

## CB300U

|                 |                                             |
|-----------------|---------------------------------------------|
| Product family  | Refrigerator                                |
| Installation    | Built-in                                    |
| Category        | Bottom mount                                |
| No-frost system | Total                                       |
| Cooling type    | Fan-assisted refrigerator, no-frost freezer |
| Defrost         | Automatic                                   |
| Hinge           | Door-to-door                                |
| Hinge position  | Right                                       |
| Reversible door | Yes                                         |
| EAN code        | 8017709200336                               |

## Aesthetic

|               |              |                           |          |
|---------------|--------------|---------------------------|----------|
| Finishing     | Panel-ready  | Glass shelf profile color | White    |
| Material      | Steel        | Display                   | LED      |
| Side material | Steel        | Display position          | Internal |
| Logo          | Silkscreened |                           |          |

## Refrigerator compartment features

|                                        |       |                       |     |
|----------------------------------------|-------|-----------------------|-----|
| No. of adjustable shelves              | 3     | Crisper cover         | Yes |
| Number of fruit and vegetables drawers | 2     | Refrigerator lighting | Yes |
| Type of adjustable shelves             | Glass | Refrigerator lighting | LED |

## Refrigerator Inner Door

|                                            |   |                            |     |
|--------------------------------------------|---|----------------------------|-----|
| No. of door shelves with transparent cover | 1 | No. of bottle shelves      | 1   |
| Number of adjustable door shelves          | 1 | Door bin with wire support | Yes |

## Other Refrigerator features

**Accessories**  
Fan

**Egg tray**  
Yes

**Anti-odour filter**

Yes

## Freezer features

**Number of drawers** 3

## Other Freezer features

**Accessories**

1 x ice box

**Fast-freezing compartment**

Yes

## Other technical features

**Display functions**

Holiday, Fast-cooling, Child lock

**Fast-freezing button**

Yes

**Water network connection**

**Power-on light**

Yes

**Temperature alarm**

Yes

**Door open alarm**

Yes

**Antibacterial gasket**

Yes

**Temperature setting type**

Electro-mechanical

**No. of compressors**

1

**Refrigerant gas type**

R600a

**Refrigerant quantity**

1.8 oz

**Foam agent**

Cyclopentane

## Performance / Energy Label

**Noise level** 39 dB(A) re 1 pW

## Electrical Connection

**Plug** (B) NEMA 5-15P

**Electrical connection rating** 170 W

**Current** 2.1 A

**Voltage (V)** 120 V

**Frequency (Hz)** 60 Hz

## Symbols glossary

|                                                                                    |                                                                                                                                     |                                                                                     |                                                                                                                                                                                                                                         |
|------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | 4 stars freezing compartment for better food preservation.                                                                          |    | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.                                                                                                         |
|    | Antibacterial treatment: antibacterial treatment to ensure better hygiene                                                           |    | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.                                                                                                                      |
|    | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                               |    | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.                                                                                              |
|    | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage. |    | Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.                                                                                                                           |
|    | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.               |    | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |
|  | Built-in niche                                                                                                                      |  | No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.                                                                                                                               |

---

## Benefit (TT)

---

### Fan

The fan contributes to an even distribution of air inside the refrigerator

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

### Self-supporting hinges

Self-supporting hinges ensure a perfect fit between the equipment door and the cabinet door, giving the product a minimalist and elegant appearance

### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

### Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### Internal display

Internal display for targeted temperature control and a clean, minimalist design
