

Warranty Policy

LIMITED WARRANTY POLICY for ARMITRON Watches:

Upon purchase of any Armitron Watches from ARMITRON.IN the owner enjoys a 2 Years International Limited Warranty from the date of purchase for any manufacturing defect on the watch. Please note the following terms and conditions;

- 2 Years International Limited Warranty from the date of the purchase as mentioned on the Warranty Card and proof of purchase
- Warranty card should have the model no., purchase date and stamp, else it will be deemed as invalid and the customer will be charged for any repairs.
- ARMITRON.IN reserves the right to decline warranty service, if the proof of purchase and warranty card is not presented or if the information contained is incomplete or the document is found to be tampered.
- The warranty does not apply to normal wear and tear or abuse and excludes batteries, crystal, straps, case or bracelet.
- This warranty does not cover any external accessories (such as battery, ear rings, bracelet, necklace, etc.) which are supplied with this product or any aesthetic parts.
- This Warranty shall not apply to damages caused to the product by accident, lightening, ingress of water, fire, dropping or excessive shock or any external cause beyond ARMITRON.IN control and/or any damage caused due to tampering of the product by an unauthorized agent.
- In the event of a defect or a malfunction of the movement of the watch within the warranty period, ARMITRON.IN reserves the right to replace or repair the defective part.

Movement of any timepiece requires periodic cleaning/ servicing/ timing which is not a defect and, as such not warranted.

WATER RESISTANCE

ARMITRON watch is water resistant to the depth specified on the dial or back case. DO NOT SUBMERGE IN WATER DEEPER THAN THAT SPECIFIED ON THE BACK CASE OR DIAL OF THE WATCH. If there are no markings either on the front of the dial or case back to indicate water resistance then do not submerge the watch in water. IF THE WATCH HAS PUSH BUTTONS, DO NOT OPERATE THE PUSH BUTTONS BELOW THE SURFACE OF THE WATER. Should water or condensation appear in the watch, immediately have the watch checked, as water can corrode movement and electronic parts inside the case.

Water resistant watches are tested to be resistant between 3-5 atmosphere (100-165 feet).

Note: Overtime, the gaskets of the case may become worn and reduce the water resistance of the watch. A trained watchmaker/ specialist/ technician should change the gasket and the O ring every time the battery is changed. To avoid any unwanted condensation, watches of all

specifications (water resistant or not) should not be exposed to extreme temperatures such as cold or heat.

Use Authorized Service Centers

If your watch requires cleaning, lubrication, battery changing or needs a crystal to be replaced, kindly visit ARMITRON authorized service centers which are available in your area. These authorized service centers use ARMITRON parts and components to assure quality and future performances, should you need servicing or repairs not covered under warranty.

Repairs required under warranty requires proof of purchase and warranty card with date and duly stamped by ARMITRON authorized retailers or ARMITRON.IN
