XIAOMI MIJIA Wireless Vacuum Cleaner 3 User Manual

Safety Information

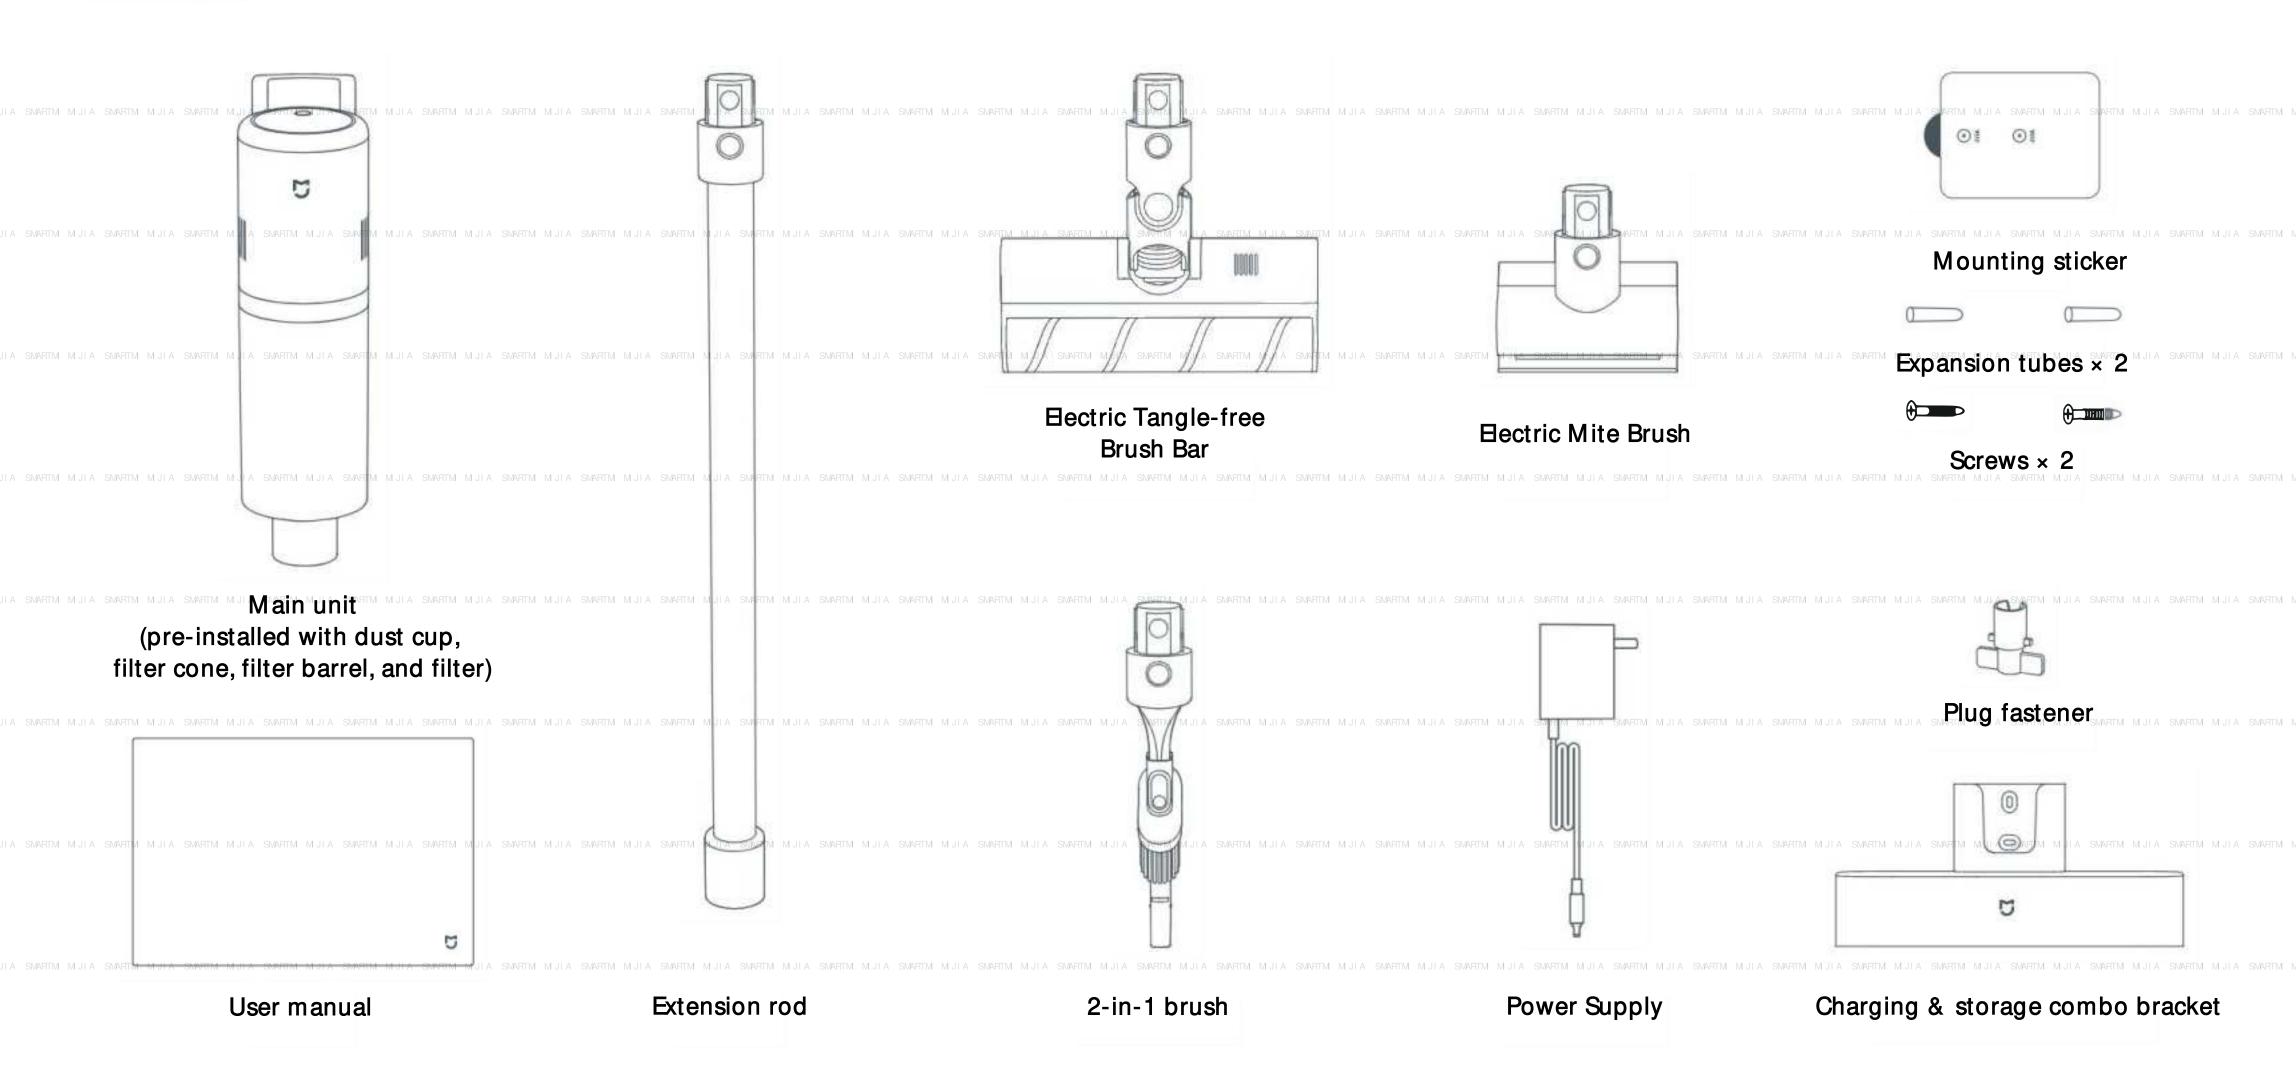

Read this manual carefully before use, and retain it for future reference.

Usage Restrictions

- ? This product should not be used by individuals with physical, sensory, or mental disabilities, or those lacking experience and knowledge (including children), unless supervised or instructed by a guardian to ensure safe operation.
- ? This product is designed for indoor use only. Do not use or install it outdoors, in industrial, or commercial environments.
- ? Do not charge or store the product near heat sources or in humid areas (e.g., near radiators, kitchens, bathrooms).
- ? Do not allow children to treat this product as a toy.
- -?»Do not touch the lens or any electrified parts with wet hands.
- ? Use only replacement parts recommended by the manufacturer.
- ? Before installing, disassembling, replacing accessories, or performing maintenance, ensure the product is powered off and unplugged to prevent injury.
- ? To avoid fire, explosion, or injury, inspect the power adapter for damage before use. Do not use a damaged power adapter.
- ? Do not block the air intake or exhaust vents to prevent overheating and damage.
- ? Do not place objects near the vents.
- ? Do not use the product if accessories are damaged or improperly installed.
- ? Always power off the product before lifting or moving it to prevent injury.
- ? Keep purchased items and accessories away from people and objects during use.
- ? Exercise caution when cleaning stairs to ensure personal safety.
- ? Do not use this product to clean fine-particle dust such as drywall or fireplace ashes.
- ? Do not use this product to clean smoking or burning materials, such as fire embers, cigarettes, or matches.
- ? Do not use this product to clean sharp or hard objects, such as glass, nails, screws, or plastic.
- ?Do not use this product to clean stains with strong grease, adhesives, or dyes (e.g., shoe polish, paint, pigments).
- ? Do not use this product to clean flammable/explosive substances (e.g., gasoline) or toxic solutions (e.g., chlorine bleach, ammonia, drain cleaners)
- ? Do not use this product to clean toner or powder from laser printers or copiers, as this may cause fire or explosion.
- ? Do not place the product on unstable surfaces (e.g., chairs, tables) to prevent falls and damage.
- ? Do not rinse or submerge the main body, extension rod, or brush heads in liquid. Clean washable parts thoroughly and ensure they are dry before reinstallation.
- a? Do not tuse the product if vents are clogged. Clean dust, lint, or hair promptly to maintain airflow.
- ? If the product malfunctions (e.g., overheating, abnormal noise, odor, weak suction), contact official. Do not attempt self-repair.
- ? Only authorized service centers may repair this product to ensure safety.
- ? Do not use third-party batteries or power adapters. This product must be used with the specified power adapter (model: BLJ24WJS40080P-C).
- ? Charge the battery strictly within an ambient temperature of 5°C- 40°C as instructed to avoid damage.
- ? The battery in this device must be replaced by qualified technicians only.
- ? Warning: Do not charge the battery using the detachable power supply unit provided with this device.
- ? If the power adapter is damaged, it must be replaced by the manufacturer or a qualified professional to prevent hazards.
- ? Fire Hazard Warning: Do not apply flammable chemicals to filters or filter cartridges, as they may ignite.
- ? Any damage caused by improper use is the user's responsibility.

SMARTIM MJIA SMART Display Screen Battery Level Indicator Single red light (steady): Low battery. Single red light (flashes for 3 seconds then turns off): Battery depleted. Modes Icons: All three icons flashing: Insert until it clicks into place Malfunction SMARTIM MUIA SMARTIM → Modes Switch Button Short press to switch between modes. **Modes** Descriptions Modes Eco Modes Auto Mode Boost Mode Suction adjusts Usage The suction small, automatically based The suction largest, on dust level Insert until it clicks into place

Tip: It is not recommended to use the electric mite removal brush in conjunction with an extension pole.

Install

Installing the 2-in-1 Charging & Storage Mount

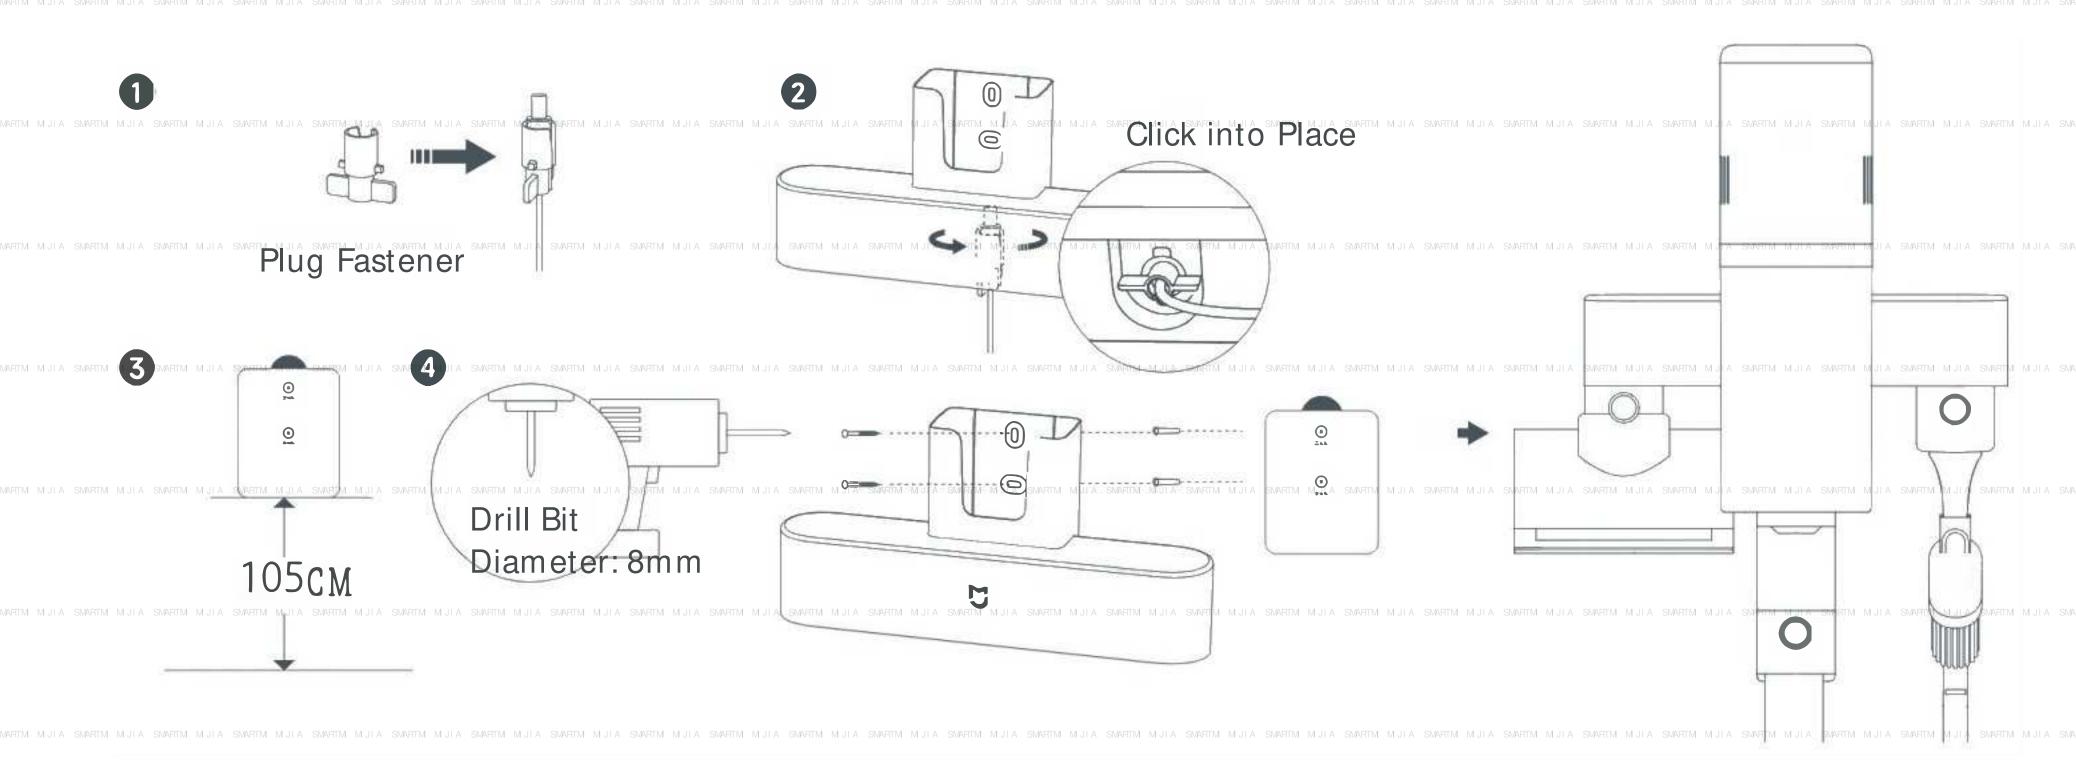

Notes:

Install the bracket near a power outlet in a cool, dry area.

Ensure no wires or pipes are behind the installation area.

Professional installation is recommended. Use protective gear if necessary.

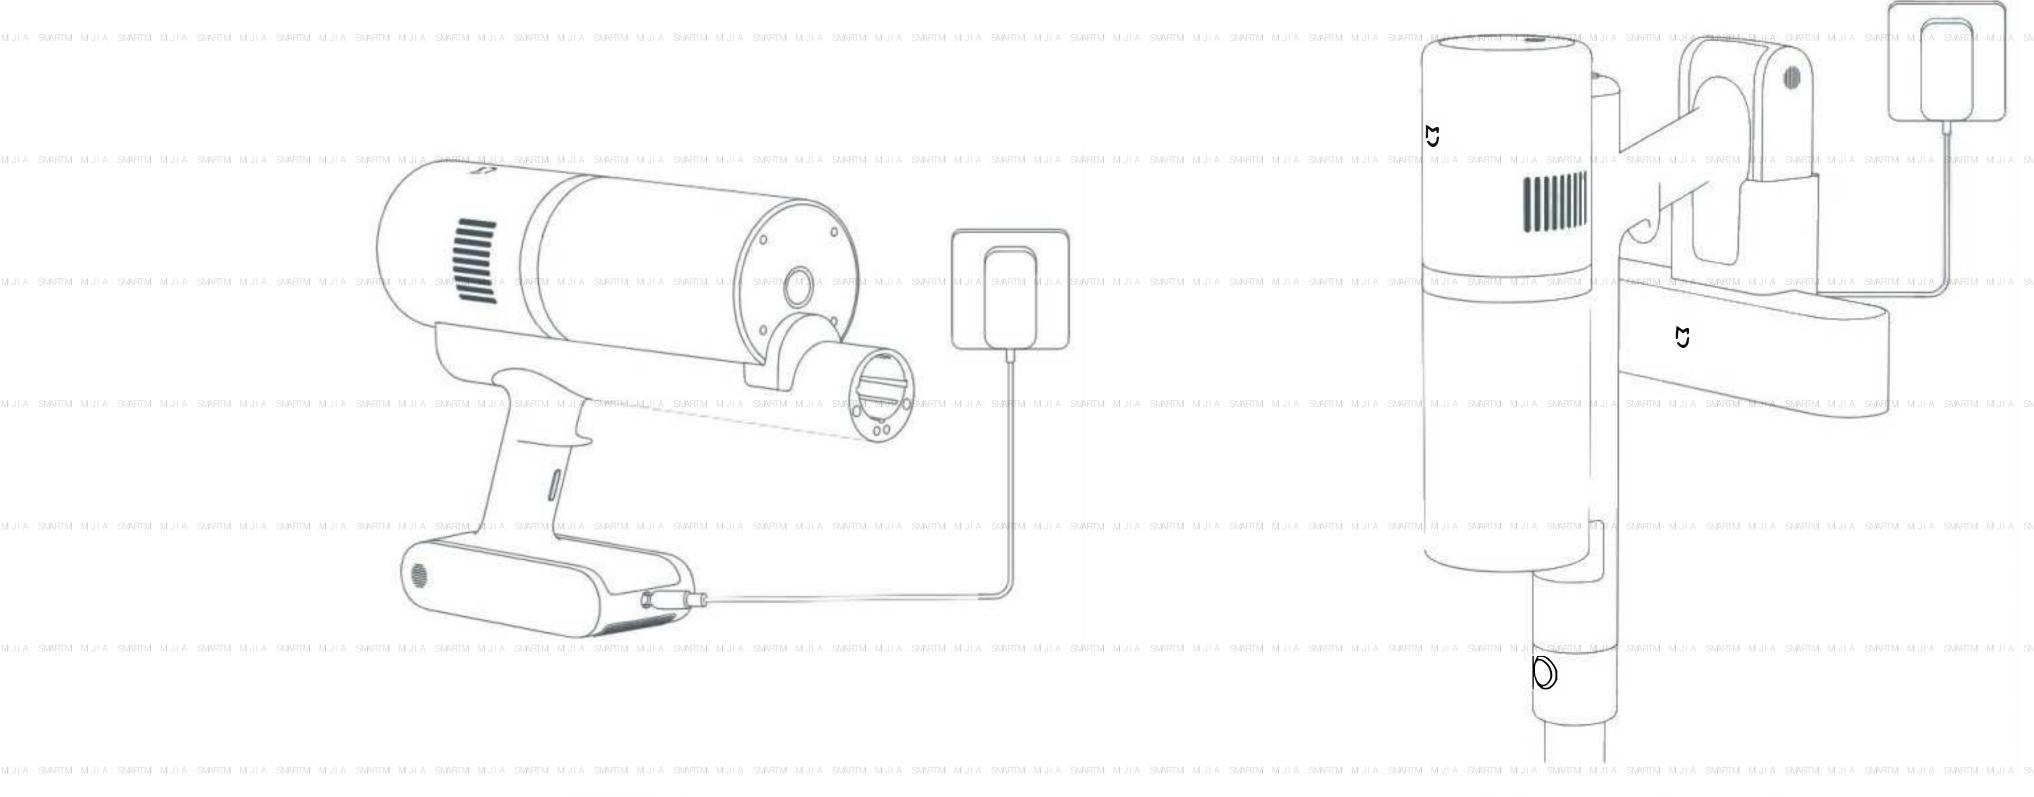

- 1.Insert the power plug (connected to the vacuum) into the plug fastener.
- 2.Attach the plug fastener to the bracket and rotate 90° counterclockwise to lock.
- 3. Position the mounting sticker 105cm above the floor, parallel to the ground.
- 4.Drill holes using an 8mm drill bit through the sticker's guide holes. Secure the bracket with expansion tubes and screws.

Charging

Note: Fully charge the product before first use (approx. 4 hours).

Charging Methods

Method 1: Direct charging via power adapter. Method 2: Charging on the 2-in-1 Charging & Storage Mount

Notes:

- arim mjia swarim m
- 2. The vacuum cannot operate while charging.
- 3. Vacuuming at the highest suction level for a prolonged period will cause the battery to heat up, which may increase the charging time. Before charging the vacuum cleaner, it is better to cool it down for 45 minutes.

How to Use

Starting/Cleaning

Start/Stop: Short press the standby button.

Switch Modes: Short press the gear shift button to cycle through Eco, Auto, and Boost modes.

Brush Heads & Scenarios

Electric Tangle-free Brush Bar For cleaning marble, wood, and short pile carpeted floors.

Note: The green dust detection light activates during use. Avoid direct exposure to eyes.

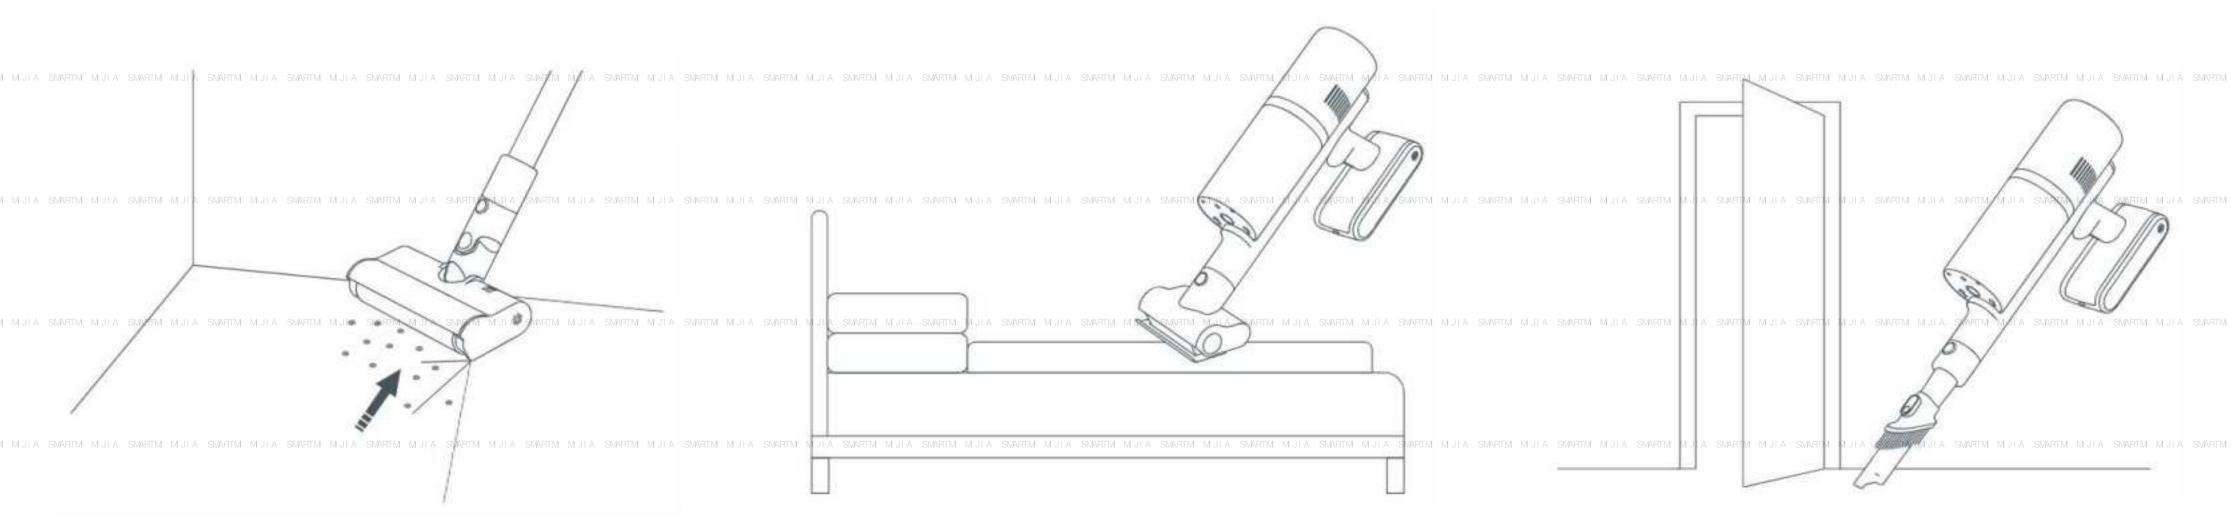

Electric Mite Brush

For cleaning dust and mites on most fabric surfaces including mattresses, fabric sofas, and blankets.

Note: Do not use on delicate materials like silk.

2-in-1 Brush: For keyboards, curtains, ceilings, corners, stairs, and car interiors.

Warning: Avoid direct sunlight. Do not leave the vacuum in high-temperature environments (e.g., MUIA SMARTIM MUIA SMARTIM

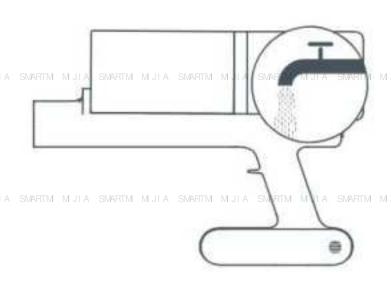

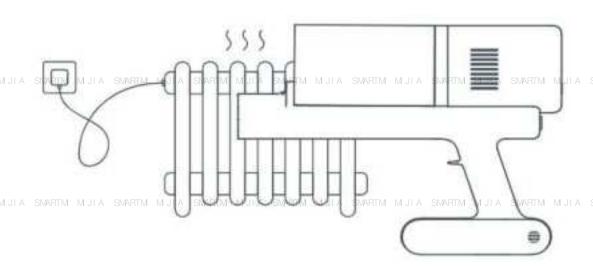

Note: If brush heads are clogged, the vacuum may stop working. Clear blockages immediately.

Use

Prohibited Actions During Use/Maintenance

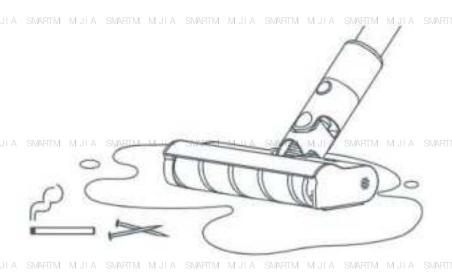

Do not rinse the main unit directly with water.

Do not charge or store the product near heat sources or in humid areas (e.g., radiators, kitchens, bathrooms).

Do not use the vacuum to suck up liquids, burning/smoking objects (e.g., unextinguished cigarette butts), hard objects, or sharp items (e.g., nails).

Do not touch rotating parts while the vacuum is operating to avoid injury.

Do not expose human or animal eyes directly to the green dust detection light.

Precautions:

- 1. Always use genuine parts to ensure normal operation and to keep your warranty valid.
