ThinkPad MIL-STD 810H Testing – 12 Methods and 26 Procedures

- ThinkPad's dedication to quality means rigorous testing for reliability and durability. In addition to our extensive in-house testing for real-world challenges, ThinkPad systems are tested against 12 MIL-STD 810H Methods and 26 Procedures.
- Updated ThinkPad MIL-STD testing to 810H Standard
- Dropped 1 Method/Procedure – 508.8 Fungus
- Added 1 New Method/Procedure – 524.1 Freeze/Thaw – Procedure III
- Added 5 New Procedures under existing Methods
- 501.7 High Temperature – Procedure III
- 514.8 Vibration – 514.8C-6 Cat4, 514.8C-8 Cat 5, and Procedure II
- 516.8 Shock – Procedure II

2024 ThinkPad
500.6 Low Pressure (2 procedures)
501.7 High Temperature (3 procedures)
502.7 Low Temperature (2 procedures)
503.7 Temperature Shock (2 procedures)
505.7 Solar Radiation (2 procedures)
507.6 Humidity (1 procedure)
510.7 Sand and Dust (2 procedures)
511.7 Explosive Atmosphere (1 procedure)
514.8 Vibration (4 procedures)
516.8 Shock (5 procedures)
524.1 Freeze/Thaw (1 procedure)
528.1 Vibrations of Shipboard (1 procedure)
Total Methods: 12
Total Procedures: 26

ThinkCentre M Mil-Spec testing – 12 Methods and 20 Procedures

ThinkPad 2019 Innovation: Foundational

2024 ThinkCentre M-Series

- 501.5 High Temperature (2 procedures)
- 502.5 Low Temperature (2 procedures)
- 503.5 Temperature Shock (3 procedures)
- 505.6 Solar Radiation (2 procedures)
- 507.5 Humidity (1 procedure)
- 508.7 Fungus (1 procedure)
- 510.5 Sand and Dust (1 procedures)
- 514.6 Vibration (2 procedures)
- 516.6 Shock (2 procedures)
- Altitude (1 procedure)
- Contermination by fluids (1 procedure)
- Salt Fog (2 procedures)

Total Methods: 12

Total Procedures: 20

ThinkShield

LENOVO'S
SECURITY BRAND

ThinkShield Comprehensive List of Offerings

Data

- ThinkPad Privacy Guard
- Trusted Service
- Keep Your Drive service
- WinMagic
- Absolute
- OLDB (Online Data Backup)
- SED (Self-Encrypting Drives)
- BitLocker
- HDD Password
- Smart USB Protection
- Disk Wipe Tools
- Intel Remote Secure Erase
- Lenovo Asset Recovery Service
- USB Secure Hard Drive
- Full Drive Encryption
- ITC Image Verification
- Lenovo Asset Recovery Service

Identity

- Intel Authenticate Multifactor
- Match on Chip Fingerprint
- FIDO
- Broad SmartCard Support
- Secure NFC tap-to-login
- Absolute
- Windows Hello
- Intel Online Connect
- IR Camera
- Glance Presence & Gaze Detection

Online

- BufferZone (sandboxing)
- Coronet (WiFi Security)
- MobileIron
- Lenovo Unified Workspace
- Lenovo WiFi Security
- Intel vPro
- Intel Identity Protection Technology with PKI (Public Key Infrastructure)
- Intel Software Guard Extensions (SGX)

Device

Process

- Trusted Supplier Program
- Transparent Supply Chain
- PSIRT & FIRST
- Packaging Security
- ITC Image Verification
- Secure patch/update of drivers/firmware
- Spare Parts Handling
- BIOS Reading Room

Features

- Self-healing BIOS / Firmware Resiliency 3.0
- Certificate Based BIOS Authentication
- NIST Compliant BIOS (NIST SP800-193)
- TPM 2.0
- Pluto Security processor (Some AMD and Qualcomm)
- Password-less Power-on – USB FIDO device integration
- No backdoor Supervisor Password
- ThinkShutter
- Ready to Provision (RTP) Preload
- Kensington Lock / Tamper Switch
- Thunderbolt Security
- BIOS Asset Information Area
- Lenovo Patch with Self-Healing from Absolute Software
- Intel Boot Guard
- ITC First Boot Service / Anti Bridge Switch
- Asset Tagging Service / Device Registration
- Absolute Software
- LVFS and Windows Update Firmware Updates
- HVCI Compliant Drivers / One switch DeviceGuard
- Smart USB Protection

ThinkPad 2023 Innovation: UX, Security, Foundational

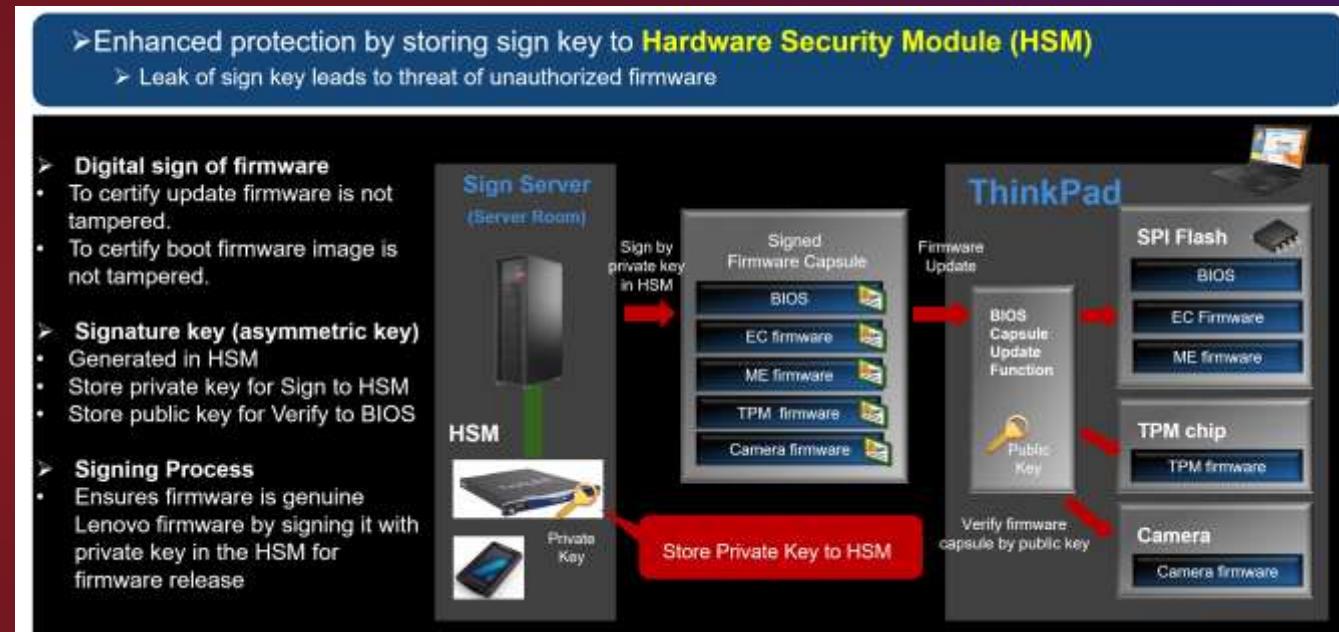

BIOS Signing with Hardware Security Module (HSM)

- What we did:

- Developed an enhanced process for generating and verifying the digital signatures used for signing BIOS and firmware updates
- The Hardware Security Module (HSM) will be used by the Lenovo Development/Security teams to generate both the private keys used to sign BIOS and firmware updates, as well as the public keys which are used to verify the integrity of these updates

- Why it matters:

- The use of the HSM ensures that BIOS and firmware updates which customers apply to their systems are genuine and have not been tampered with

ThinkPad 2023 Innovation: UX, Security, Foundational

ThinkShield – Firmware Shield

- What we did:

- Developed a new firmware monitoring service (Firmware Shield) and corresponding application (Firmware Shield Console) to allow IT admins to monitor the state of BIOS and firmware related events/changes
- Previous iterations of ThinkPad BIOS and firmware security progressively added Resiliency functions for Protection, Detection, and Recovery. Firmware Shield adds Attestation to these abilities

- Why it matters:

- Gives IT Admins the ability to monitor BIOS and firmware related changes and events in order to assess the health and security of their ThinkPad systems

ThinkPad 2023 Innovation: UX, Security, Foundational

ThinkPad Bottom Cover Tamper Detection – Reliability Improvement

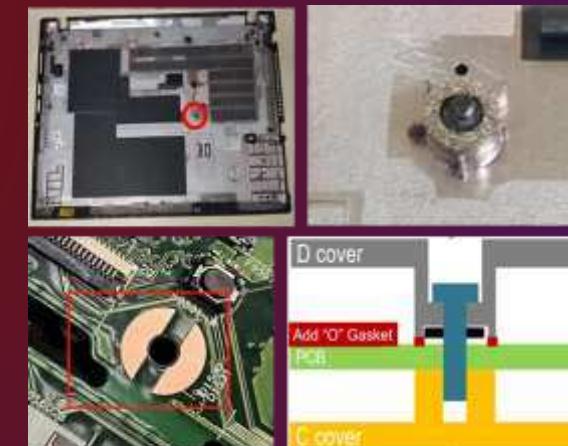

- What we did:

- Improved the design of the bottom cover tamper switch on selected 2023 ThinkPad models
- Previous implementations used a mechanical switch to detect opening of the ThinkPad bottom cover, but this was potentially vulnerable to being bypassed by a thin shim of material inserted between the system and bottom cover
- Designed a new type of bottom cover tamper switch which is integrated into the screw pads used to attach the bottom cover

- Why it matters:

- Improves tamper detection reliability and improves security

Available on

2023/2024 Lenovo ThinkPad X & T Series

Lenovo BIOS Reading Room

We want you to feel as confident in our source code as we are

- A premium service that allows customers to visually inspect Lenovo products' BIOS source code in a controlled physical environment.
- Nearly 2 MILLION lines of source code available for inspection*

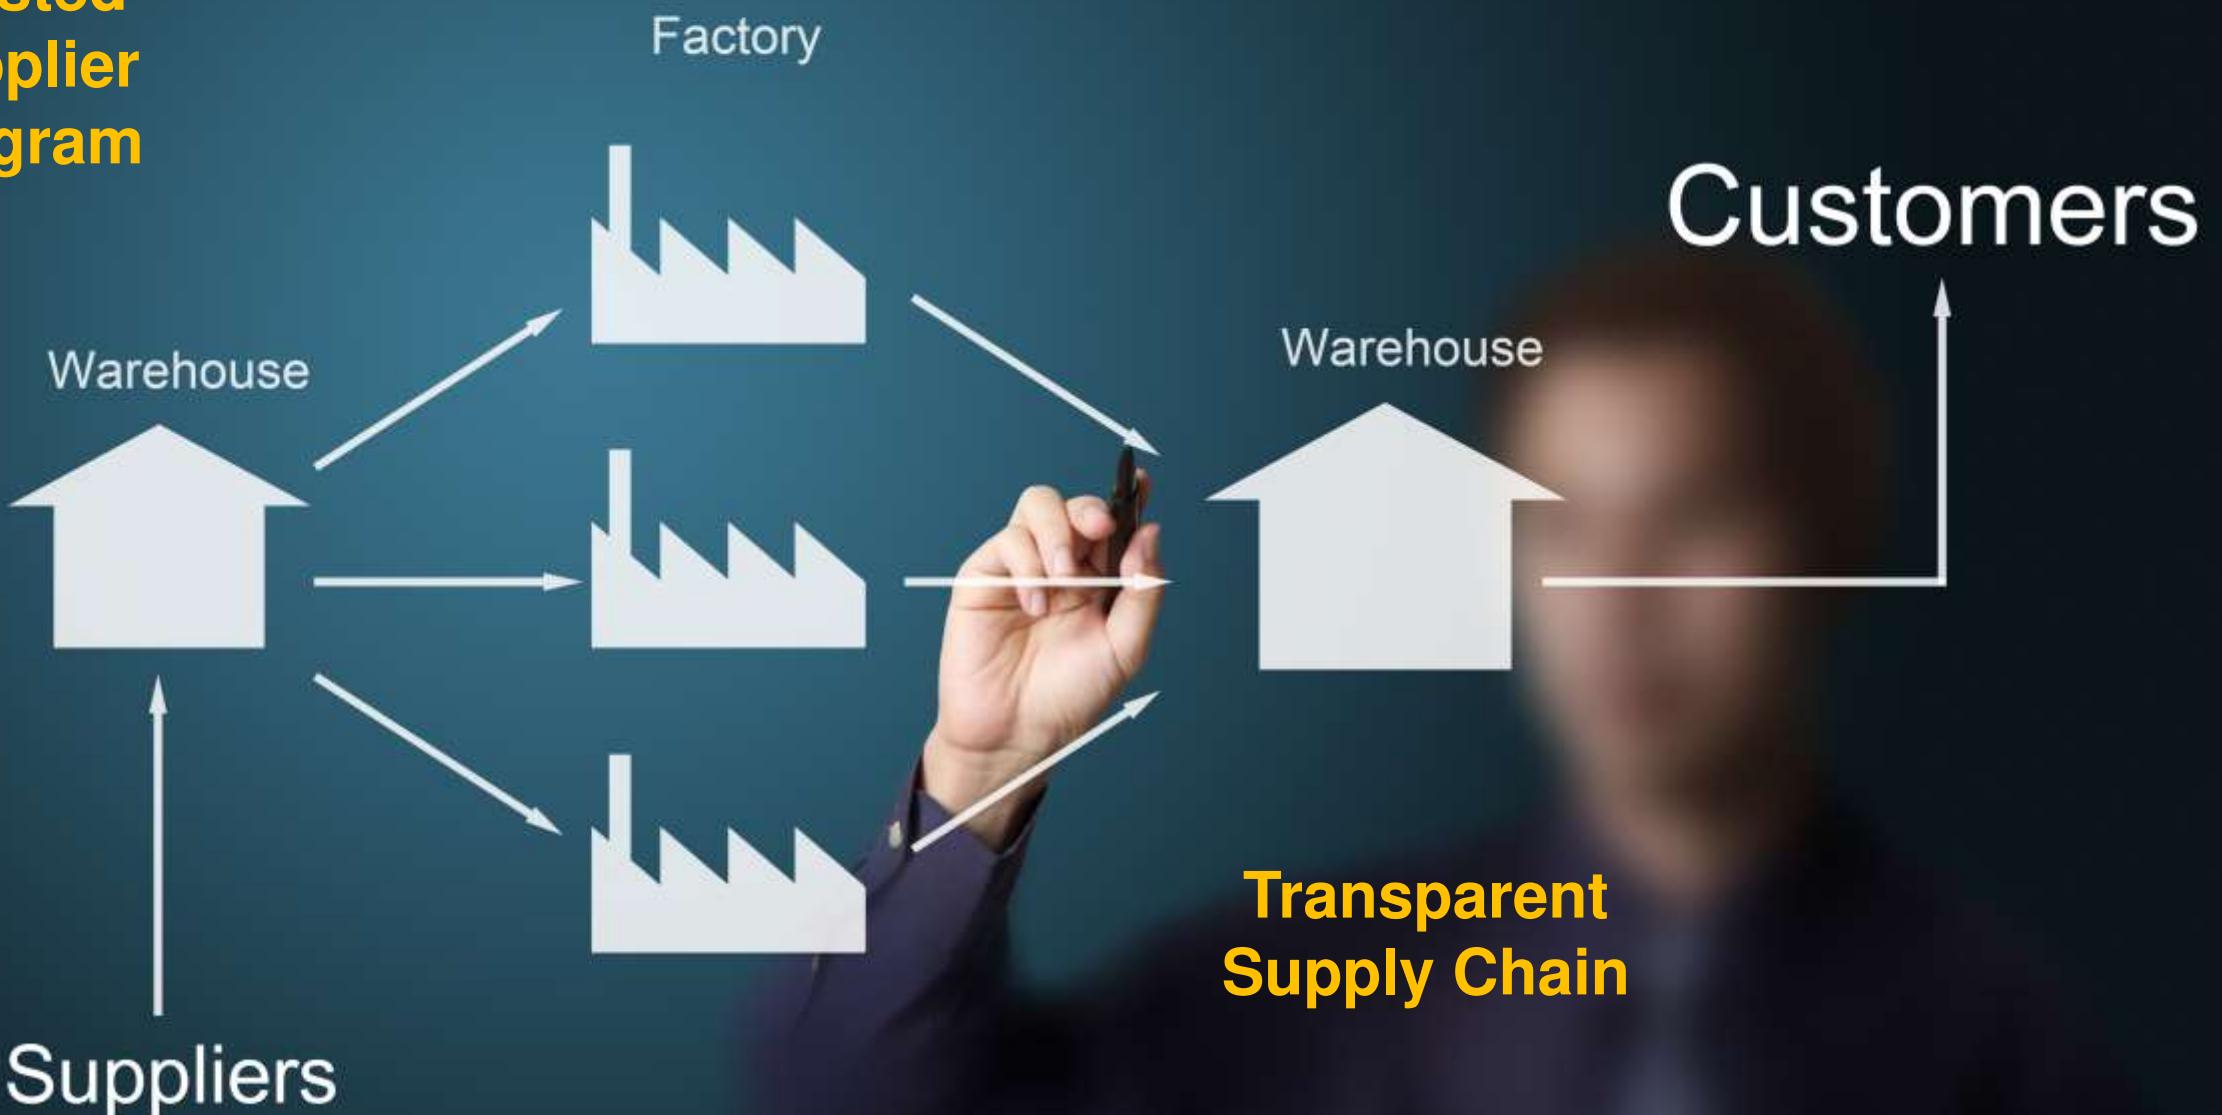

Security by Design

From development, to supply chain, **for the entire lifecycle of our devices**, security is at the heart of everything we do.

**Trusted
Supplier
Program**

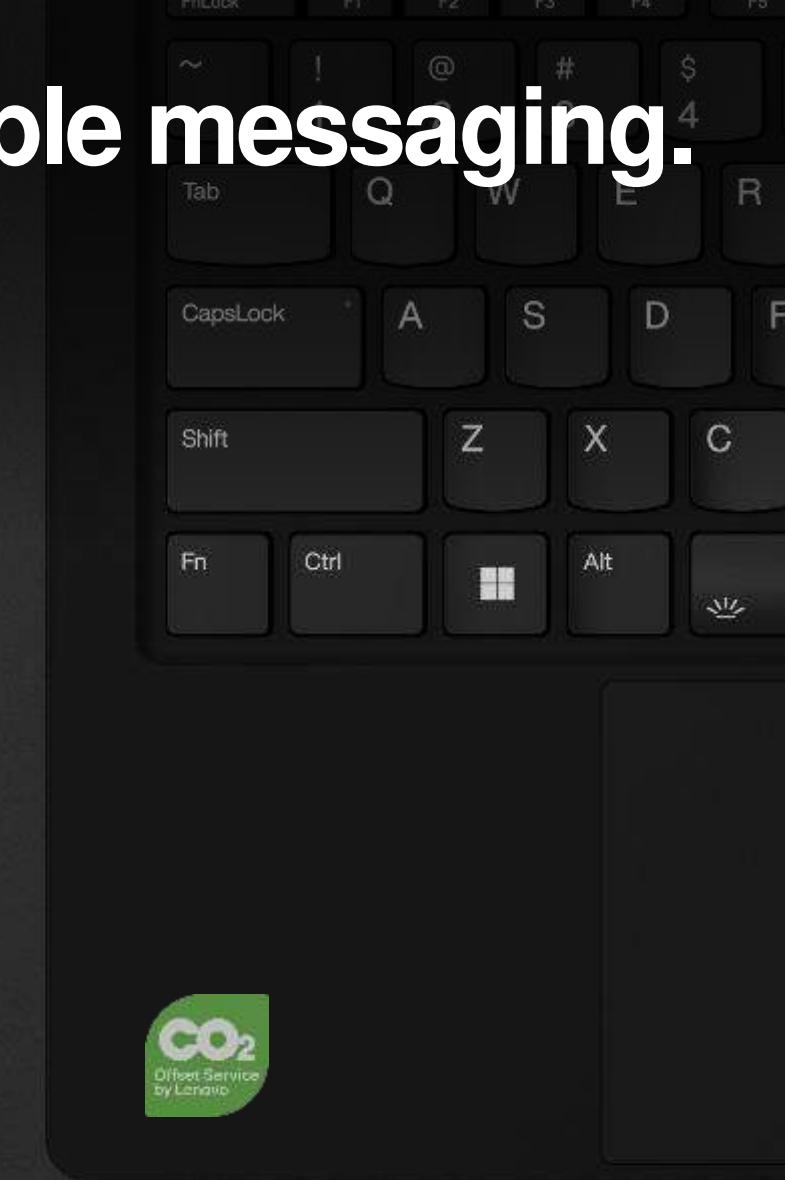

A leader in
sustainability

Lenovo sustainable messaging.

Products

Services

Net-Zero Emissions
by 2050

In addition to 2030 Science-Based targets, Lenovo will remove one million tons of Green House Gas emissions from its supply chain by FY 2025/26.

By 2025, 100% PC products will contain post consumer recycled content.

Cooperate commitments

Continue the work from 2023

The image is a collage of five square panels, each featuring a different material used in ThinkPad laptops. The top row contains three panels: 'ALUMINUM' (a dark grey panel), 'Magnesium' (a silver panel showing a layered internal structure), and 'Carbon Fiber & CF Hybrid' (a black panel with a textured, woven pattern). The bottom row contains two panels: 'PC/ABS' (a dark grey panel) and 'Flax Fiber' (a light grey panel). Each panel has its material name printed in white capital letters.

ThinkPad 2023 Innovation: ESG

Recycled Aluminum (Al) and Magnesium (Mg)

- What we did:**
 - Leveraged Post-industrial recycled content (PIC) Al and Mg in the chassis of several ThinkPad models:
 - Al: recycled vinylidene, Al alloyed Al-2050, 2050H, 2050C, 2050CE
 - Mg: recycled Magnesium + CNC with recycled Al (20% PIC)
 - Alloy 2050 PIC Mg weights up to 10% off products
 - In some cases, the Al recycled material was produced using hydropower, improving the “Sustainability Index” of the material.
 - Ensured the Al materials passed our standards for both mechanical strength and visual quality.
- Why it matters:**
 - Reduce landfill board material
 - Lower carbon impact
 - Reduce mining new Aluminum/Magnesium

75% Recycled Aluminum CNC Umbody

Al alloy → Al recycled

Alloy 2050 PIC Mg weights up to 10% off products

20% Recycled Magnesium Die-Casting

Mg + CNC → Recycled magnesium

Additional info:
Multiple 2023 ThinkPad Models

- + What we did:
 - In response to increasing customer requirements around recyclability, we replaced our previous polycarbonate plastic material in the D-cover with 30% post-consumer recycled content polycarbonate plastic.
 - Tested the new material and design to ensure it fully meets all ThinkPad mechanical/recyclability tests as well as long-term visibility of the material itself
- + Why it matters:
 - The new material uses over 25,000 (bottles) recycled plastic bottles
 - Reduces dependency on oil resources and carbon emissions
 - No impact to traditional ThinkPad attributes of durability, reliability, color, etc.

Answers on

Multiple 2023 ThinkPad Models

ThinkPad 2023 Innovation: ESG

Post-Consumer Content (PCC) in ThinkPad Keyboard Keycaps

- What we did:
 - Introduced PCC materials in ThinkPad keyboards
 - 20% of selected keycaps are made from PCC
 - 17% of selected non-selected keycaps are PCC
 - Tried to ensure weight, color variability etc. were not introduced as problems

Keyboards

- 40% PCC vs. Anodized
- 17% PCC vs. Anodized

- Why it matters:
 - Reduced CO₂ emissions by 190.0 tons per 1M keyboards, equivalent to tree crush would be absorbed by 11,86 trees

Available on

Million 2023 ThinkPad Models

ThinkPad 2023 Innovation: ESG

Ocean-Bound Plastic (OBP) Use in System Components

- **What we did:**
 - Used OBP in speakers, smart-card and SDM covers on several L Series models.
 - Created the material over our stringent manufacturing and durability requirements.
 - Worked with suppliers to mitigate technical difficulties with ocean-bound plastics, employing methods such as increasing molecular chain length, special meltwater stirring procedures and updated structural designs.

- **Why it matters:**
 - Recycles approximately 193,000 (px) ocean-bound water bottles per year
 - Reduces introduction of microplastics into the environment and food chain
 - Reduces carbon emissions 44% vs. the non-recycled materials
 - Less dependency on oil resources

Autodesk, Inc.

Material 2023 ThinkPad Models

ThinkPad 2023 Innovation: ESG

Natural Fiber Material (Flax Fiber) Cover

- What we did:
 - In response to customer feedback regarding sustainable materials, we developed a flax fiber natural fiber cover for use in ThinkPad top covers
 - ~ 90% bio-based raw material
 - 3 layers for strength and to prevent wear/age
 - 3 layers stacked at H, M, and again at L
- Why it matters:
 - Sustain and promote design with sustainable materials.

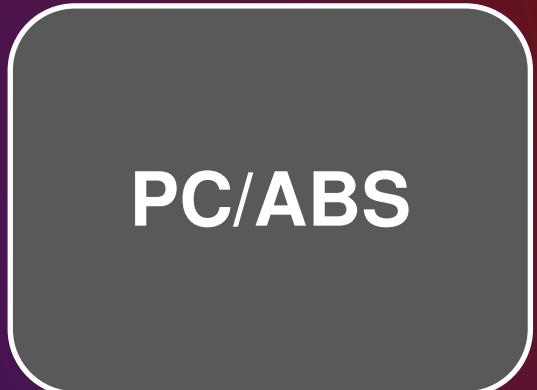

The diagram illustrates two production processes for adhesive films:

- Conventional Adhesive Film Production Process:** Shows a large yellow sheet being processed by a red machine. A blue arrow labeled "VOCs are generated from drying resin" points to a stack of green circles representing volatile organic compounds.
- Low VOC Adhesive Film Production Process:** Shows a similar yellow sheet being processed by a red machine. A blue arrow labeled "no VOCs are generated to VOCs" indicates that no VOCs are produced.

- What we did:
 - Developed a method to deliver the same PSR power consumption savings currently offered only on Intel systems to the AMD-based Z13 Gen 2
 - PSR is essentially the caching of the image on the display and rendering it when the image is visible to reduce power consumption by bypassing the content bridge instead of re-processing it
 - Developed common libraries to be used in both the Intel and AMD implementations
- Why it matters:
 - Improves battery life without impacting usability
 - Depending on user activity, battery life may be improved by as little as 10 minutes or as much as 80+ minutes

ThinkPad 2024 Innovation: ESG

Materials used in the ThinkPad Portfolio 2024

ThinkPad 2023 Innovation: ESG Recycled Aluminum (Al) and Magnesium (Mg)

- What we did:

- Leveraged Post-Industrial recycled content (PIC) Al and Mg in the chassis of several ThinkPad models
 - (Al) enabled recycled AL for stamped AL (55% - (50%PIC + 5%PCC))
 - (Al) enabled Forging + CNC with recycled AL (75% PIC)
 - (Mg) 90% PIC Mg adoption for more ThinkPad products
- In some cases, the Al recycled material was produced using hydropower, improving the “Sustainability Index” of the material
- Ensured the Al materials passed our standards for both mechanical strength and visual quality

- Why it matters:

- Reduce landfill-bound material
- Lower carbon impact
- Reduce mining new Aluminum/Magnesium

Available on

Multiple 2024 ThinkPad Models

75% Recycled Aluminum CNC Unibody

90% Recycled Magnesium Die-Casting

Die-cast machine

ThinkPad 2023 Innovation: ESG

30% Post-Consumer Content (PCC) D-cover

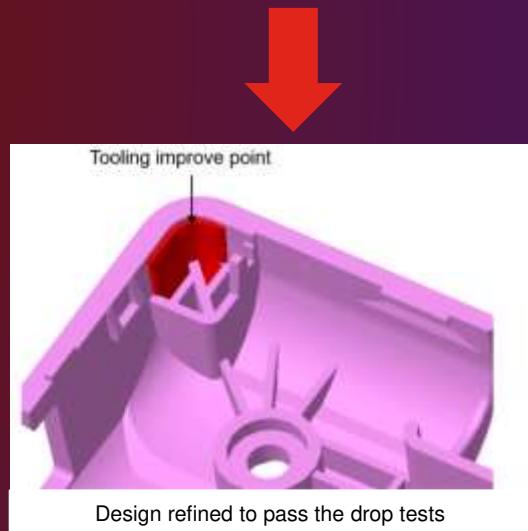

- What we did:

- In response to increasing customer requirements around sustainability, we replaced our previous polycarbonate plastic material in the D-cover with 30% post-consumer recycled content polycarbonate plastic
- Tested the new material and design to ensure it fully meets all ThinkPad mechanical/durability tests as well as long term reliability of the material itself

- Why it matters:

- The new material uses over 25,000 (pcs) recycled plastic bottles
- Reduces dependency on oil resources and carbon emissions
- No impact to traditional ThinkPad attributes of durability, reliability, color, etc.

Available on

Multiple 2024 ThinkPad Models

ThinkPad 2023 Innovation: ESG

Post-Consumer Content (PCC) in ThinkPad Keyboard Keycaps

- What we did:

- Introduced PCC materials in ThinkPad keyboards
 - 85% in selected backlit keyboard key caps
 - 70% in selected non-backlit keyboards caps
- Tested to ensure warpage, color variation etc. were not introduced as problems

Examples of color variation

Example of warpage

- Why it matters:

- Reduces CO₂ emissions by 195.5 tons per 1M keyboards, equivalent to how much would be absorbed by 13.8K trees

Available on

Multiple 2024 ThinkPad Models

ThinkPad 2023 Innovation: ESG

Ocean-Bound Plastic (OBP) Use in System Components

- What we did:

- Used OBP in speakers, smart-card and SIM covers on several L Series models
- Ensured the material met our stringent manufacturing and durability requirements
- Worked with suppliers to mitigate technical difficulties with ocean-bound plastics, employing methods such as increasing molecular chain lengths, special manufacturing processes and updated structural designs

- Why it matters:

- Recycles approximately 119,000 (pcs) ocean-bound water bottles per year
- Reduces introduction of microplastics into the environment and food chain
- Reduces carbon emissions 44% vs. the non-recycled materials
- Less dependency on oil resources

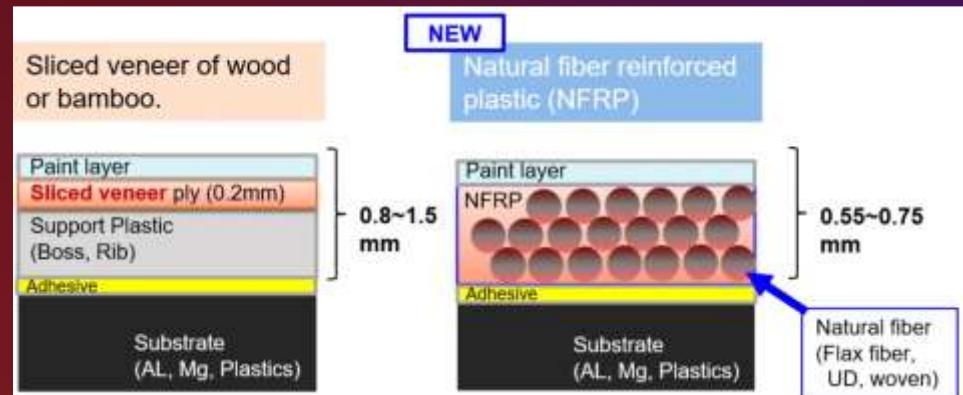

Available on

Multiple 2024 ThinkPad Models

ThinkPad 2023 Innovation: ESG Natural Fiber Material (Flax fiber) Cover

- What we did:

- In response to customer feedback requiring sustainable materials, we created a “tree-free” natural material for use in ThinkPad top covers
 - 50% Bio-based raw material
- 3 layers for strength and to prevent warpage
 - 3 layers oriented at 0°, 90°, and again at 0°

- Why it matters:

- Stylish and premium finish with sustainable materials

Available on

ThinkPad Z13 G2

ThinkPad Innovation: ESG, Foundational Lenovo Low Temperature Solder (LTS)

- What we did:

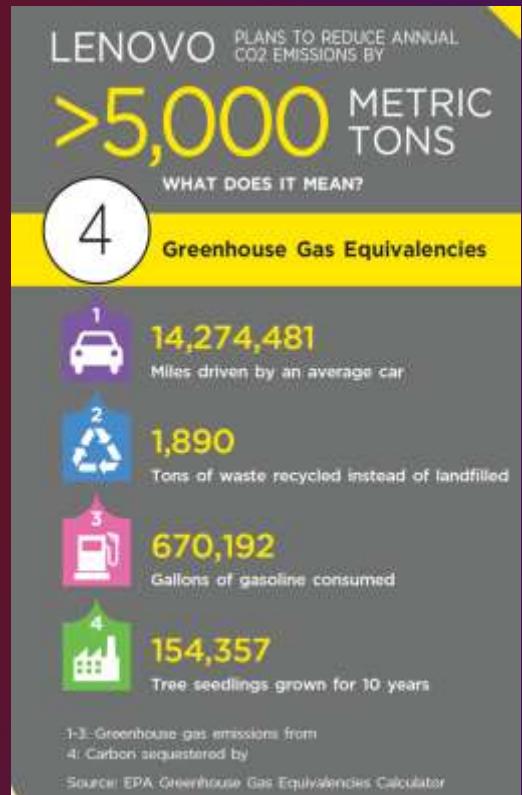

- Lenovo engineers solved a decades-old problem in the global electronics industry. They discovered a way to lower the high temperatures required by the older surface mount soldering technology (SMT) used to make motherboards and other components.
- These high temperatures caused manufacturing fallout, excess power consumption, issues with long-term quality, etc.
- The Lenovo team spent over 2 years of empirical research and testing to develop the Lenovo Low Temperature Solder process, an innovative manufacturing breakthrough that lowers the heat necessary to make a ThinkPad by 70°C, from 250°C to 180°C.
- Lenovo is licensing this technology to the electronics industry free of charge.
- Lenovo is beginning to expand beyond ThinkPad motherboards to Memory, SSDs, Camera Modules, Fingerprint Readers, WLAN/WWAN Modules.

Lenovo ThinkPad X1 Fold

Lenovo ThinkPad X1 Carbon

Available only on
All 2024 ThinkPad

Why it matters:

- Less energy and heat, thus less carbon emissions
- More long-term product reliability and less manufacturing fallout
- Lower temperatures in manufacturing allow components to be placed closer together, allowing for smaller, more compact products.

ThinkPad 2023 Innovation: ESG, UX, Foundational Low VOC (Volatile Organic Compounds) Display

- What we did:

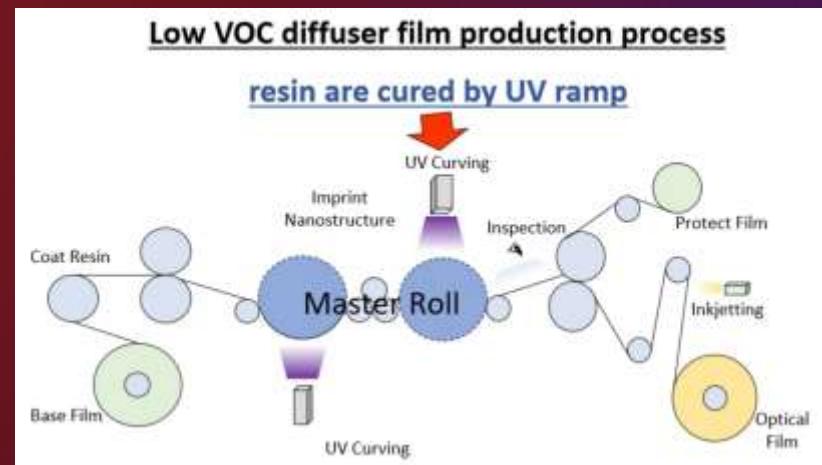

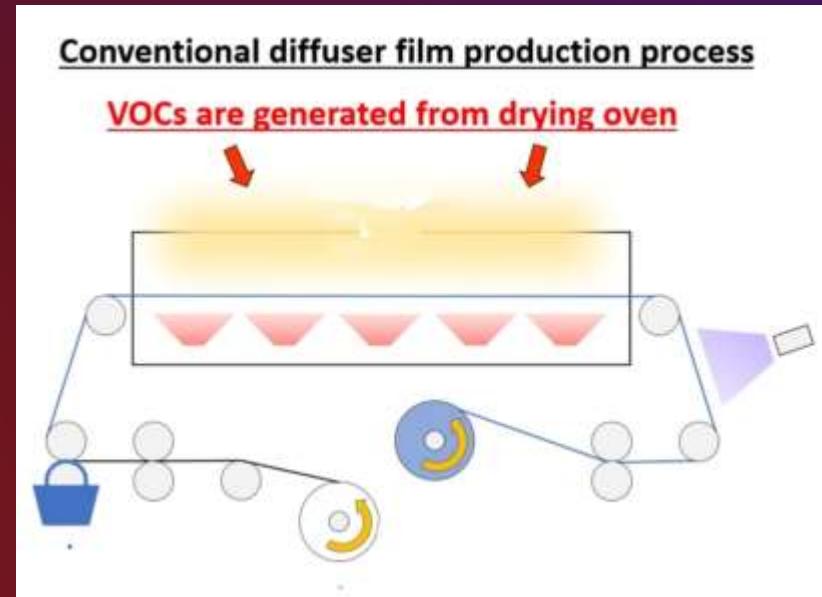

- Implemented a Lenovo-exclusive method to reduce VOC/CO2e (Carbon Dioxide equivalents) in the production of 14" WUXGA 400-nit LCD panels.
- Replaced a drying oven used to cure the film in the traditional manufacturing with a resin that is cured with a UV lamp
- Also uses Low Temperature Solder (LTS), a Lenovo innovation

- Why it matters:

- Significant reduction in VOC/CO2e produced (>9g CO2e / display) and a 60% reduction in AC power for the UV vs. Heat process

Available on

Multiple 2024 ThinkPad Models

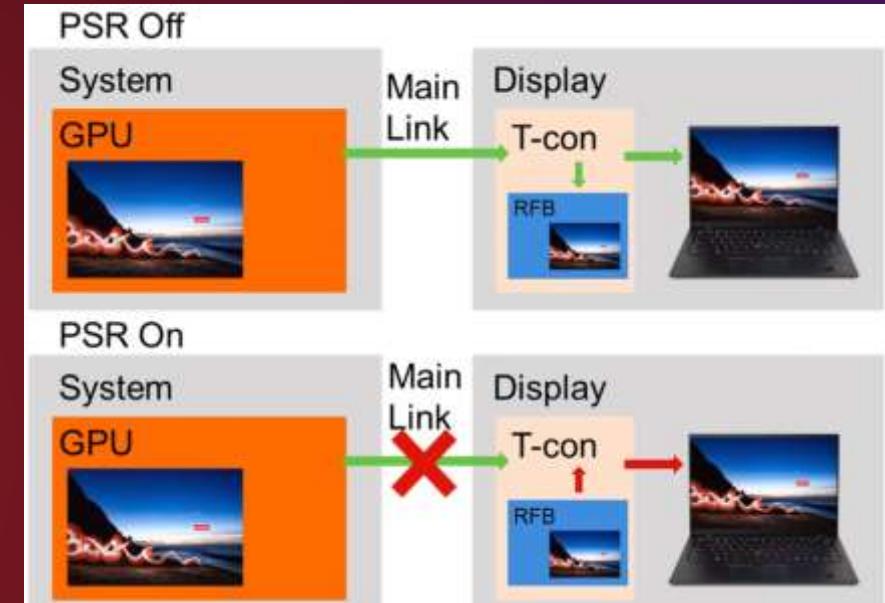

ThinkPad 2023 Innovation: ESG, UX, Hybrid

Advanced Common Panel Self-Refresh (PSR)

- What we did:

- Developed a method to deliver the same PSR power consumption savings currently offered only on Intel systems to the AMD-based Z13 Gen 2.
- PSR is essentially the caching of the image on the display and reusing it when the image is static to reduce power consumption by reusing the cached image instead of re-processing it
- Developed common firmware to be used in both the Intel and AMD implementations

- Why it matters:

- Improves battery life without impacting usability
 - Depending on user activity, battery life may improve by as little as 10 minutes or as much as 80+ minutes

Available on

Lenovo ThinkPad Z13 G2

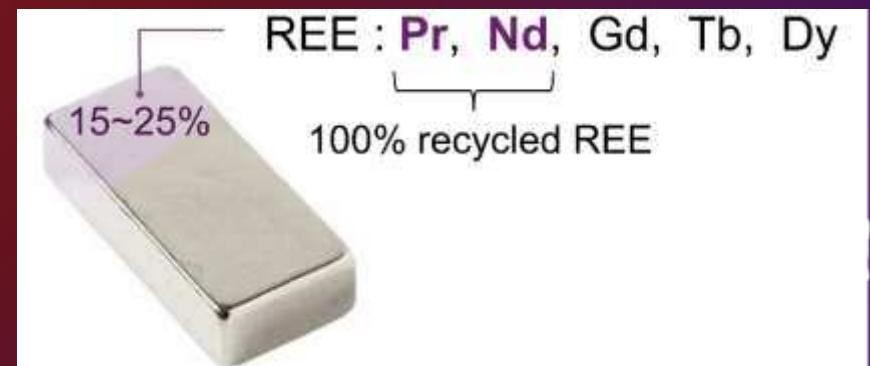

Recycled Carbon Fiber & Rare Earth Magnets

- Recycled Carbon

- We developed a process for incorporating recycled CF recovered from the aircraft manufacturing process into the 2024 X1 Carbon.
- The key challenge was determining the percentage of recycled Carbon Fiber which could be used and still pass the ThinkPad durability requirements.
- After extensive testing a 20% mix of recycled CF in the resin compound was determined to be optimal.
- Use of recycled materials reduces industrial waste, reduces landfill contribution, and reduces use of petroleum products.

- Rare Earth Magnets

- We introduced Post Consumer Recycled Content (PCC) Rare Earth Element magnets in more parts of 2024 ThinkPad systems.
- 100% Recycled Praseodymium (Pr) & Neodymium (Nd) are used, which make up 15-25% of the total magnet composition.
- New for 2024:
 - Speaker Transducers (min 15% total)
 - Hall Effect Sensors (min 25% total)
- Used since 2023:
 - Haptic TouchPad (min 25% total)

Repairability

Collaboration with iFixit for leading repairability design

- Repairability assessment has been incorporated into the CS24 design
- Collaboration on CS24 T-Series to achieve industry leading repairability

iFixit assigns a score for each device on a 10-point scale to represent its overall repairability.
Every year iFixit updates the scorecard

Usually means disassembly is catastrophically destructive or impossible. Don't get your hopes up. You'll probably do more breaking than fixing

or above is a respectable score. We try to calibrate our scorecard so that below 5/10 is about where things start to tip from "You can probably fix this yourself" to "You might wanna consider calling a pro." At 4/10 maybe you can still fix it, but it's tougher than it needs to be.

Best in class. A very repairable device, with instructions and parts to match. We love to see it

8MP is an option in X1 Carbon and X1 2-in-1

FHD is still an option on a few models

The 8MP Camera Achieved Zoom “Premium Laptop”
Certification

As of Dec 2023, X1 Carbon & X1 2-in-1 are world's first
and only laptops with this certification

Better IR camera with improved sensitivity and precision
For faster and more precise ‘Windows Hello’

USB-C “Restricted Mode” Security

New “power-only” mode for USB-C to block data cable-based attacks from public USB C charging points

Mode can only be toggled on/off by a key combination (Fn U + Fn S)

Data transfer capability is disabled at a hardware level (USB, DisplayPort, Thunderbolt), only Power Delivery will work

Status shown via an on-screen notification (OSD)

The power LED will blink 3 times if a device is attached when data is disabled to help avoid user confusion.

Wireless WAN 2024 – 4G and 5G

Many updates, please check psref.lenovo.com for latest info

ThinkPad L16 Gen1		Intel, AMD	Intel, AMD	

USB4 and Thunderbolt 4

- USB4
 - 40/80/120 Gbit/s
 - Tunnels DisplayPort, PCIe and USB
 - AMD ThinkPad L14, L16, T14, T16, T14s ,X13, Z Series and all Intel ThinkPads features USB4 (40Gbit/s)
- Thunderbolt 4
 - 40 Gbit/s
 - Tunnels DisplayPort, PCIe and USB
 - AMT/vPRO over Thunderbolt
 - All Intel ThinkPads features Thunderbolt 4

Wifi 7 and Bluetooth 5.3

- Wifi 7 is a substantial upgrade to Wifi
 - Much higher bandwidth
 - More devices on network
 - Lower latency
- Wifi 6E or Wifi 7 in 2024 ThinkPad
 - Wifi 7 only fully works with Windows 11 24H2
 - Wifi 6E only works with Windows 11
 - For Windows 10, both will work as Wifi6
- Bluetooth 5.3
 - Bluetooth 5.3 only works with Windows 11
 - For Windows 10 it will work as Bluetooth 5.1

ThinkPad Universal
USB-C Dock

ThinkPad Universal
Thunderbolt 4 Dock

ThinkPad Universal
Thunderbolt 4 WS Dock

ThinkPad Hybrid Dock

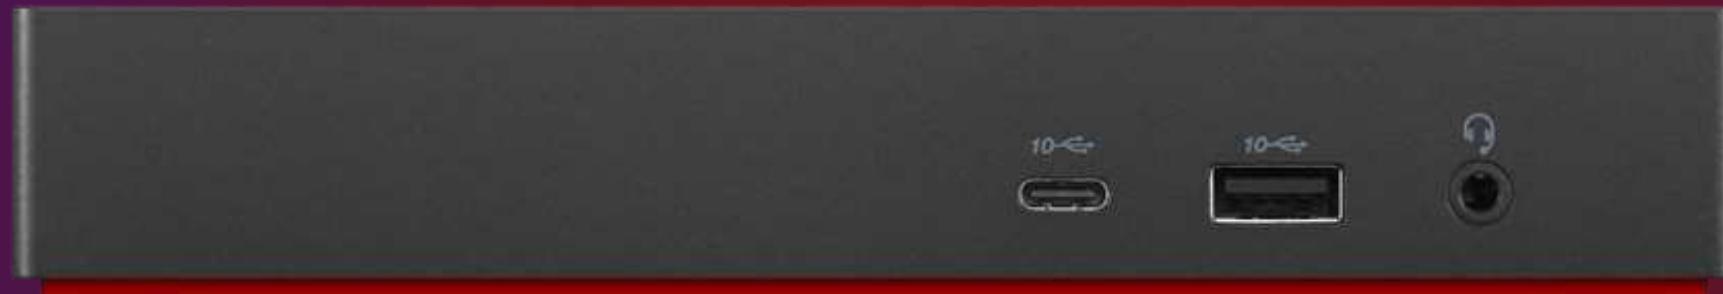

Universal USB-C and Thunderbolt 4 / WS docks

- Common features
 - 100W power, 230W on workstation version
 - Silent Firmware update
 - New management software
 - WMI reporting
- Universal USB C
 - Support for 3 monitors
 - 2x 4k@60Hz
 - 3x 4k (1x 60hz + 2x 30Hz)
- Universal Thunderbolt 4/WS dock
 - Support for 4 monitors and 8k monitors
 - 4x 4k@60Hz, 1x 8k@30Hz

Universal USB C dock

Universal Thunderbolt 4 / WS dock

Universal USB-C and Thunderbolt 4 smart docks

- Common features
 - Same ports/connections as the normal version
 - Same size/design as the normal version
- Smart features
 - Build in smart device that connects to Microsoft Azure Sphere
 - Does not need a connected ThinkPad
 - Enables firmware updates without connected laptop
 - See which ports is used, and for what
 - See if a dock is used or not, even with history

USB C dock monitors (2024)

- Full dock with USB-C
 - Power Delivery, Ethernet, USB hub
- Available in all sizes and formfactors
 - From 24" to 49"
- Limitations
 - Up to 4 monitors Daisy Chaining with DP 1.4, only 2 monitors with DP 1.2 (Both ThinkPad and all monitors needs to be DP 1.4)
 - Limited Ethernet/USB speed when Daisy Chaining 2 monitors using DP 1.2 and 3 or 4 monitors using DP 1.4

Stay Productive

Elevated design

- Starting weight; 14" 1.53kg, 16" 1.77kg
- 16:10 Aspect Ratio. Above 90% STB ratio
- Fingerprint Reader on power button

Enhanced user experience

- HD , FHD RGB , FHR Hybrid IR camera options

Powerful performance

- Latest Intel Meteor lake U15+H28 Core Ultra CPUs
- Latest AMD Ryzen 7035 series Rembrandt Refresh
- Dual SSD slot 2242 + 2280

Work from anywhere

- 2 x USB-C, 2 x USB-A, HDMI
- Longer life battery: 57 Whr

L14 Gen5 / L16 Gen1 | Productivity for any Business

Enhanced User Experience

- Intel **Core Ultra** U15 & H28 or AMD **Rembrandt Refresh** with 22W TDP
- **16:10** panel with better STB ratio, **DBEF5** solution (14") with better brightness
- **Rear exhaust** thermal solution for better user experience
- Up to 2TB **2280** SSD and 64GB **DDR5** memory, **5 USB ports**
- Dolby Audio (SW+HW), Dolby Voice, **22% larger speakers**
- **20% larger ClickPad** for improved user input

Hybrid Work and Mobility

- New **5MP RGB + IR** Camera for optimized video experience
- 57 Whr battery option + DBEF5 (14") for improved battery life
- New Wi-Fi 7(intel) and multiple WWAN options
- L14 weight from 1.40kg, L16 weight from 1.81kg

Environmental, Social, Governance (ESG)

- 100% plastic free Packaging
- Increased use of PCC plastic in system, minimum 20%
- Updated keyboard w/ **Accessibility enhancements** for Visually Impaired
- Improved repairability & serviceability with CRU KB, DIMM slots, M.2 WWAN

ThinkPad L13 G4_{AMD}/G5_{Intel}

Mobility for Any Business

Elevated design

- Thin at 17.2 mm & light starting at 1.26 kg
- 16:10 display with narrow bezel and 82.7% Screen-to-body ration
- Fingerprint Reader on power button
- Larger 115 mm Touchpad
- Thunder black or Storm grey color

Enhanced user experience

- Intel Core Ultra U15 / AMD Barcelo-Refresh
- WUXGA Low power panel with LBL options
- HD , FHD RGB , FHR Hybrid IR camera options
- Up to 1TB PCIe Gen4 SSD and LPDDR5(intel)

Sustainability

- 100% Plastic free packaging
- 90% PCC adapter
- 97% PCC battery

Work from anywhere

- Long battery life with 46Whr battery
- 1.26kg(Clam)
- Fast wireless - WiFi 6E, 4G WWAN
- MOC Fingerprint Reader
- ThinkShutter

ThinkPad T Series

The corporate workhorse

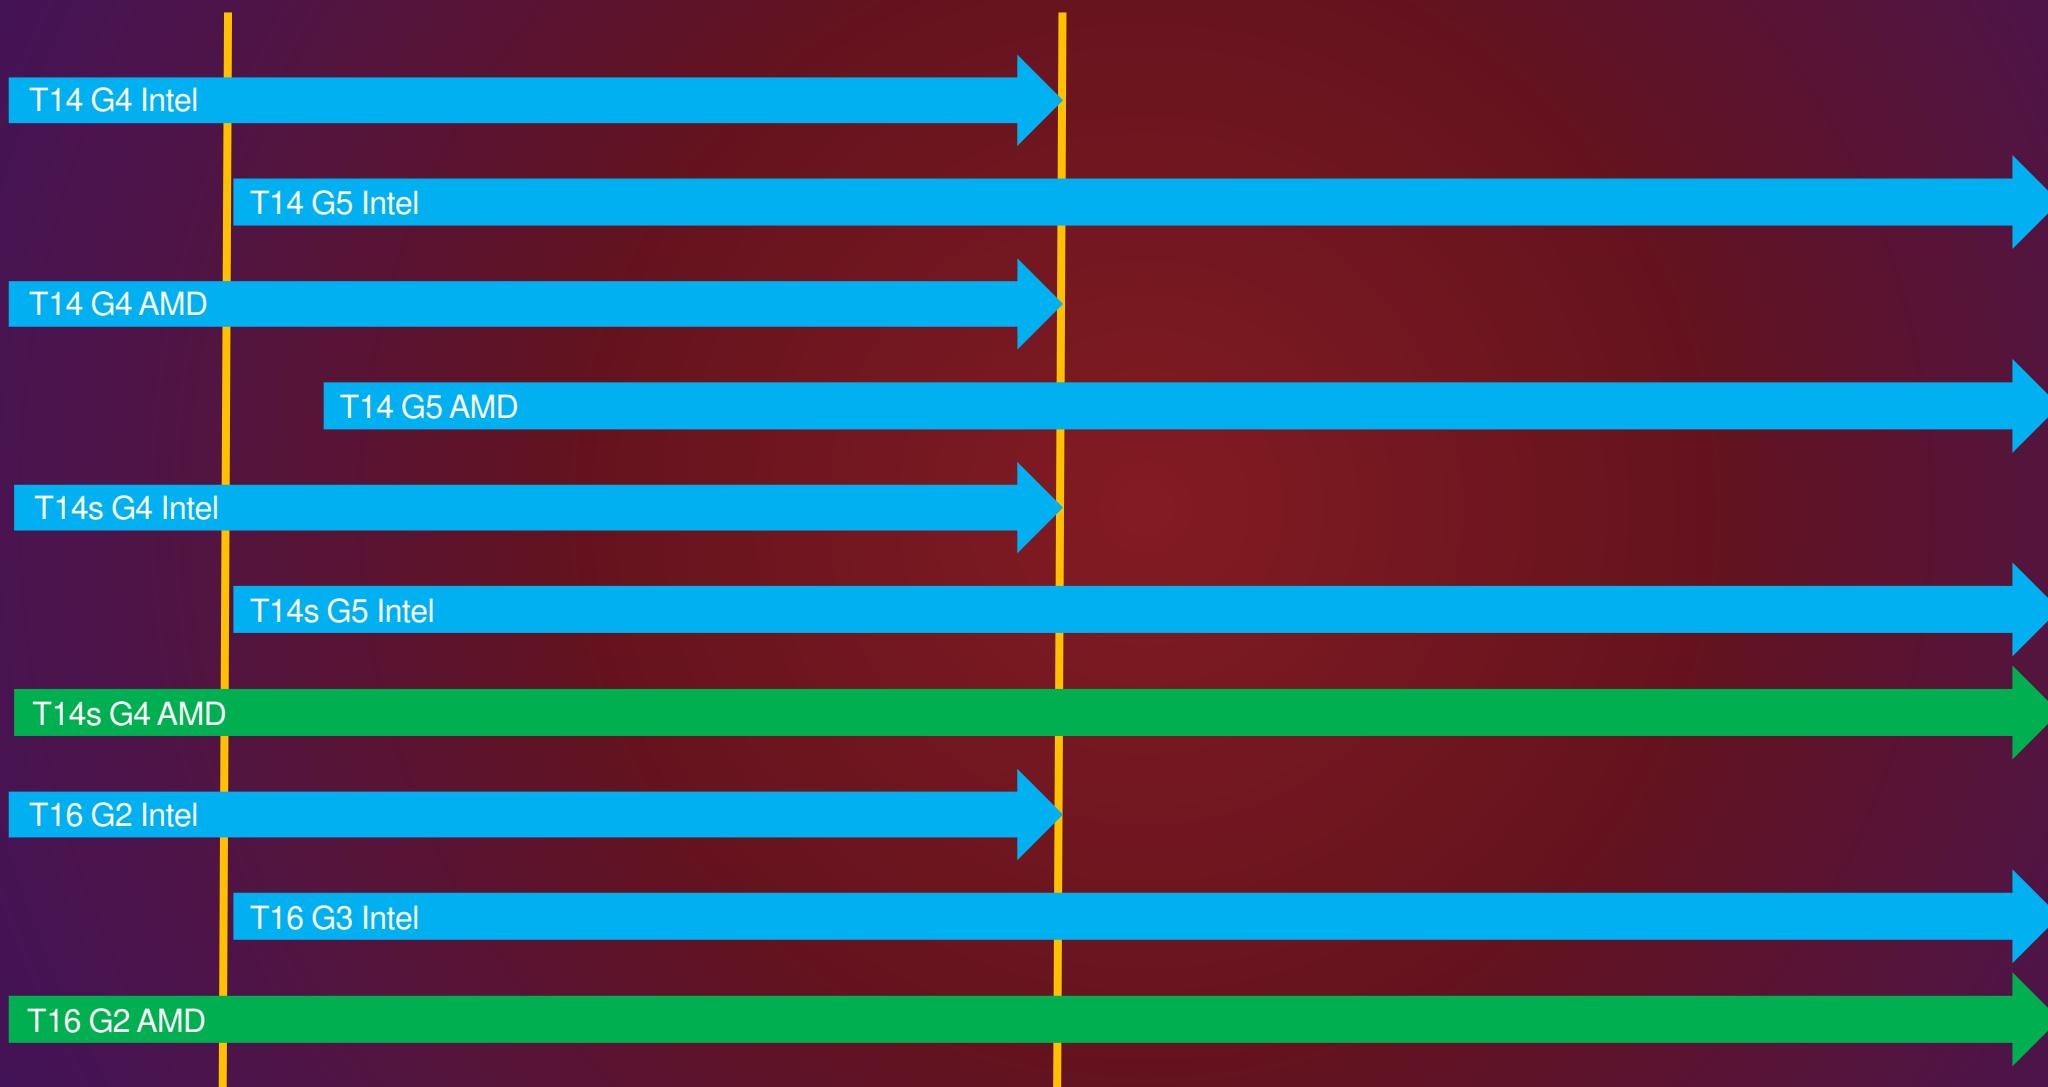

2024 ThinkPad T Series

March 2024

September 2024

September 2025

T14 Gen 5 – Intel + AMD | The Corporate Workhorse

Industry Leading Repairability and User Experience

- New Customer Replaceable 52.5Wh Battery- ifixit score of 9/10
- Power efficient WUXGA 400nit base panels with DBEF5
- New Dual DIMM design with DDR5 memory on both Intel and AMD
- New Intel Core Ultra CPUs (U15 and H28) with 21.5W and 23W TDP respectively
- New AMD Hawk Point Pro CPUs
- Communication Bar, Keyboard and LED bumps for greater accessibility
- 2 New colors – Eclipse Black and Luna Grey
- Premium OLED 120Hz panel addition for more efficient viewing
- Low Starting Weight of 1.31kg

Hybrid Work and Mobility

- 5MP RGB + IR and standalone 5MP camera for an immersive video experience
- User Facing Speakers
- **5G Sub6**, Wi-Fi 7 and Ultrasonic HPD enabled
- Trapdoor RJ45

Environmental, Social, Governance (ESG)

- 90% recycled Magnesium C cover frame and 50% recycled Aluminum A cover
- 100% Plastic free primary recyclable standard packaging enabled
- 90% PCC speaker enclosure and battery pack

T16 Gen 3 – Intel | The Corporate Productivity Platform

Industry Leading Repairability and User Experience

- New **Customer Replaceable 86Wh Battery** with an ifixit score of 9/10pts
- 87% STB ratio– 4 points over CS23
- New **Dual DIMM design with DDR5 memory**
- New **Intel Meteorlake CPUs** (H28 and U15) with 23W and 21.5W TDP respectively
- **Communication Bar**, Keyboard and LED bumps for greater accessibility
- Eclipse Black
- 4K OLED panel addition for more efficient viewing
- Low starting weight of just 1.66kgs (39whr battery)

Hybrid Work and Mobility

- 5MP RGB + IR and standalone 5MP camera for an immersive video experience
- Downward Facing Speakers
- **5G Sub6, Wi-Fi 7** and Ultrasonic HPD enabled
- Trapdoor RJ45

Environmental, Social, Governance (ESG)

- 90% recycled Magnesium C cover frame
- 100% Plastic free primary recyclable standard packaging enabled
- 90% PCC speaker enclosure and battery pack
- PCC in Adapters

Two DIMM modules

T14 Intel/AMD and T16 Intel have 2 SODIMM sockets for easy upgrade
But.... DIMMS should be used in a Dual DIMM config for best performance

Intel

Single channel Intel configs show a drop of 25-35% over their dual channel counterparts

DDR5	Single Channel 32GB + 0GB	Dual Channel 16GB + 16GB	Performance Delta
3DMark Time Spy	2623	3478	25%
3DMark Wildlife Extreme Unlimited	3594	5491	35%
3D Mark Wildlife Unlimited	13311	20389	35%

AMD

Single channel AMD configs show a drop of 37-41% over their dual channel counterparts

DDR5	Single Channel 32GB + 0GB	Dual Channel 16GB + 16GB	Performance Delta
3DMark Time Spy	1909	3076	38%
3DMark Wildlife Extreme Unlimited	3274	5229	37%
3D Mark Wildlife Unlimited	10220	17404	41%

T14s Intel Gen5 | The Corporate Gold Standard

AI Transformation

- Intel Core Ultra U/H processors with up to Intel Arc Graphics(H-series)
- Integrated AI Engine(NPU) with 11 TOPs supporting Windows Studio Effects
- Powerful and efficient LPDDR5x dual channel soldered memory, now up to **64GB**

Enhanced User Experience

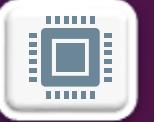

- Redesigned thermal direction to rear exhaust
- New 3M DBEF5 increases base WUXGA panels to 400nit
- Adoption of industry standard Ctrl-Fn key position
- New Communication Bar houses 5MP camera & allows for 88% STB
- Up to WiFi 7 & 5G connectivity
- Legacy Ports: 2 x USB-A, 2 x TBT4, HDMI, 3.5mm audio jack

Environmental, Social, Governance (ESG)

- Increased Post Consumer Content(PCC) plastic and recycled carbon fiber content
- New ThinkPad CS24 keyboard with additional accessibility & LED power-in tactile markings
- Plastic Free Packaging using FSC Certified paper
- EPEAT Gold, TCO certified, ENERGY STAR 9.0

X13 Gen 5 Intel | Perfectly Mobile

Enhanced User Experience

- Latest **Intel MTL U15 and H28 CPU** options with 21W thermal design
- up to **64G LPDDR5x** memory
- Low Power displays with Eyesafe
- Rear exhaust and back venting design

Hybrid Work and Mobility

- 5MP RGB + IR camera
- Dolby Suite: Dolby Audio Premium, Dolby Voice
- New **Wi-Fi7 WLAN** option
- Up to **5G WWAN** option

Environmental, Social, Governance (ESG)

- 90% recycled magnesium C & 55% recycled aluminum D
- **100% plastic free packaging**
- Adopting Post-Consumer Content (PCC) in battery pack, speaker enclosure and AC power adapter

Ports	2x USB-A 3.2 G1, 2 x USB-C(USB4), Audio, HDMI 2.0b, SIM
Audio	user facing Dolby Audio Speaker System, Dolby Voice, 95% PCC 2 speakers, 2 mics
Camera	HD RGB, FHD RGB, 5MP + IR w/ webcam privacy shutter
Connectivity	Wi-Fi 6E, 4G LTE CAT4 (black), CAT16 (black), NFC (black), BT 5.2
Biometric / Security	FPR in PWR, IR Cam, SCR, Privacy Shutter, dTPM, Nano lock, ThinkShield, MSFT Pluton, Tile Ready, Firmware Shield
Additional Features	Ultrasonic HPD, AMD Pro Manageability, MIL-SPEC 810H, EPEAT Gold, NIST SP800-193, Secured-Core PC, Glance, recycled packaging

X13 2-in-1 Gen 5 | Perfectly Mobile

Enhanced User Experience

- Latest **Intel MTL U15 CPU** options
- up to **64G LPDDR5x** memory
- Rear fan exhaust and back venting design
- Garaged pen with charging function

Hybrid Work and Mobility

- 5MP RGB + IR camera
- Dolby Suite: Dolby Audio Premium, Dolby Voice
- Low Power displays with Eyesafe certification
- New **Wi-Fi7 WLAN** option
- Multiple WWAN options(CAT4, CAT6, CAT16)

Environmental, Social, Governance (ESG)

- 90% recycled magnesium A/C/D
- **100% plastic free packaging**

ThinkPad X13s

Smartphone experience, PC productivity

unmatched performance

- Qualcomm® Snapdragon™ 8cx Gen 3 Compute Platform
- Windows 11 Pro
- Enterprise-grade manageability
- ThinkShield™ & Microsoft Pluton Security ready

smarter collaboration

- Intelligent auto-framing with 5MP camera
- AI echo cancellation and noise suppression*
- Communications bar with MIPI camera
- Always-on user-detection and presence-tracker for login & smart power management
- AI-accelerated digital wellness feature

connected productivity

- First ThinkPad™ with 5G mmWave enabled, 5G Sub6 & 4G LTE backward compatible
- Connected standby/instant-on experience
- Multi-day battery life
- Computer Vision technology

enhanced sustainability

- Qualcomm platform & fanless design minimize heat ventilation
- Multi-day battery life minimizes plug time
- First ThinkPad made with 90% recycled magnesium
- PCC plastic utilized in system design

Premium

X1 Carbon Gen 12 | The Perfect Business Notebook

AI Transformation

- Intel® Core™ Ultra processor with Intel Arc graphics
- Integrated AI Engine (NPU) with 11 TOPs capable of Windows Studio Effects
- Computer Vision with Human Presence and Adaptive dimming saves battery life
- Low light video enhancement to improve video calls

Enhanced User Experience

- High quality 8MP MIPI camera
- Highest Performance ThinkPad notebook @ 25W
- Cool & quiet performance due to 44% larger thermal capability
- Smooth motion on premium OLED display with 120Hz refresh rate
- User choice of a larger TrackPad or Haptic TouchPad catering for different user types

Responsible Design

- New keyboard with tactile marking to assist visually impaired users navigate quicker and easier
- Extensive use of recycled materials (90% recycled mag C & 55% recycled aluminum + 45% hydro aluminum D, PCC in plastic parts)
- Packaging is made from 100% recyclable and compostable bamboo and sugarcane

ThinkPad Z Series

Premium

ThinkPad Z13 G2

Progressive design & mobility

enhanced user experience

- Progressive design focused on broadening the appeal of ThinkPad
- Modern aesthetic with Arctic Grey recycled aluminum or sustainable Flax/Linen A-Cover
- Ultra-narrow bezel design translates to a 91.6% Screen-to-Body ratio
- Dolby Atmos/Voice + FHD/IR cameras for premium audio/visual experience

unmatched performance

- The latest AMD Ryzen™ 7000 U-series processors with integrated Radeon(Navi 3) graphics
- LPDDR5x dual channel soldered memory, up to 64GB at 6400Mhz
- 18W thermal design for boosted performance

connected portability

- Ultrathin at 14mm thin; 1.19 kg
- 18+ hrs battery life on MM18 with 51.5Whr battery
- Wi-Fi 6E with simultaneous dual-band capability
- 4G LTE CAT16 & CAT4

environmental, social, governance (ESG)

- Sustainable Flax/Linen A-cover
- Optional 75% recycled aluminum Arctic Grey A-cover
- New 55% recycled aluminum D-cover
- PCC percentage increases in Speaker enclosures/AC adapter
- Plastic Free & Bamboo

competitive performance

- AMD Ryzen™ PRO 7000 H-series processors
- LPDDR5x dual channel soldered memory, up to 64GB at 6400Mhz
- 50W thermal design
- Optional AMD Radeon™ Navi24+ discreted graphics with SmartShift technology

connected mobility

- Super-portable at 15.8mm thin and 1.81 kg
- Up to 20 hours of battery life on MM18 with 72Whr battery
- W-Fi 6E with simultaneous dual-band capability

environmental, social, governance (ESG)

- 75% recycled aluminum Arctic Grey A-cover
- New 55% recycled aluminum D-cover
- PCC percentage increases in Speaker enclosures/AC adapter
- Plastic Free & Bamboo + Sugarcane fiber packaging

ThinkPad X1 Fold

Grab-and-go multimode productivity

premium performance

- Up to 12th generation Intel® i7 vPro® and non-vPro processors
- Built for what IT needs and users want with Intel vPro®, an Intel® Evo™ Design, with 12th Gen Intel® Core™ i7 processor
- Up to 32GB LPDDR5 memory and up to 1TB PCIe storage

game-changing usability

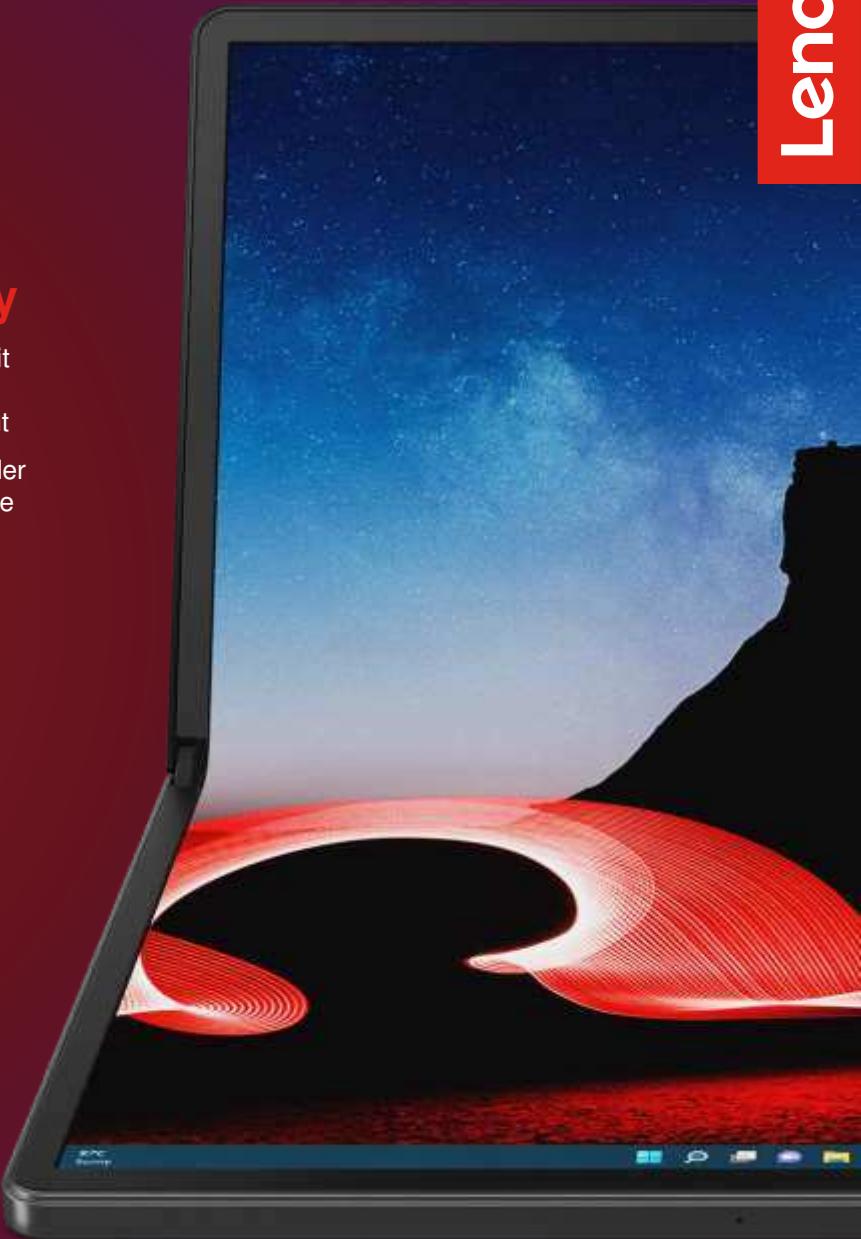

- Bright, seamless 16.3" 4:3 folding 600nit OLED HDR screen and attachable full-size Bluetooth keyboard with TrackPoint
- Transforms from laptop to tablet to reader and so much more—including innovative portrait mode
- Perfect fold-flat design and magnet-attached Precision Pen

intuitive UX

- Intuitive desktop layouts and organization, plus large touch targets, swipeable menus and widgets, and new integrated pen features
- Smooth, fast screen rotations and Mode Switcher
- Choose between physical or onscreen keyboard
- Latest Windows 11 features, including snapping layouts to optimize multi-application use, especially on dual 12" panels

modern ultra-mobile design

- Massive 16 " display and full-size keyboard that folds to carry like a small book
- Just 1.3 kg
- All-day 64Wh battery plus Wi-Fi 6E and optional global 5G* connectivity

ThinkPad X1 Fold 16

ThinkPad X1 Fold key specs

Dimensions	Unfolded: 276.2 x 345.7 x 8.6mm Folded: 176.4mm x 276.2mm x 17.4mm
Display	16.3" foldable 4:3 2024x2560 OLED Anti-smudge, 600nits HDR, On-cell Touch; 400nit SDR / 600nit HDR, DCI-P3 100%, Dolby Vision; 16.3" when open; 12" when folded; 8mm bezels
Weight	Starting at 1.26 kg system; 1.89 kg with stand and keyboard
Color	Performance Black
CPU	Up to Intel 12th Gen U9 i5 and i7 vPro® and non-vPro®
Graphics	Intel® Iris® Xe graphics
Memory	Up to 32GB LPDDR5
Storage	Up to 1TB PCIe Gen 4
Battery	48 Whr (plus optional 16 Whr based on configuration; 11.2-hr life in MM18 with dual battery); Rapid Charge with 65W AC; 4 hrs battery with 30-min charge
OS	Up to Windows 11 Pro
Keyboard	Full-size backlit keyboard with TrackPoint and Haptic Touchpad; Fingerprint reader; Bluetooth
Ports	2x Thunderbolt 4; 1x USB-C 3.2 Gen 2; Nano-SIM card tray
Audio	3x speakers; 4x mics; Dolby Atmos; Dolby Voice
Camera	5MP RGB + IR; Intel® Visual Sensing Controller (optional)
Wireless Communication	Wi-Fi 6E ¹ ; optional 5G Sub 6 (LTE supported); Bluetooth 5.2
Biometric / Security	Touch fingerprint reader (on keyboard); Windows Hello Face login Win 11r; Intel vPro® security (on select processors); Computer Vision with HPD with IR camera; Intel® Visual Sensing Controller (optional)
Sustainability	Recycled PET Woven Performance fabric cover; 97% PCC recycled plastic used in speaker enclosure; 97% PCC recycled plastic used in the 49.5 Whr and 16 Whr battery; at least 90% PCC recycled plastic used in standard 65-watt adaptor; low-temperature solder; 90% recycled and/or sustainable packaging ² ; EPEAT® Gold registered in U.S., Canada, and Germany, ENERGY STAR® certified; TCOv9

¹16GHz Wi-Fi 6E operation is dependent on the support of the operating system, routers/ APs/Gateways that support Wi-Fi 6E, and the regional regulatory certifications and spectrum allocation.

²Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.

Smarter
technology
for all

Lenovo

thanks.
