FEATURES & SPECIFICATIONS

INTENDED USE — The CPANL™ Series LED surface mount flat luminaire features an internal 120 volt triac dimming driver, color switching technology and ceiling flush mounting kit. This reliable and rigid flat panel is visually comfortable and can be recessed in a lay in ceiling or surface mounted to a hard ceiling with included accessories. The CPANL can be suspended or surface box mounted with accessories sold separately. The CPANL was designed for residential and light commercial applications including retail and offices. **Certain airborne contaminants can diminish the integrity of acrylic and/or polycarbonate.** [Click here for Acrylic-Polycarbonate Compatibility table for suitable uses.](#)

CONSTRUCTION — Built to last with an aluminum frame for strength and durability, the seamless frame prevents light leak in the corners. The line voltage dimming driver, dims to 10% without the need to run low voltage wiring. Compatible with most standard incandescent dimmers, see list of approved dimmers on page 2.
