445 L Bottom Mount Fridge/Freezer Dark Pearl Steel

Everfresh+® Crisper - Humidity is precisely controlled and condensation reduced via air channels, temperature variations minimised, so your fruit and vegetables stay crisp and fresh for up to 3 times longer than normal*.

*Tested by SGS (compared to standard crisper for broccoli and lettuce)

Harvest Fresh - Even though they keep looking fresh, fruits and vegetables start to lose their vitamins when placed in the fridge. Thanks to innovative HarvestFresh technology, vitamins are preserved for longer*. Unique crisper technology developed for Beko fridges uses not one, but 3 efficient colours, that mimic the 24 hours sun cycle and natural sunlight. All of this so you can enjoy nutritious meals and a healthier lifestyle.

*Tested by Intertek based on Vitamin C and Vitamin A measurements in tomatoes, green peppers, carrots, spinach, celery, parsley, coriander, red peppers and kale directly exposed to the light technology compared with Day 0 conditions over a 5-day period.

Aeroflow - The innovative Beko AeroFlow™ cooling system minimises temperature fluctuations inside the fridge and reduces temperature differentiations between shelves with surrounding gentle air distribution for lasting freshness. Since longer freshness of nutrients is a key element of healthy living, AeroFlow™ technology takes care of food inside the fridge in a gentler way. It surrounds food with evenly distributed cold air to keep them fresh, vivid and juicy for longer.
