Mounting

Before mounting, add the camera to your account in the mobile app

Remove the stickers on your Spotlight Cam's lens and on the back of the camera. They're only there for protection during shipping and installation.

Make sure the location you've picked is close enough to a power outlet and is in the range of the router. Try holding the camera where you want it with the power cable and adapter plugged in. Check the live in from the camera in the Mobile app to adjust the camera's view.

Note : If you plan to mount the camera on something or at a height, make sure you are mounting it firmly to avoid the camera from toppling and getting damaged or causing any injuries.

On Flat Surface

Use Template for wall Mounting

Spotlight Camera has a wide 110 - degree field of view and a fully articulating flexible neck so can mount it almost anywhere and point it in any direction. Avoid mounting the camera directly in front / under a fan to avoid the camera from shaking due to fan air.
