Worldwide Achievement

No.1 consumer notebook brand in Asia-Pacific *(excluding China and Japan)
Top2 consumer notebook brand in China
Top2 consumer notebook brand in Central and Eastern Europe
Top3 consumer notebook brand in the world

NO.1 NO.2 NO.3

No. 1 Motherboard Brand in the World

ASUS makes the world's best-selling, most award-winning motherboards, shipping over 560 million units since 1989. They also form the reliable heart of every ASUS laptop.

One of the World's Most Admired Companies

ASUS has been named as one of the top 10 World's Most Admired Companies by Fortune Magazine in 2019, for its contribution to the computer industry.

53,095 Awards Won Since 2001

From 2001, ASUS earned 53,095 awards from some of the most prestigious international organizations and media groups around the world.

ASUS Green Technology

ASUS was the first global IT company in the world to achieve EU Ecolabel certification for laptops, and achieved 58,954 similar labels globally in 2018.

Most Valuable International Brand from Taiwan

ASUS is ranked as the most valuable international brand from Taiwan for the seventh consecutive year in the 2019 Taiwan Global Brands Survey, conducted by world-leading brand consultancy Interbrand.

Top 100 Global Technology Leader

ASUS has been named as a 2018 Top 100 Global Technology Leader by Thomson Reuters, reaffirming the company's position as a top technology brand.

57,156 Awards Won Since 2001

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to received worldwide recognition for every aspect of product development, including design, innovation, technology, quality, service, and energy efficiency.

Since 2001, ASUS has earned a total of 57,156 awards from some of the most prestigious international organizations and media groups around the world. Each award is a testament to our relentless quest and commitment to creating solutions designed for everyone to joy.

Windows Hello. Password goodbye.

Fortune Magazine named ASUS as one of the World's Most Admired Companies 2019, the definitive ranking of corporate standing.

ASUS products won 9 Good Design awards in 2018. Each Good Design award recognizes excellence in design and engineering.

ASUS products won 4 CES® 2019 Innovation awards, recognizing the highest standards in product design and engineering.

ASUS products won 22 iF Product Design awards in 2019. iF Design awards are recognized worldwide as a seal of quality.

ASUS won 21 Red Dot Awards, recognized professional design, worldwide, in 2019, bringing the company's total since 2001 to almost 100 Red Dot Awards.

ASUS won 22 Awards in 2018. Taiwan Excellence awards are the highest standards in product design and engineering recognized by government.

POKDEWARD - Silver
A beautiful 4K OLED display, a secondary 4K display for the ScreenPad+, an immaculate aluminium chassis, beefy hardware under the hood.
ZenBook Pro Duo

GAMERSANTAI
Kualiti binaan dan spesifikasi tinggi ZenBook Pro Duo patut menerima pujian, tetapi titik jualan utamanya iaitu Screenpad Plus adalah pemenang.
ZenBook Pro Duo

GEMPAK
Dengan ScreenPad Plus, anda akan mendapat ruang pandangan yang lebih luas berbanding komputer riba lain di pasaran.

Incredible Innovations

Established in 1989, ASUS is passionate about technology and driven by the desire to remain a leader in the new digital era. Simply, innovation is part of the ASUS DNA.

ISA-386C
The first mass-produced ASUS motherboard

P6300
The first ASUS laptop is launched

600 days on Mir
ASUS laptops used for 600 days on the Mir Space Station

S8
The first ASUS laptop to win a Good Design Award

A1
Innovative multimedia-focused laptop

EeePC 701
World's first netbook: the product that started the revolution

1989

ASUS-Lamborghini VX
Officially co-branded ASUS-Lamborghini laptop

S6
The world's first laptop covered with genuine leather

W1 Carbon
The world's first carbon-fiber laptop

S5N
Ultraportable laptop with uncompromising performance

At the top of the world!
The first laptop to be used on the summit of Mount Everest

2006

Bamboo Series
Eco-friendly laptop with innovative bamboo cover

Eee PC 1008P
EeePC with techno-chic digi-wave design by Karim Rashid

NX90
Co-designed with master designer David Lewis

Eee Pad Transformer TF101
The first ever 2-in-1 PC

ZenBook UX301
The world's first laptop with a beautiful glass-covered lid

2008

ASUS Transformer T100
The first detachable 2-in-1 ASUS Windows laptop

VivoBook S200
The first ASUS VivoBook with Windows 8 and a touch display

ASUS TAICHI™
The world's first dual-screen Ultrabook™

2017's thinnest 14" laptop

ZenBook Pro series
Innovative ScreenPad™ revolutionizes computing

NEW ZenBook Pro Duo series
Experience ultimate dual-touchscreen productivity

2015

Ensuring The Best Quality Laptops

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That's why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding MIL-STD-810G standard*. Using up to 12 separate tests in environmental conditions, we hope you'll never encounter. So whether you're an urban explorer or an Arctic trailblazer, you can rest assured your laptop is ready for the worst that life on the road can throw at it.

Drop Test
Drop tests check the resistance of the chassis and internal components to damage from unexpected drops.

Vibration Test
Extensive vibration testing ensures that the chassis and internal components can withstand even the most extreme travel conditions.

Panel Resistance Test
Panel resistance tests ensure that the display can endure unexpected bumps or pressure.

Enhanced Hinge Test
Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

Shock Test
Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.

Keyboard Test
To ensure ultimate keyboard durability, specially designed ASUS robots test individual keys with millions of keystrokes.

Accelerated Life Test
These simulate the effects of long-term operation, so engineers can identify any possible design or component vulnerabilities.

EMI Test
This ensures that ASUS laptops perform well in internal or external electromagnetic fields.

Port Test
Port tests ensure that contacts and plugs are durable even in environments where devices are frequently connected and disconnected.

Altitude Test
This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.

Noise and Audio Test
Laptops undergo fan, hard drive, and power-supply noise tests to ensure the quietest performance possible.

Temperature Test
Extremely high or low temperatures tests ensure laptops' functions consistently for users everywhere.

*Selected ZenBook and ASUSPRO models will be tested according to the demanding MIL-STD 810G military-grade standard to ensure maximum reliability and durability and the number of tests passed by each laptop model is shown in the individual model's specifications sheet.

14 Prices displayed are inclusive all taxes & duties. Price, specification and availability are subject to change without prior notice. The models of free ASUS bundle gifts are subject to change without prior notice.

15

Reasons to choose ASUS laptop

For all our products, we have a simple goal: to enrich your digital world. Our exclusive software can enhance sound, vision, and touch to provide a truly extraordinary experience. Enjoy it!

Experience ultimate dual-touchscreen productivity

ASUS has a variety of exclusive applications created to increase the capabilities of your ASUS laptop. This includes useful tools and utilities for your daily computing, applications to enhance your entertainment experience, and software to improve productivity.

All of these applications are designed to give you a fun and more productive experience with your ASUS laptop. So don't forget to check out the ASUS Giftbox application and discover the amazing things that ASUS software can do for you!

ASUS Duo Screen

ASUS ScreenPad™ Plus gives you on-the-go computing like you've never experienced before. It's a full-width secondary touchscreen that works seamlessly with the main screen, giving you endless ways to optimize and personalize your workflow.

A series of handy built-in apps help boost your productivity. Quick Key allows one-tap automation of complex keyboard sequences, and Handwriting lets you input text intuitively. There are also useful quick controls such as App Switcher, ViewMax and Task Swap for intuitive interactions between the main display and ScreenPad Plus. Task Group lets you lock into work mode by opening multiple tasks with a single touch. And now you can drag apps or in-app toolbars onto ScreenPad Plus to give you more room to work on the main display, wherever you are.

ASUS ErgoLift

The precision-designed ergolift hinges have smooth dual action that holds the screen securely at any angle and slightly tilts the keyboard up to 4° to give you the perfect and comfortable typing position at all times, thus creates a familiar desktop keyboard feel.

The ErgoLift design also opens additional ventilation space to allow more air flow at the bottom of the chassis to keep internal temperature lower than standard laptop.

Adjust typing position

Improved cooling system

Increase audio performance

ASUS Nano Edge Bezel Technology

The NanoEdge Display Technology is designed to offer you larger screen-to-body ratio compare to the display size of an ordinary notebook. NanoEdge Display makes the bezel more slimmer until it makes the area size of notebook smaller than its original size.

For example, an ASUS notebook with 15-inch display equipped with NanoEdge display feature will normally made in form factor of a 14-inch notebook. This is the same for 14-inch notebook - the body size is merely as small as 13-inch notebook in general.

97%
Screen-to-body ratio

13.3"
FHD display

178°
Wide view angle

ASUS Splendid

ASUS Splendid technology enhances the display by reproducing more-brilliant colors for visually stunning experience, whatever you're looking at! And you don't even have to lift a finger, as it works by automatically fine-tuning the display settings — including color temperature, contrast and brightness — to optimize any kind of image. The result is richer, deeper colors and stunning visuals whether you're watching movies, playing games or browsing through your photos.

Normal Mode

Default Normal Mode gives you see through ASUS's panel appears to be as close as how you see the same thing with your own real eyes.

Eye Care Mode

ASUS Eye Care mode could reduce the emissions of blue light by up to 30% so that your eyes are always protected when Eye Care mode is used.

Vivid Mode

In Vivid mode, we make carefully-calculated adjustments to the color saturation of the images to make them look more vivid and vibrant.

Manual Mode

In Manual mode, you can easily adjust the color temperature to your taste, within a range of -50 to +50, using a simple slider control.

ASUS Tru2Life Video

ASUS Tru2Life Video is an exclusive video enhancement technology that's similar to that found in high-end TVs. It uses intelligent software algorithms to optimize the sharpness and contrast of every video frame, so that videos look clearer, more detailed and more realistic. Every time your computer sends a frame of video to the screen, ASUS Tru2Life Video analyses every single pixel in the frame and optimizes its brightness and sharpness individually.

ASUS SonicMaster

ASUS SonicMaster is a tailored mix of superior hardware and cleverly-designed software that gives improved audio quality, with louder, clearer, and more accurate sounds whatever you're listening to — movies, music, games or spoken words. It produces sound like you've never heard on a laptop, with a wider frequency range for clearer vocals and rich bass. It's as though you're at a live concert when listens to your favorite music, and blockbuster movies become totally immersive!

ASUS Audio Wizard

The ASUS Golden Ear team is a group of professional sound experts responsible for the entire audio subsystem of each device. Working with world-renowned audio technology companies such as Harmon Kardon, the Golden Ear team customizes and fine-tunes the audio hardware and software on every device to ensure that your sound experience is thrilling, immersive and unforgettable.

Music Mode

Bringing a true-to-life sound experience with minimal enhancements. Hear is exactly what the producer intended you to hear.

Movie Mode

Enhances the bass and high frequencies to give powerful sound effects, just as though you're in the cinema.

Gaming Mode

With the added spatial detail, you'll be able to enjoy worlds beyond your imagination.

Speech Mode

Speech mode compensates for common problems, for a better listening experience.

Recording Mode

Recording mode ensures that all your recordings are clear and well balanced.

 ASUS SuperBattery technology *

SuperBattery is an exclusive special battery preservation technology that gives ASUS batteries a 3X-longer lifespan compared to conventional laptop batteries. SuperBatt does this by intelligently monitoring and limiting the maximum charge that can be given to the batteries. This increased lifespan means fewer replacements, which as well as being environmentally friendly, also saves you money.

 ASUS Battery Health Charging App *

If a laptop is constantly plugged in and the battery stays at 98-100% of its maximum capacity for long periods, it will significantly decrease its lifespan and may even expand physically. Battery Health Charging App lets you manually limit the charge level to 60%, 80% or 100%, helping to increase the battery's operational life.

60%

Maximum lifespan mode

This mode maintains 60% charge capacity to prolong overall battery lifespan. It's recommended for those who are able to charge their device frequently.

80%

Balanced mode

This mode maintains 80% charge capacity to provide you with ample battery life, while at the same time prolonging overall battery lifespan.

100%

Maximum lifespan mode

Always charge the battery to 100%, so it's ideal if you're going to use the laptop on battery mode.

 ASUS Giftbox *

ASUS Giftbox offers a great range of popular apps and exclusive offers specially recommended to enhance your ASUS laptop. It gives you the power to personalize your laptop with the apps you know and love, and as a part of the ASUS family you can enjoy discounts on premium apps and ASUS-exclusive deals.

 ASUS Quiet Fan *

The new and easy-to-use Quiet Fan app lets you switch your laptop's cooling system between balanced and high performance modes. Turning on Quiet Fan provides you with balanced performance and a standard fan speed for near-silent computing; while turning Quiet Fan off ensures maximum cooling performance for demanding tasks.

Get more. Do more. With a complete PC

Pre-installed with genuine Windows and Office 2019

Word

Excel

PowerPoint

A complete PC means more for you

Better value

Enjoy all the benefits of owning a complete PC – one that comes pre-installed with Office Home & Student 2019.

Lifetime access of Office apps

Lifetime validity of Office apps ensures you'll always have access to features that you're familiar with and love using.

100% Genuine Office Apps

Comes equipped with 100% genuine Office applications, supported by regular security updates that protect your programs and devices.

Full Version of Office apps

Full versions of Office apps (Word, Excel, and PowerPoint) provides you with all the necessary functionalities that you've come to expect from the suite.

How to activate

Step 1

Activate your Windows PC.

Step 2

Start any Office app, like Word

Step 3

Sign in with your Microsoft account or create a new one.

Step 4

Complete the next step and accept the license agreement to start using Office.

FAQs:

Q1. Is this product free for lifetime or I will pay it at a later stage?

A1. Office Home & Student 2019 comes for lifetime with this PC.

Q2. What do you mean by Lifetime?

A2. Office Home & Student 2019 is for yours to use as long as you use this PC.

Q3. Do I get any Cloud storage?

A3. You first need to sign in with your Microsoft Account in order to use 5GB of OneDrive storage to upload and access your documents.

Q4. I use other devices as well, so can I transfer my Office to other devices?

A4. Office Home & Student 2019 comes preinstalled with this PC, hence it cannot be transferred to any other device.

Q5. Can people with earlier version of Office access the documents that I made and shared using Office Home & Student 2019?

A5. Yes. Office Home & Student 2019 is backward compatible.

Q6. Since Outlook doesn't come preinstalled, how do I configure my email?

A6. You can use the preinstalled Mail app on your Windows 10 PC to configure your email.

Q7. Is Internet access required to use Office?

A7. Office Home & Student 2019 comes preinstalled therefore you can work offline on your PC. You need Internet only in case you are saving your documents on OneDrive.

Q8. Can I buy Outlook separately?

A8. Yes, please visit www.office.com to buy Outlook separately.

Q9. Do I get any updates or upgrades for Office Home & Student 2019?

A9. Yes, you will get all the updates of Home & Student 2019. In case of upgrade you need to buy new version of Office separately.

Global 2-Year Warranty

We are confident in the quality and durability of our products, so we provide a 2 year warranty international worldwide for ASUS laptop*.

*For selected laptops , ASUS provides a 1-year international warranty .

ASUS TECH SUPPORT / PICK UP & RETURN SERVICE

Website : <http://www.asus.com/my/support/Contact-ASUS/>

Hotline : 1300 88 3495

Operation Hours : Monday - Friday 9am-6pm (Except Public Holiday)

ASUS Pick-Up & Return Service From Your Doorstep

On top of our 2-Year international warranty, we offer a premium Pick Up & Return Service for our customers and dealers. Customers can request for a door-to-door pick-up service, or simply drop off your ASUS device at the nearest ASUS Service Center or retailer for repair.

For Laptops, Mobile, and Tablet

4 Steps for ASUS Pick-up & Return Service

1 Call

1300 - 88 - 3495 request for Pick up & Return Service

2 CSR

A Customer Service Representative (CSR) will provide you with a Service Request number

3 Receive

You will receive a confirmation email, please print out the Delivery Docket form attached in the email

4 Pickup

Paste the deliver docket form on the box and wait for the courier to collect the device from you.

For Desktop and AiO

4 Steps for ASUS Onsite Service

1 Call

1300 - 88 - 3495 request for Pick up & Return Service

2 CSR

A Customer Service Representative (CSR) will provide you with a Service Request number

3 Receive

A CSR will give you a confirmation call to arrange for the next available service timeslot

4 Pickup

Wait for an onsite technician to service your Desktop or AiO

Experience ultimate dual-touchscreen productivity

ASUS ScreenPad™ Plus gives you on-the-go computing like you've never experienced before. It's a full-width 4K secondary touchscreen that works seamlessly with the main 15.6-inch 4K UHD OLED touchscreen, giving you endless ways to optimize and personalize your workflow. A series of handy built-in apps also help boost your productivity.

Perfect ergonomics, for stylus or keyboard

With ZenBook Pro Duo and the bundled stylus — or your favorite active stylus — you can really let your creativity flow. Both multitouch displays support stylus input, but ScreenPad Plus gives you a superbly ergonomic and stable platform for writing or drawing. Take notes, sketch out your ideas, or do precision graphical editing in the most intuitive way ever.

Ultrapowerful computing

ZenBook Pro Duo is powered by up to a 9th Generation Intel® Core™ i9 eight-core processor, the latest gaming-grade RTX™ 2060 graphics and blisteringly fast storage. This ultrapowerful combination ensures that ZenBook Pro Duo takes professional-quality tasks in its stride.

Core™ i9
Intel processor

RTX™ 2060
graphics

4K OLED HDR, Ultraslim bezels

To display the most accurate, most vivid, and most realistic colors possible, ZenBook Pro Duo's display has PANTONE® Validated color accuracy and supports an exceptionally wide 100% DCI-P3 color gamut, making it a superb all-rounder for professional work and entertainment.

NumberPad

ZenBook Pro Duo features the latest version of the ASUS NumberPad, an LED-illuminated numeric keypad integrated into the touchpad for input efficiency.

IR Camera

Enjoy hands-free login on your laptop, using the infrared camera with Windows Hello to login with just a glance — even in the dark!

Key Features

- 15.6" 4K (3840 x 2160) 16:9 OLED HDR touchscreen
- 14" 4K (3840 x 1100) 32:9 ScreenPad Plus
- NanoEdge display with 89% screen to body ratio
- PANTONE® validated display with 100% DCI-P3 and 133% sRGB color gamut support
- Backlit keyboard with 1.4mm travel distance
- LED-backlit NumberPad on touchpad
- IR webcam with Windows Hello support
- Harman Kardon certified audio

Travel light, travel smart

The compact, thin and ultralight all-metal design of ZenBook 13 and 14 make it the ideal traveling companion. It's also the world's thinnest 13-inch and 14-inch laptops to feature a full set of I/O ports — including HDMI and USB Type-A — so you can enjoy versatile connectivity wherever you are.

No charger? No problem!

With ZenBook 13 and 14's amazing 22-hour battery life, traveling without a charger isn't a big deal. When you do need to top up, its fast-charge feature can restore the battery to a 60% charge level in just 40 minutes, so you'll be ready to go in no time.

Connect fast — anywhere

ZenBook 13 and 14 redefine what's possible in an ultrathin laptop to give you a full complement of I/O ports, including full-size HDMI and USB Type-A ports. The power of Thunderbolt™ 3 is also at your disposal, with two Thunderbolt™ 3 USB-C® ports that support fast charging, 4K UHD external displays and up to 40Gbps data transfers. For easy transfers of data from your mobile devices, there's also an SD card reader.

Bright, clear, power-efficient display

ZenBook 13 and 14 have a bright and clear four-sided NanoEdge display, with slim bezels that create an 90% screen-to-body ratio for a more immersive viewing experience. The low-power 1-watt display delivers an incredible 450 nits of brightness, while maximizing battery life.

Key Features

- IPS-level wide-view technology
- **4-sided NanoEdge display with up to 90% screen-to-body ratio**
- **Certified by Harman/Kardon**
- Exclusive colors: pine Grey, lilac mist
- **Military-grade quality: MIL-STD 810G standard**
- Incredible **22 hours of battery life with 67Whs battery**

Exclusive NumberPad

ZenBook 13 and 14 heralds a new era of ultraportable design, with an ultracompact, ultralight chassis that makes it the world's smallest laptop series! None of the traditional ZenBook style has been lost, though: there's the iconic Zen-inspired spun-metal finish on the lid and a choice of prestigious Royal Blue or sophisticated Icicle Silver finishes, both newly enhanced with a contrasting Rose Gold trim panel above the keyboard for an extra touch of luxury.

The most compact design ever

ZenBook 15 heralds a new era of ultraportable design, with an ultracompact, ultralight chassis. Featuring the four-sided NanoEdge display, ZenBook 15 is one of the world's smallest 15-inch laptop and is 12% smaller than the previous generation ZenBook 15 (UX530) — so you can explore your creative vision anywhere!

Unbounded beauty

Designed to give you more screen area in less physical space, the NanoEdge design has slimmer bezels on all four sides to make any visuals more immersive, with less distraction for your eyes. It also features wide-view technology for clear images even when viewed from extreme angles. ZenBook 15 has a crisp, clear, up to 4K UHD resolution display that makes any visuals look their best, with wide viewing angles and vivid, accurate colors.

Unleash Your Creative Vision

Creativity. Style. Innovation. These are the qualities that define the elegant new ZenBook 14. Everything in this super-compact masterpiece is designed to give you the freedom to discover your creative vision. You'll appreciate not only the tremendous power within and the thoughtful attention to detail — such as the exclusive ErgoLift hinge and optional NumberPad touchpad — but also the timeless beauty of the design, with its sophisticated Utopia Blue finish enhanced by the stylish silver trim panel. ZenBook 14 is waiting: are you ready to unleash your creative vision?

Unbounded beauty with NanoEdge display

Designed to give you more screen area in less physical space, the NanoEdge design has slimmer bezels on all four sides to make any visuals more immersive, with less distraction for your eyes. It also features wide-view technology for clear images even when viewed from extreme angles. And thanks to this super-compact display, ZenBook 14 has a footprint that's as small as many 13-inch laptops — so you can explore your creative vision anywhere!

Power through everyday tasks

Designed to empower your creativity, ZenBook 14 doesn't sacrifice performance for size. It's built to give you all the raw power you need for effortless on-the-go computing. Featuring the latest Intel® Core™ processors, discrete graphics and a full complement of high-quality, high-performance components, ZenBook 14 will never keep you waiting. Whether you're creating complex documents, mining data, retouching photos, editing videos, or simply taking a gaming break, ZenBook 14 lets you do more — and do it quicker.

The ultimate audio experience

To create the astounding quad-speaker sound system in ZenBook 14, the ASUS Golden Ear team worked with renowned home and automotive audio experts Harman Kardon. Two bass speakers and two high-frequency speakers deliver smooth, clear and powerful full-range sound, while smart amplifier technology prevents distortion and speaker damage at high volumes. Together with ASUS SonicMaster technology — a combination of hardware and software fine-tuning — the results are truly astonishing. ZenBook 14 brings you the ultimate audio experience!

Key Features

- 4-sided NanoEdge display with up to 86% screen-to-body ratio
 - **Fingerprint sensor for fast and secure login**
 - **Quad-Speaker with Harman Kardon Audio Technology**
 - 2-channel Smart amp for louder sound
- 12.7 hours of battery life with 47 Whs battery
 - Full-size backlit keyboard with 1.4mm key travel distance
 - Military-grade quality: MIL-STD 810G standard

Discovery through color

It's time to be bold and show the world your uniqueness with VivoBook S14/S15. It has five striking discovery inspired color blocking styles. Building on the positive vibes generated by the colors of the previous generation, these latest color combinations and exquisite finishes highlight the intricate designs of VivoBook S14/S15.

Give yourself a lift

Open up VivoBook S14/S15 to enter a world of productivity and possibilities. Its precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and slightly tilts the keyboard by 3° to give you a perfect typing position every time.

See and do more on a frameless display

It's time to push the limits of what's possible. The new four-sided NanoEdge design gives VivoBook S14/S15 a frameless, almost-bezel-free display with vast amounts of screen area and extremely immersive visuals, perfect for work or play.

ASUS Chromebook Flip (C434)

The Best Just Got Better

Sleeker, faster, better

The stunning new ASUS Chromebook Flip C434 takes convertible Chromebook design to the next level. Its stylish contemporary looks, compact portability and powerful specifications are all designed to let you get things done with no fuss, all day and every day. ASUS Chromebook Flip C434 features a new four-sided NanoEdge 14-inch display – with ultraslim bezels and an incredible 87% screen-to-body ratio – for a truly immersive viewing experience, and the unique 360° ErgoLift hinge lets you work in supreme comfort. There's a world of apps to explore on the Google Play Store¹. When only the best is good enough, ASUS Chromebook Flip C434 delivers.

Crafted to perfection

ASUS Chromebook Flip C434 is styled for today, with a precision-crafted all-aluminum chassis finished with elegant diamond-cut anodized edges. Its refined looks are the perfect match for those who appreciate on-the-go versatility combined with peerless design.

Key Features

- Premium aluminum-alloy chassis weighs just **1.45kg**
- **Elegant design with diamond-cut edges**
- **Ultracompact 13"-class chassis with 14" display**
- **ASUS exclusive ErgoLift convertible hinge for versatile modes**
- **ErgoLift hinge with automatic keyboard tilt for comfortable typing**
- Stunning 14-inch FHD touchscreen for intuitive interaction experience
- **Four-sided NanoEdge FHD display with 87% screen-to-body ratio**
- Chrome OS supports automatic updates for maximum protection
- Explore unlimited possibilities on the Google Play Store
- Lasting mobility with up to 10 hours battery life on a single charge
- Comfortable typing experience with 1.4mm key travel
- Smooth and larger Precision Touchpad for multi-gestures

ASUS Chromebook (C204)

Tough, compact, school-ready

Ready for action

Classrooms can be tough, but ASUS Chromebook C204 is tougher! Built to surpass demanding military-grade MIL-STD-810G durability standards, it's also torture-tested to pass stringent ASUS quality tests. It can withstand occasional drops of up to 120cm –more than standard desk height – and the hinge and I/O ports are fully tested to endure the stresses and strains of everyday use.

Ultimate rugged design

The rubberized chassis is reinforced with thick bumpers on each corner to reduce the impact of physical shocks. The keyboard is spill-resistant, coping with liquid spills, and tamper-resistant, preventing the keys from being pried out

Stress-free sharing

The 180° lay-flat hinge not only enables easier collaboration when you're in a group, but it also reduces stress on the mechanism too.

Key Features

- **US MIL-STD 810G military-grade standard**
- **50WHrs battery with up to 14 hr battery life**
- Starting from **1.19kg** with battery

Incredible NanoEdge display

The space-saving Vivo AiO V241 is remarkably slim and light, and its multitouch NanoEdge display features an impossibly thin bezel for edge-to-edge viewing and an impressive 88% screen-to-body ratio. This stunning 23.8-inch widescreen display includes wide-view technology that makes it perfect for sharing pictures or videos with friends and family. With Full HD (1920 x 1080) resolution, you'll enjoy games and movies in vivid detail, with amazing color and contrast. And with its precise 10-point multitouch* capability, it's easier than ever to interact with Vivo AiO V241 using intuitive multi-finger gestures for navigation and control!

Vibrant and vivid!

The NanoEdge display on Vivo AiO V241 features wide 178° viewing angles, and a wide 100% sRGB color gamut for vivid and realistic-looking colors. It also includes exclusive ASUS Splendid technology to ensure true-to-life colors – whether it's an image of a sunset, a clear blue sky, or subtle skin tones. Its Full HD resolution is further enhanced with exclusive ASUS Tru2Life Video technology, which optimizes sharpness and contrast for every pixel in every video frame for clearer, more realistic video imagery. The matte anti-glare coating minimizes annoying reflections for maximum viewing comfort.

Blitz through everyday tasks

Powered by the latest 8th Generation Intel® Core™ processors and MX130 graphic card, Vivo AiO V241 delivers effortless performance for smooth multitasking.

Key Features

- NanoEdge Display
- ASUS Splendid & Tru2Life Video-vibrant, vivid display
- SonicMaster-ultimate audio experience
- Huge stereo sound with two 3W stereo speakers

1. As of Sep 1, 2019. Based on internal ASUS market analysis comparing the size of ExpertBook B9 to competitor products from vendors including Acer, HP, Huawei, Lenovo Microsoft and Samsung. Actual weight may vary by specs.
2. Weight may vary according to configuration.
3. Battery life test configuration: Intel® Core™ i7-10510U, 16GB RAM, FHD display, 2TB PCIe® 3.0 x4 SSD, 66Whr. Battery tests conducted by ASUS in August 2018 using the MobileMark® 2014 Office Productivity scenario.
Test settings: Wi-Fi enabled, display brightness set to 150nits. Actual battery life may vary depending on product configuration, usage, operational conditions and power management settings. Battery life will decrease over the lifetime of the battery.

Lighter, stronger, and more portable

Next to its predecessor, ExpertBook B9 keeps weight down to a featherlight 870g², thanks to its magnesium lithium alloy chassis, but yet stronger so it withstands the rigors of life on the road. Superslim bezels enable a 14 inch display to fit into its 13 inch class chassis, making it extremely compact.

870g

slim bezels

Get the job done, effortlessly

No task is too great for the compact ExpertBook B9. It's powered by up to an Intel® Core™ i7 processor and features two SSDs for superfast data access and even more storage for larger files. It also has plenty of I/O ports, including Thunderbolt™ 3 for lightning fast data transfers and provide wired network connectivity with an individual MAC address for easy device management.

Lasts longer, charges faster

ExpertBook B9 will never let you down throughout the business day or a long haul flight. It provides up to 24 hours³ of battery life on a single charge with fast charging technology.

Military-grade toughness and enterprise-grade security

Life on the road is tough, and ExpertBook B9 meets and surpasses industry requirements, including the ultra-demanding MIL-STD 810G US military standard. Apart from multiple layers of security, B9 includes advanced biometric face login and privacy webcam shield against malicious hackers.

Port Durability Test

5,000 times tests to ensure the physical durability of I/O ports

Hinge Test

Subjects the laptop to up to 50,000 open-and-closed cycles

Keyboard Durability Test

They're tested up to 10,000,000 keystroke lifespan

Panel Pressure Test

Endure 30kg force on lid and bottom without LCD panel damage

Ultimate user experience

B9 features exclusive ASUS NumberPad for speedy data entry, ErgoLift hinge and long-travel keys for responsive tactile typing. It also assures you top-notch audio, thanks to Harman Kardon-certified speakers and four omnidirectional far-field microphones with noise cancellation for the optimization of video conferences.

Key Features

- Starting from 0.87kg ultralight and 14.9mm thin
- NanoEdge display with 4mm-thin bezel, 94% screen-to-body ratio
- Incredible 24 hours of battery life 3
- US MIL-STD 810G military-grade standard

Ultrafast SSD and high-capacity HDD

ASUS ExpertBook P5440 is designed to deliver uncompromising performance, with a powerful and flexible dual-storage option. Up to 512 GB SSD delivers superfast data access and no-wait boot-up, while up to 1 TB HDD gives you all the space you need for your files. It's the perfect combination to supercharge your productivity.

An ultraportable that's tough, light, and elegant

With a chassis crafted from solid magnesium alloy, ASUS ExpertBook P5440 is thin and light, yet tough enough to cope easily with the rigors of business travel. And with its elegant grey finish, it's a masterpiece of craftsmanship that creates a truly professional impression, wherever you go.

More ports for hassle-free connections

For maximum on-the-go convenience, ASUS ExpertBook P5440 has a full range of connectivity features, including the fast and versatile USB-C™ port (DisplayPort & Power Delivery) and 2x USB-A™ port. Its HDMI output lets you connect to a monitor, projector or big-screen TV — perfect for presentations.

ASUS ExpertBook P1440

Affordable, versatile and business-ready

Stylish and durable, with a 180° hinge

The stylish ASUS ExpertBook P1440 features premium brushed textures and a durable, scratch-proof finish. The robust hinge has a full 180° of movement, reducing physical stress on the hinge and allowing comfortable viewing angles and easy screen sharing.

Dual storage options and easy upgrades

ASUS ExpertBook P1440 offers a powerful combination of a superfast SSD and a 1TB storage HDD, giving you the perfect mix of high-speed data access and massive storage capacity. A convenient service door on the base gives you easy access for upgrading the RAM or storage without dismantling the entire device.

Always ready with a full range of I/O ports

ASUS ExpertBook P1440 provides a wide selection of I/O ports for maximum on-the-go convenience. To connect monitors, TVs or projectors, there's a choice of HDMI or VGA (D-Sub) ports. There's a total of four USB ports – three USB 3.1 Gen 1 ports (up to 10X faster than USB 2.0) and a USB 2.0 port – plus an RJ45 network port for LAN and internet connections.

Key Features

- US MIL-STD 810G military-grade standard

ASUS ExpertCenter D6

Secure, reliable and business-ready

Power to do more

To make light work of all your business tasks, ASUS ExpertCenter D6 is powered by the latest Intel® Core™processors with fast DDR4 RAM. Optional Intel Optane™ memory accelerates app loading and opens files faster for super-smooth multitasking. Up to three displays can be used simultaneously without adding an extra graphics card.

Business-grade security — inside and out

Internally, an optional Trusted Platform Module(TPM) chip encrypts stored data to prevent unauthorized access, making transactions and communication more trustworthy. For physical protection there's a Kensington Lock slot and chassis intrusion sensor. With ASUS Expert-Center Series, your data and assets are more secure!

Comprehensive connectivity

A full array of I/O ports ensures ASUS ExpertCenter D6 is ready to connect to a wide range of business peripherals. It has seven front-mounted USB ports for quick and easy access.

PERFORM AT THE HIGHEST LEVEL

Work and play on the cutting-edge with up to a 10th Gen Intel® Core™ i9 CPU and RTX 2080 SUPER™ GPU. The CPU offers serious speed for intensive tasks like photo editing, 3D rendering, and streaming, while the powerful GPU enables high frame rates and incredible realism for more immersive gaming. With up to 48GB of DDR4-3200 RAM support and 2TB of lightning fast RAID 0 SSD storage, the Zephyrus Duo blitz through heavy multitasking and offer superfast load times for all your games and apps.

RISE TO ANY CHALLENGE

Maximizing performance for a powerfully equipped ultra-slim gaming laptop with two integrated screens necessitates innovation. Our new AAS Plus system draws our classic Active Aerodynamic System, but opens up a larger 28.5mm air intake behind the second screen that draws in cooler air and reduces noise. When combined with innovative measures like liquid metal thermal compound on the CPU, this dynamic machine sustains incredible performance. ROG Armoury Crate software optimizes cooling performance and acoustics further by seamlessly switching between operating modes based on the task at hand.

GO HIGH-RES OR HIGH REFRESH

Tailor the primary display to suit your needs. Content creators will relish the high-resolution detail and wide color gamut of the 4K UHD display, factory calibrated for accuracy across 100% of the Adobe RGB color space. Gamers can take advantage of the 300Hz FHD gaming panel for pro-level gaming graphics. Its 3ms grey-to-grey response time minimizes ghosting for greater precision while tracking fast-moving targets. G-SYNC® mode takes visual immersion to the next level, offering you the silkiest gameplay graphics possible. The secondary ScreenPad Plus display adds touchscreen utility, stylus support, and vital space to your creative toolkit.

Key Features

- **Second Screen Expands Possibilities**
A 14.1" integrated secondary display is tilted for viewing comfort and supports touch and stylus input.
- **Powerful Productivity**
Everything from gaming to content creation to coding is faster with up to a 10th Gen Intel® Core™ i9 processor and RTX 2080 SUPER™ GPU.
- **Superiority You Can See**
Choose between Pantone® Validated displays: 4K with 100% Adobe RGB or 300Hz/3ms.
- **Next Level Cooling with AAS Plus**
A large 28.5mm opening beneath the second screen elevates air intake through an Intelligent Cooling system with liquid metal thermal compound on the processor.
- **Powerhouse Portability**
Work hard anywhere with a 90Wh battery, power-saving GPU Switch, Type-C charging with Thunderbolt 3, and a strong magnesium-alloy chassis.

Live it up

Gaming laptops typically struggle to stay alive without a massive power brick, but the Zephyrus G14's energy-efficient AMD® Ryzen™ 4000 Series APU lets you finish up work, watch videos, and stay productive without the weight. USB Power Delivery gives you the flexibility to charge the battery with portable Type-C power packs and adapters, or quickly rejuvenate compatible smartphones and other devices. Say goodbye to fighting over sockets in crowded cafes, and live life untethered.

*Performance may vary based on system configuration.

TYPE-C CHARGING SUPPORT

Key Features

- **Small and Super Powered**
An up to AMD® Ryzen and up to a RTX 2060 powers up this 14-inch laptop for gaming, content creation, and beyond.

• **Stay active anywhere**
Up to 10 hours of battery life lets you multitask on the move. Type C-charging lets you extend your life with battery packs anywhere.
- **Visible Superiority**
Choose between a high-res WQHD display or super-fast 120Hz gaming panel. Both are Pantone® Validated for superb color accuracy.

Intel® Core™ i9 processor
Learn more at: <https://www.asus.com/my>

TRUE SPEED AND COLOR ON DISPLAY

Slender bezels draw you deeper into the action on the fastest 300Hz IPS-level display. The ultra-high refresh rate makes fast-paced gameplay smoother and lowers input lag, while the 3ms grey-to-grey response time produces sharper visuals with no blurring. Pantone® validation ensures superb color accuracy across all of your visual media, whether you're playing the latest AAA titles or adding creative content to your professional portfolio.

QUICKLY SWITCH GEARS FOR WORK AND PLAY

Live a double life powered by the ROG-exclusive GPU switch. With just a few clicks, the ROG Zephyrus S17 transitions between better gaming and longer battery life. G-SYNC mode synchronizes the GPU and display to deliver smoother gameplay with lower input lag and tear-free graphics, while Optimus mode selectively turns off the discrete GPU to save power with everyday desktop productivity and entertainment.

WIFI 6

AMP UP YOUR AUDIO

The ROG Zephyrus G15's twin front-firing speakers put you directly in the heat of the action. Powered by Smart Amp technology, they stay within thermal and excursion limits no matter how much you crank up the volume. This mitigates distortion and prevents damage to the cones for audio that's louder, with more bass and dynamic range. Hi-Res Audio certification ensures headphone and headset users can hear more detail in high-quality content that offers deeper, richer immersion.

GAME AT 300Hz

Play at the speed of professional esports with the world's fastest gaming laptop display. The 300Hz/3ms panel enables true high-FPS gameplay for competitive gaming at the highest level. The ultrafast 300Hz refresh rate makes the flow of fast-paced action look impeccably smooth, while the 3ms grey-to-grey response time minimizes motion blur for precision target tracking. Get an edge in combat, where rapid response and environmental awareness are crucial to victory.

LIQUID METAL BOOSTS COOLING

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each situation. Performance is boosted with cutting-edge enhancements like liquid metal compound on the CPU and a well-ventilated exterior that keeps noise levels lower than the last generation. Special editions of the SCAR 17 add height to the chassis to facilitate superior performance from its uber powerful RTX 2080 SUPER GPU.

BE BOLD

Inspired by our collaboration with BMW Designworks Group, the Strix G slickly fuses effortless style with cutting-edge cooling you can see. The slick design comes in three distinct styles. Original Black wraps the Strix G in stealthy black, giving it a professional persona that blends in easily in any environment. Glacier Blue is effortlessly cool, bringing a light, sci-fi inspired energy to the lineup. The striking new Electro Punk option* adds a pop of bold color, and can be bundled with a matching set of gear that completes your whole look.

*Electro Punk color is only available for 15" configurations.

Key Features

- Get a Competitive Advantage at 1440Hz**
Pro-level precision is in sight with an ultra-fast 144Hz display that makes fast-paced play silky smooth.
- Potent Processing Power**
10th Gen Intel® Core™ i7 Processor and RTX™ 2060 GPU power through work and play.
- Superfast RAID 0 Storage**
Speed up load times with 2 ultrafast SSDs running in RAID 0. A third M.2 SSD slot lets you upgrade your storage.

Staying Power

Geared for serious gaming and real-world durability, the TUF Gaming F15 is a fully-loaded Windows 10 Pro gaming laptop that can carry you to victory. Powered by the latest 10th Gen Intel® Core™ i7 CPU and GTX 1660 Ti GPU, action-packed gameplay is fast, fluid, and fully saturates speedy IPS-level displays up to 144Hz. Even while boasting a smaller and more portable chassis than its predecessors, this gaming laptop also features a larger 90Wh battery for superior battery life. Efficient self-cleaning cooling combines with TUF's signature military-grade durability to make this battle-tested road warrior a powerful ally for any gamer.

LIVE LONG AND TRAVEL FAR

Despite boasting a chassis that's smaller and lighter than its predecessors, the F15 houses a bigger battery for longer life. Its formidable 90Wh battery offers enough power to sustain up to 12.5 hours of video playback, meaning you've got ample time to catch up on streams and take care of light tasks without hunting down the nearest outlet. Lighter and longer-lasting, this machine can work and travel as freely as you do.

*Battery life may vary based on system configuration.

Key Features

- **IPS-level NanoEdge display for incredible immersion**
15.6" Narrow-bezel FHD display
- **Military-grade toughness**
Meets MIL-STD-810G standard for surviving sudden jolts, allowing it to handle the knocks and bumps of everyday life better than the competition.
- **Desktop-inspired RGB-backlit keyboard**
RGB-backlit keys with highlighted WASD key group and 20M key press lifespan, and Overstroke technology for fast and effortless control.
- **HyperCool Technology for improved durability**
Integrated Anti-Dust design and Fan Overboost help maintain peak performance and stable cooling over the long run.
- **Immersive DTS Headphone:X™ surround sound**
Experience 7.1-channel surround and optimized high-fidelity audio with specific profiles for games, movies, and sport.

Extreme Immersion On An Ultrafast Display

The new NanoEdge design has a slimmer-than-ever 6.5mm bezel* for extremely engaging visuals in a much more compact package. FX505 features an ultrafast IPS-level panel for supersmooth gameplay with minimal motion blur. Wide-view technology ensures consistent colors when you're viewing the screen from extreme angles.

Tougher than Standard

Infused with the spirit of The Ultimate Force (TUF), FX505 has passed a series of rigorous military-grade MIL-STD-810G durability tests*, successfully surviving varying conditions including solar radiation exposure, high altitude, and temperature extremes. It's certified to endure day-to-day use, from accidental knocks to sudden drops on a desk. Durable and stable, FX505 has been pushed to the limit to ensure only the very best for gamers.

Graphics Superiority You Can See

An optional vertical mount stands your graphics card upright, so you can better see your latest-gen RTX 2080 Ti at work through the glass chassis side panel. The latest Turing™ graphics architecture brings real-time ray tracing and AI to games, enabling advanced lighting, shadow, and reflection effects that make graphics more lifelike than ever before.

Cutting Edge Cooling

Comprehensive cooling enables the high-level processor performance required for serious gaming and work. The multi-zone chassis keeps the CPU, graphics card, and power supply in separate chambers to minimize thermal interference and lower ambient temperatures. CPU performance is further enhanced by a liquid cooling system that enables higher sustained clock speeds for speedier system performance. Dedicated heatsinks across the PCIe 4.0 SSD slots speed up workflows even more with superfast sustained speeds and reliable data access.

Key Features

- Graphics Superiority You Can See**
Experience immersive gaming at high-refresh rates with up to an RTX™ 2080 Ti graphics card in an optional vertical mount that lets you see it in action
- More Cores, More Power**
Up to a 12-core AMD® Ryzen™ R9-3900X CPU with a liquid cooling system that allows the unlocked chip to be overclocked to reach even higher performance
- An Elevated Esports Experience**
Two SSD hot-swap bays let players quickly switch games and settings for competitive esports, while a built-in carrying handle improves portability for travel
- Multi-Chambered Chassis Boosts Cooling**
The multi-zone chassis keeps CPU, GPU, and power supply in separate bays to minimize thermal interference and lower ambient temperatures, enabling higher performance
- Do More with Keystone**
Keystone II transforms your PC with customizable functions that give you quick access to your game and app profiles, a hidden Shadow Drive, and more

Ready for Battle

Built on flagship Turing™ architecture, the RTX™ 2060 SUPER graphics card features CUDA, RT, and Tensor cores dedicated to programmable shading, real-time ray tracing, and A.I. This core combination enables spectacular new effects, like lifelike lighting, reflections, and shadows that offer deep immersion in the latest gaming experiences.

Power Up for Gaming and More

The latest gen AMD Ryzen™ R7-3800X has 8 cores and 16 threads for a responsive everyday gaming experience and accelerated multitasking. Flexing serious versatility, the new CPUs have the power to move between a wide range of tasks, from serious content creation like photo and video editing to everyday tasks like browsing the web and streaming your favorite shows.

Key Features

- Ready for Battle**
Fast-paced esports games and gorgeous AAA titles run smoothly with the reliably high frame rates pumped out by up to an RTX 2060 SUPER graphics card.
- Power Up for Gaming and More**
Up to an AMD® Ryzen™ R7-3800X CPU with 8 cores accelerates everyday gaming, multitasking, and multimedia work.
- Breath From Every Side**
Widened vents around the top, front, and bottom of the case improve airflow into the chassis, elevating internal cooling to maximize system performance.
- Game on the Go**
A lightweight and compact chassis design with a built-in carrying handle makes your desktop more portable for tournaments and LAN parties.
- Aura Sync Shines Bright**
A glass side panel shows off Aura Sync chassis lighting that can be coordinated with compatible peripherals to create a cohesive system glow.

Adjustable Airflow Amplifies Performance

A folding magnetic side cover sets Huracan apart from the competition. Opening it up unleashes the true potential of this amazing gaming desktop, with internal sensors triggering a CPU and GPU performance boost of up to 7% and 6% respectively. This intelligent thermal solution results in faster frame rates, and helps you achieve true gaming supremacy.

16 %
INCREASE IN AIRFLOW

15 %
LOWER TEMPERATURE

Small Size Packed with Power

Huracan is a high-performance, surprisingly compact 13-liter gaming desktop that fits a powerful 9th Gen Intel® Core™ i9 processor and RTX™ 2080 Graphics card. To make sure Huracan gives you the very best gaming experience, ROG engineers play-tested the latest AAA games and the results are stellar. With 'Ultra' graphics settings, Huracan ran Battlefield V in QHD at up to 86fps, and in 4K UHD at an astounding 69fps.

Key Features

- **Unleash its true potential**
Open the cover to increase airflow and enable a CPU and GPU performance boost, and activate special Aura lighting effects
- **Easy-upgrade design**
Slide-open chassis design makes it easy to maintain and upgrade key components; also includes a hot-swap 2.5-inch SSD bay
- **Small but powerful**
Compact chassis houses an 9th Gen Intel® Core™ i9 processor and RTX 20 series graphics for extraordinary gaming experiences
- **Synchronized light effects with Aura Sync**
Show your gaming colors with synchronized light effects with other Aura Sync-compatible products
- **Magnificent-sounding audio**
ESS Sabre headphone DAC and amp on the front audio jack for high-fidelity sound

Tested for Quality and Proven for Reliability

Each ROG GL10CS is subjected to a series of rigorous quality tests, including drop and vibration, thermal, noise, and voltage testing to ensure it meets our exacting standards, and surpasses those of the competition. From the internal structure to the individual components and from mechanical design to electrical safety is tested to make sure the device you receive serves you reliably for years to come. The user comfort tests such as noise tests are carried out to isolate and optimize sound pressure and tones in different performance modes and scenarios to provide you with a comfortable experience even in the most demanding applications.

Dual-Chamber S-Shape Design

The chassis adopts a dual-chamber S-Shape design meaning that the main components, including the CPU, the motherboard, and the graphics card are isolated from where the HDD and power supply unit are stored so that the internal thermal channels will not warm up one another resulting in improved thermal performance.

Display

ROG Phone 3 is equipped with a stunning 144 Hz / 1 ms AMOLED display. Combined with an industry-leading 270 Hz touch-sampling rate, which dramatically decreases the touch latency to 25 ms³, this display takes the gaming experience to the next level. To ensure that visuals on ROG Phone 3 look just like the developer intended, each display is carefully color-calibrated color to ensure a Delta-E value of less than 1. The display is also TÜV Rheinland-certified, so it's easy on your eyes.

Battery

You can rely on the monster 6000 mAh⁶ battery in ROG Phone 3 to keep you going, even in the longest battles. There are also multiple system parameters for you to actively customize the battery charging behavior and optimize application usage to better fit your using scenario. There are also multiple passive power-saving mechanisms — including an exclusive hibernate function — that significantly prolong the time between charges and also increase battery lifespan.

144 Hz Refresh Rate

To achieve a smoother, more fluid viewing experience that makes gaming even more immersive, we've developed a screen for ROG Phone 3 that boasts an industry-leading 144 Hz refresh rate. Content is more vivid, clearer, and looks more lifelike. It's also much easier on the eyes, so you can game for longer without discomfort.
