZigBee Bridge

3. Allumer

Après la mise sous tension, l'appareil passe en mode d'appairage lors de la première utilisation et l'indicateur de signal LED clignote.

⚠ L'appareil quittera le mode d'appairage si aucune opération suivante n'est effectuée pendant une longue période. Si vous entrez à nouveau, appuyez longuement sur l'interrupteur manuel pendant 5 secondes jusqu'à ce que l'indicateur de signal LED clignote et se relâche.

4. Ajouter des sous-appareils

>

Accédez à eWeLink APP, sélectionnez la passerelle que vous souhaitez connecter et appuyez sur «Ajouter» pour ajouter un sous-dispositif, et soyez patient jusqu'à la fin de l'appairage.

⚠ Si l'ajout a échoué, rapprochez le sous-appareil de la passerelle et essayez à nouveau.

SONOFF ZigBee Passerelle permet de connecter plusieurs sous-appareils en même temps.

Allumez le Passerelle, mettez le sous-dispositif en mode d'appariement. Accédez ensuite à la page Passerelle dans eWeLink APP pour appuyer sur « Ajouter », et soyez patient jusqu'à ce que l'appariement soit terminé.

Plus de plateformes d'applications APP et de recommandations pour les passerelles

SmartThings

Amazon Alexa

Hue

Outre SONOFF ZigBee, ce dispositif prend en charge les passerelles suivantes:

Echo Studio
Echo (4th Gen)
Echo Plus (model: ZE39KL)
2nd Gen Echo Show (model: DW84JL)
2nd Gen Echo Plus (model: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Passerelle ajoutant des instructions:

1. Consultez le manuel d'utilisation de la passerelle pour télécharger l'APP correspondant et le faire appairer.
2. Réglez ZBMINI sur le mode d'appariement.
3. Ajoutez ZBMINI selon l'invite de l'APP. Vous devez sélectionner eWeLink ou SONOFF lors de l'ajout.

⚠ Si l'ajout a échoué, rapprochez le sous-appareil de la passerelle et essayez à nouveau.

Caractéristiques techniques

Model	ZBMINI

Dimensions	42.6x42.6x20mm

Présentation du produit

- ⚠ Le poids du dispositif est inférieur à 1 kg.
Il est recommandé d'installer le dispositif à une hauteur inférieure à 2 m.

Caractéristiques

Ceci est un appareil intelligent avec le protocole de communication sans fil ZigBee qui vous permet d'allumer/éteindre à distance, de programmer l'allumage/l'extinction, de définir des scènes intelligentes, etc.

Appli télécommande

Chronométrage
simple/compte à rebours

Contrôle vocal

Scènes intelligentes

Contrôle partagé

- ⚠ Les fonctions ci-dessus sont déterminées par ZigBee Hub.

Réseau de commutation

Si vous devez changer de réseau, appuyez longtemps sur le bouton d'appairage pendant 5s jusqu'à ce que le voyant lumineux l'indicateur de signal LED ZigBee clignote. puis relâchez et l'appareil passe en mode de couplage rapide, puis vous pouvez à nouveau vous appairer.

Rétablissement des paramètres d'usine

La suppression de l'appareil sur l'application eWeLink indique que vous le restaurez aux réglages d'usine.

Il dispositivo può essere azionato in modo intelligente attraverso SONOFF ZigBee Gateway.

❗ Il dispositivo può essere utilizzato con altri gateway che supportano il protocollo wireless ZigBee 3.0. Le informazioni dettagliate sono conformi al prodotto finale.

Spegnimento

⚠ Per evitare scosse elettriche, consultare il rivenditore o un professionista qualificato per assistenza durante l'installazione e la riparazione!
Non toccare l'interruttore durante l'uso.

Istruzioni per il cablaggio

❗ Assicurarsi che il collegamento del cavo di neutro e del cavo di fase sia corretto.

⚠ S1/S2 può essere collegato con l'interruttore della luce a bilanciere (gli interruttori della luce a bilanciere con ritorno automatico non sono supportati) o non si collega. Per garantire la sicurezza, non collegarvi il cavo neutro e il cavo sotto tensione.

Istruzioni di configurazione ZSS

1. Scarica l'ultima versione dell'App Alexa

Amazon Alexa

2. Aggiungi Amazon Echo

3. Aggiungere il dispositivo

Dopo l'accensione del dispositivo, attendi 1-2 minuti e aggiorna l'elenco dei dispositivi nell'App Alexa; il dispositivo aggiunto dovrebbe apparire nell'elenco dei dispositivi.

- ❗ Senza nessuna operazione successiva per un lungo periodo di tempo il dispositivo uscirà dalla modalità di associazione. Per entrare di nuovo, tenere premuto l'interruttore manuale per 5s fino a quando l'indicatore di segnale LED lampeggia e quindi rilasciare.
- ❗ Cerca di associare il dispositivo usando l'applicazione eWeLink se la configurazione ZSS non è riuscita.

Associazione attraverso l'app eWeLink

1. Scarica la APP

Android™ & iOS

2. Aggiungi SONOFF ZigBee Bridge

3. Accensione

Al primo utilizzo, dopo l'accensione il dispositivo entrerà in modalità di associazione e l'indicatore LED lampeggerà.

⚠ Senza nessuna operazione successiva per un lungo periodo di tempo il dispositivo uscirà dalla modalità di associazione. Per entrare di nuovo, tenere premuto l'interruttore manuale per 5s fino a quando l'indicatore di segnale LED lampeggia e quindi rilasciare.

4. Aggiungere sotto-dispositivi

Accedere all'APP eWeLink, selezionare il Gateway che si vuole collegare e toccare "Add" per aggiungere un sotto-dispositivo, Attendere fino al completamento dell'operazione.

⚠ Se l'operazione di associazione non dovesse andare a buon fine, avvicinare il sotto-dispositivo al Gateway e riprovare.

SONOFF ZigBee Gateway permette di collegare più sotto-dispositivi contemporaneamente.

Accendere il Gateway, impostare il sotto-dispositivo sulla modalità di associazione. Quindi accedere alla pagina del Gateway nell'APP eWeLink selezionare "Add", e attendere fino al completamento del processo di associazione.

Ulteriori piattaforme, applicazioni e raccomandazioni per i gateway

SmartThings

Amazon Alexa

Hue

Questo dispositivo supporta i seguenti gateway oltre a SONOFF ZigBee:

Echo Studio
Echo (4th Gen)
Echo Plus (Modello: ZE39KL)
2nd Gen Echo Show (Modello: DW84JL)
2nd Gen Echo Plus (Modello: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Istruzioni aggiuntive per il Gateway:

1. Fare riferimento al manuale utente del gateway per scaricare l'APP corrispondente e associarla.
2. Impostare ZBMINI in modalità abbinamento.
3. Aggiungere ZBMINI in base alle istruzioni dell'APP. Per aggiungere il dispositivo selezionare eWeLink o SONOFF.

⚠ Se l'operazione di associazione non dovesse andare a buon fine, avvicinare il sotto-dispositivo al Gateway e riprovare.

Specifiche

Modello	ZBMINI
Ingresso max	100-240V CA 50/60Hz 10A

ZigBee	IEEE 802.15.4
Sistemi operativi	Android & iOS
Temperatura di funzionamento	-10~40°C
Materiali	PC
Dimensioni	42.6x42.6x20mm

Introduzione al prodotto

- ⚠ Il peso del dispositivo è inferiore a 1 kg.
Si raccomanda un'altezza di installazione inferiore a 2 m.

Caratteristiche

Questo è un dispositivo intelligente con protocollo di comunicazione wireless ZigBee che ti consente di accendere/spegnere, programmare acceso/spento e impostare scenari intelligenti a distanza, ecc.

Telecomando
via APP

Conteggio singolo/
alla rovescia

Controllo vocale

Scene intelligenti

Controllo della
condivisione

- ⚠ Le funzioni illustrate sopra sono assegnate da ZigBee Hub.

Rete di commutazione

Se è necessario commutare la rete, premere a lungo il pulsante di accoppiamento per 5s fino a quando l'indicatore LED ZigBee lampeggerà. Il dispositivo entra in modalità di accoppiamento rapido ; a questo punto è possibile eseguire di nuovo l'associazione.

Ripristino impostazioni di fabbrica

La cancellazione del dispositivo sull'applicazione eWeLink indica il ripristino delle impostazioni di fabbrica.

Устройством можно управлять интеллектуально посредством шлюза SONOFF производства компании ZigBee.

⚠ Устройство может работать с другими шлюзами, поддерживающими беспроводной протокол ZigBee 3.0. Подробная информация соответствует характеристикам конечного изделия.

Выключить

⚠ Во избежание поражения электрическим током при установке и ремонте обращайтесь за консультациями к продавцу или квалифицированному специалисту! Не касайтесь переключателя во время использования.

Инструкции по проводке

⚠ Убедитесь, что провод нейтрали (ноль) и провод под напряжением (фаза) подключены.

⚠ Возможно подключение S1/S2 с помощью переключателя-тумблера (возвратный переключатель-тумблер не поддерживается). В целях безопасности не подключайте к нему провод нейтрали и провод фазы.

Инструкция по первоначальной настройке ZSS

1. Загрузите последнюю версию App Alexa

Amazon Alexa

2. Добавьте Amazon Echo

>

3. Добавить устройство

После включения питания подождите 1-2 минуты для обновления списка устройств в App Alexa при этом добавленное устройство отобразится в списке устройств.

- ⚠ Устройство выйдет из режима сопряжения, если на протяжении долгого времени не будет производиться никаких действий. Для повторного подключения зажмите на 5 секунд кнопку включения, после того, как загорятся светодиодные индикаторы, отпустите.
- ⚠ Если начальная настройка ZSS не удалась, попытайтесь установить соединение устройства при помощи App eWeLink.

Установка соединения при помощи App eWeLink.

1. Скачать приложение

Android™ & iOS

2. Добавьте SONOFF ZigBee Bridge

3. Включить

После включения, во время первого использования устройство перейдет в режим сопряжения, и замигают светодиодные сигнальные индикаторы.

⚠ Устройство выйдет из режима сопряжения, если на протяжении долгого времени не будет производиться никаких действий. Для повторного подключения зажмите на 5 секунд кнопку включения, после того, как загорятся светодиодные индикаторы, отпустите.

4. Добавьте суб-устройства

>

Осуществите доступ к приложению eWeLink, выберите шлюз, который желаете подключить, и коснитесь «Добавить», чтобы добавить суб-устройство, затем ждите завершения процесса установки соединения.

⚠ Если добавление не удалось, переместите суб-устройство ближе к шлюзу и повторите попытку.

Шлюз SONOFF ZigBee поддерживает одновременное подключение нескольких суб-устройств.

Включите питание шлюза, затем установите субустройство в режим сопряжения. Затем перейдите на страницу шлюза в приложении eWeLink, нажмите «Добавить», и подождите, пока сопряжение не будет завершено.

Больше платформ приложений и рекомендаций по шлюзу

SmartThings

Amazon Alexa

Hue

Данное устройство поддерживает следующие шлюзы кроме SONOFF ZigBee:

Echo Studio
Echo (4th Gen)
Echo Plus (Модель: ZE39KL)
2nd Gen Echo Show (Модель: DW84JL)
2nd Gen Echo Plus (Модель: L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Инструкция по добавлению шлюза:

1. Обратитесь к Руководству пользователя шлюза, чтобы скачать соответствующее приложение и выполнить сопряжение.
2. Установите ZBMini в режим сопряжения.
3. Добавьте ZBMini в соответствии с подсказкой приложения. Выберите eWeLink или SONOFF при добавлении.

⚠ Если добавление не удалось, переместите суб-устройство ближе к шлюзу и повторите попытку.

Технические характеристики

Модель	ZBMINI
Макс.входной ток	100-240В пер. тока 50/60Гц 10А
Макс.выходной ток	100-240В пер. тока 50/60Гц 10А
ZigBee	IEEE 802.15.4
Операционные системы	Android & iOS
Рабочая температура	-10~40°C
Материалы	PC
Размеры	42.6x42.6x20 мм

Знакомство с изделием

Светодиодный сигнальный индикатор(зеленый)

Светодиодный индикатор включения/выключения (красный)

Кнопка сопряжения/реключения вручную

⚠ Вес устройства составляет менее 1 kg.

Рекомендуется устанавливать устройство на высоте менее 2 м.

Функции

Это интеллектуальное устройство с протоколом беспроводной связи ZigBee, которое позволяет удаленно включать / выключать, планировать включение / выключение, настраивать интеллектуальные сцены и т. Д.

Управ. прилож.

Изолированный таймер/таймер обратного отсчета

Управл. голосом

Смарт-сюжеты

Доступ д/управл.

⚠ Вышеуказанные функции определяются ZigBee Hub.

Переключить сеть

Если Вам необходимо переключить сеть, удерживайте кнопку сопряжения в течение 5 с. и замигают светодиодные индикатор ZigBee сигнальные индикаторы. отпустите. Устройство перейдет в режим быстрого сопряжения, после чего Вы можете снова выполнить сопряжение.

Сброс до заводских настроек

Удаление устройства в приложении eWeLink означает, что Вы восстанавливаете его до заводских настроек.

O dispositivo pode ser operado de maneira inteligente através do trabalho com o SONOFF ZigBee Bridge.

- ⚠ O dispositivo pode funcionar com outras entradas que suportam o protocolo sem fio ZigBee 3.0. Informações detalhadas estão de acordo com o produto final.

Desligar

- ⚠ Para evitar choques elétricos, por favor consulte o seu distribuidor ou um profissional qualificado para auxiliar na instalação e reparo. Por favor não toque no painel durante o uso.

Instruções de instalação

- ⚠ Certifique-se de que os cabos neutro e fase estejam conectados corretamente.
- ⚠ É possível conectar S1/S2 com o interruptor de luz (não admite os interruptores pulsadores) ou não o conectar. Para garantir a segurança, não conecte o cabo neutro e fase ao dispositivo.

Instruções de instalação do ZSS

1. Baixe o aplicativo Alexa mais recente

Amazon Alexa

2. Adicione Amazon Echo

3. Adicione o aparelho

Depois que o dispositivo for ligado, aguarde de 1 a 2 minutos para atualizar a lista de dispositivos no Alexa App, e o dispositivo adicionado aparecerá na lista de dispositivos.

- ⚠ O dispositivo sairá em modo de pareamento se não houver alguma atividade durante um longo tempo. Se entrar novamente, por favor pressione o botão manual por 5 segundos até o indicador LED piscar e solte.
- ⚠ Tente emparelhar o dispositivo usando o eWeLink App se a configuração do ZSS falhar.

Emparelhamento do aplicativo eWeLink App

1. Baixe o aplicativo

Android™ & iOS

2. Adicione SONOFF ZigBee Bridge

3. Ligue

After powering on, the device will enter the pairing mode during the first use and the LED signal indicator flashes.

- ⚠ O dispositivo sairá em modo de pareamento se não houver alguma atividade durante um longo tempo. Se entrar novamente, por favor pressione o botão manual por 5 segundos até o indicador LED piscar e solte.

4. Adicionar sub-dispositivos

>

Acesse o aplicativo eWeLink, selecione o Bridge que você deseja conectar e toque em "Adicionar" para adicionar um sub-dispositivo, e seja paciente até que o emparelhamento seja concluído.

- ⚠ Se a adição falhar, mova o sub-dispositivo para mais perto do Bridge e tente novamente.

O SONOFF ZigBee Bridge suporta a conexão de vários sub-dispositivos ao mesmo tempo.

Ligue uma Bridge, defina o sub-dispositivo para o modo de comparação. Em seguida, acesse a página Bridge no eWeLink APP para tocar em "Adicionar" e seja paciente até que o comparador seja concluído.

Mais plataformas e gateways de aplicativos são recomendados.

SmartThings

Amazon Alexa

Hue

Este dispositivo suporta os seguintes entregues, além do SONOFF ZigBee Bridge:

Echo Studio
Echo (4th Gen)
Echo Plus (Modelo : ZE39KL)
2nd Gen Echo Show (Modelo : DW84JL)
2nd Gen Echo Plus (Modelo : L9D29R)
Samsung SmartThings hub
Philips Hue Smart Hub

Instruções para adição de entradas:

1. Consulte o manual do usuário para fazer o download do APP correspondente e emparelhamento com a internet.
2. Defina o dispositivo para o modo de emparelhamento.
3. Adicione o dispositivo de acordo com a instrução do APP. Você deve selecionar eWeLink ou SONOFF ao adicionar.

⚠ Se a adição falhar, mova o sub-dispositivo para mais perto do Bridge e tente novamente.

Parâmetros do produto

Modelo	ZBMINI
Entrada	100-240V AC 50/60Hz 10A
Saída	100-240V AC 50/60Hz 10A
ZigBee	IEEE 802.15.4
Sistemas operacionais	Android & iOS
Temperatura de trabalho	-10~40°C
Material de revestimento	PC
Dimensão	42.6x42.6x20 mm

Introdução ao produto

- ⚠ O peso do dispositivo é inferior a 1 kg.
Recomenda-se uma altura de instalação inferior a 2 m.

Funções

Este é um dispositivo inteligente com protocolo de comunicação sem fio ZigBee que permite te permite a ligar / desligar remotamente, agendar ligar / desligar e definir cenas inteligentes, etc.

Controle pelo
aplicativo

Programador de
tempo

Controle por voz

Cenas inteligentes

Compartilhar
controle

- ⚠ As funções acima são determinadas pela porta de entrada do ZigBee.

Mudar rede

Se você precisar alterar a rede, pressione e segure o botão de emparelhamento por 5s até que o indicador LED ZigBee piscar e solte. então o dispositivo entra no modo de emparelhamento rápido e você pode emparelhar novamente.

Redefinição de fábrica

Excluir o dispositivo no aplicativo eWeLink indica que você o restaurou para a configuração de fábrica.

FCC Warning

Changes or modifications not expressly approved by the party responsible for compliance could avoid the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Hereby, Shenzhen Sonoff Technologies Co., Ltd. declares that the radio equipment type ZBMINI is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
