

# CB300U

Product family	Refrigerator
Installation	Built-in
Category	Bottom mount
No-frost system	Total
Cooling type	Fan-assisted refrigerator, no-frost freezer
Defrost	Automatic
Hinge	Door-to-door
Hinge position	Right
Reversible door	Yes
EAN code	8017709200336

## Aesthetic

Finishing	Panel-ready	Glass shelf profile color	White
Material	Steel	Display	LED
Side material	Steel	Display position	Internal
Logo	Silkscreened		

## Refrigerator compartment features

No. of adjustable shelves	3	Crisper cover	Yes
Number of fruit and vegetables drawers	2	Refrigerator lighting	Yes
Type of adjustable shelves	Glass	Refrigerator lighting	LED

## Refrigerator Inner Door

No. of door shelves with transparent cover	1	No. of bottle shelves	1
Number of adjustable door shelves	1	Door bin with wire support	Yes

## Other Refrigerator features

**Accessories**  
Fan

**Egg tray**  
Yes

**Anti-odour filter**

Yes

## Freezer features

**Number of drawers** 3

## Other Freezer features

**Accessories**

1 x ice box

**Fast-freezing compartment**

Yes

## Other technical features

**Display functions**

Holiday, Fast-cooling, Child lock

**Fast-freezing button**

Yes

**Water network connection**

**Power-on light**

Yes

**Temperature alarm**

Yes

**Door open alarm**

Yes

**Antibacterial gasket**

Yes

**Temperature setting type**

Electro-mechanical

**No. of compressors**

1

**Refrigerant gas type**

R600a

**Refrigerant quantity**

1.8 oz

**Foam agent**

Cyclopentane

## Performance / Energy Label

**Noise level** 39 dB(A) re 1 pW

## Electrical Connection

**Plug** (B) NEMA 5-15P

**Electrical connection rating** 170 W

**Current** 2.1 A

**Voltage (V)** 120 V

**Frequency (Hz)** 60 Hz

## Symbols glossary

	4 stars freezing compartment for better food preservation.		The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
	Antibacterial treatment: antibacterial treatment to ensure better hygiene		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
	Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.		Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.
	LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.		Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
	Built-in niche		No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.

---

## Benefit (TT)

---

### Fan

The fan contributes to an even distribution of air inside the refrigerator

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

### Self-supporting hinges

Self-supporting hinges ensure a perfect fit between the equipment door and the cabinet door, giving the product a minimalist and elegant appearance

### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

### Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### Internal display

Internal display for targeted temperature control and a clean, minimalist design
