

Dorelio Hair Eraser

Professional User Guide

Welcome to your ultimate smooth-skin experience with **Dorelio**! Our Hair Eraser is designed to provide lasting results with ease and comfort. Follow this detailed step-by-step guide to make the most out of your Dorelio Hair Eraser.

Note: If you haven't gotten your Dorelio Crystal Hair Eraser yet, [click here to get yours now!](#)

Step 1: Preparing Your Skin for Optimal Results

To get the best results, we recommend using the Dorelio Hair Eraser **post-bath or shower**. This allows your skin to be soft and slightly damp, which makes the hair removal process smoother and more effective. Clean, hydrated skin will also minimize friction.

Step 2: Select the Right Areas

The Dorelio Hair Eraser works best on **arms, legs, chest, back, and bikini line**. **Avoid using it on your face or underarms** as these areas have thinner, more delicate skin, and could be more prone to irritation.

Step 3: How to Use the Dorelio Hair Eraser

- **Technique:** Hold the Dorelio Hair Eraser in your hand and gently glide it over your skin in **circular motions**.
- **Pressure:** Apply **light pressure** for the best results. Excessive pressure may cause irritation or discomfort.

- **Duration:** For each area, spend **about 2 minutes** in circular motions. Then **pause for 30 seconds** to let your skin rest. Repeat this cycle **2-3 times** for optimal results.
-

Step 4: Follow-Up and Check Your Skin

Check your progress periodically to ensure hair removal is smooth and irritation-free. The tool should be working gently, exfoliating and removing hair without causing any redness. If the area feels irritated, take a longer break between cycles.

Step 5: Post-Treatment Skin Care

After finishing your session, **apply a soothing moisturizer** to calm the skin and keep it hydrated. We recommend a **gentle, aloe-based moisturizer** to prevent dryness and replenish your skin's natural balance.

Step 6: Clean and Maintain Your Dorelio Hair Eraser

It's essential to keep your Dorelio Hair Eraser clean for continued effectiveness:

- **Rinse under running water** immediately after use to remove hair and skin debris.
 - For a deeper clean, use a **soft brush (like an old toothbrush)** to remove any buildup.
 - Allow the tool to dry completely before storing it in a **cool, dry place**.
-

Step 7: Frequency for Lasting Results

- For **long-lasting results**, we recommend using the Dorelio Hair Eraser **2-3 times a week**, with **2-minute sessions per area**.
 - If you're using it for the first time, start with a **lighter frequency**, like once a week, and gradually increase as your skin adjusts.
 - Consistent use will keep your skin hair-free and smooth for longer periods.
-

Professional Tips for Optimal Results:

- **Start Slow:** If you have sensitive skin, start with **one area at a time** and use the device for **1-2 minutes**.
 - **Use Consistently:** For best results, try to use the Dorelio Hair Eraser **2-3 times a week**. Consistent use is key to achieving smooth, radiant skin over time.
 - **Give Your Skin Time to Rest:** After each 2-minute session, allow your skin a **short break** before continuing. This will prevent overuse and irritation.
 - **Moisturize After Each Use:** To help your skin recover, always apply a **hydrating moisturizer** after using the hair eraser.
-

Achieve Long-Lasting Smooth Skin with Dorelio

By following these steps, your skin will stay smooth and irritation-free for days. The Dorelio Hair Eraser is designed for gentle, effective use—delivering smooth, glowing results while helping you maintain healthy skin.
