MADE IN CHINA

# IMPORTANT SAFEGUARDS

1. Read all instructions carefully before using this product.
2. Basic safety precautions should always be followed when using electrical products, especially when children are present.
3. **Warning: To avoid the risk of electrical shock, always make sure the product is unplugged from the electrical outlet before relocating, servicing, or cleaning it.**
4. This product is intended for grinding coffee beans to brew coffee for human consumption
5. Do not use the product for any other purpose.
6. Keep the product out of the reach of children and pets. This product is not intended for use by children. Close adult supervision is necessary when this product is used near children.
7. Do not leave the product unattended while in use. Always unplug the product from the electrical outlet when not in use.
8. Always place the product on a flat, steady, stable surface.
9. Keep the Power Cord and product away from heated surfaces.
10. Do not place this product in or expose it to water or other liquids.
11. Do not use attachments not recommended or sold by the product manufacturer as a risk of fire, electrical shock, or serious personal injury may result.
12. To avoid the risk of serious personal injury or damage to the product, keep hands, hair, other body parts, clothing, and utensils away from the grinding blades while operating the product.
13. Plug the product into a standard AC electrical outlet.
14. Never plug the product into an electrical outlet unless it is completely assembled and the Lid is securely in place.
15. Before removing the Lid, unplug the product from the electrical outlet blades and make sure the grinding have completely stopped.

16. Do not plug or unplug the product into/from the electrical outlet with a wet hand.
17. Do not allow the Power Cord to hang (i.e., over the edge of a table or counter) where it tripped over or pulled.
18. Disconnect the plug (do not pull on the Power Cord) from the electrical outlet.
19. Unplug the product from the electrical outlet prior to putting on or removing parts.
20. Never operate this product if it has a damaged Power Cord or plug, is not working properly, has been dropped, damaged, or if the Motor Housing has been exposed to water or other liquids. Do not attempt to examine or repair this product yourself. Only qualified service personnel should perform any servicing. Return the product to a service center for examination and repair.
21. This product is intended for indoor, non-commercial, household use only. Do not use outdoors.

#### NOTE:

A short power cord is provided to reduce the risk of personal injury resulting from becoming entangled in or tripping over a longer cord.

If a longer cord -is required, extension cords are available from local hardware stores and may be used if care is exercised in their use. If an extension cord is used: (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the product; (2) the extension cord should be arranged so that it will not drape over the countertop or tabletop where it can accidentally be pulled on or tripped over by children or pets.

## Using the Coffee Grinder:

NOTE: Before using the coffee grinder for the first time, thoroughly clean the Lid, the Hopper, the Motor Housing, the Container Lid, and the Container (Reference the "Care and Maintenance" section): then thoroughly dry them.

Remove any foreign objects or debris from the Container and Hopper before each use.

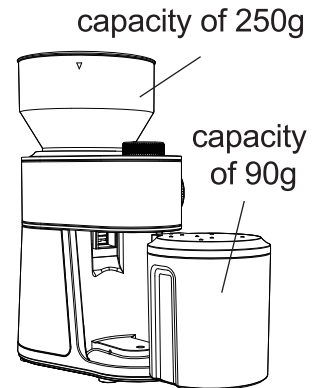

1. Securely attach the Hopper and Lid onto the Motor Housing.

2. Pour the coffee beans into the Hopper.

NOTE: The Hopper have a capacity of 250g. \*Do not fill the coffee grinder beyond the brim of the Hopper.

3. Securely attach the Container and Container Lid into the Motor Housing.

NOTE: The Container have a capacity of 95g. \*Do not fill the ground coffee beyond the max line of the Container.

4. Figure A: doser/time switch and power control button.

- 1) (A) is a volume doser/time switch, which range from 2 dosers to 12 dosers
