

KS01/KS03/KS04

QUICK SET UP

The default Master Code is **12345678**
It is required that you change it to a code of your own before programming.

Change Master Code	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 1</div> <div>Wait for green light flash</div>	<div>New Master Code + <div><div></div><div></div><div></div></div></div> <div>Wait for green light flash</div>	<div>New Master Code + <div><div></div><div></div><div></div></div></div> <div>Succeed Green light flash</div>
Add User Code	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 2</div> <div>Wait for green light flash</div>	<div>New User Code + <div><div></div><div></div><div></div></div></div> <div>Wait for green light flash</div>	<div>New User Code + <div><div></div><div></div><div></div></div></div> <div>Succeed Green light flash</div>
Delete User Code	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 3</div> <div>Wait for green light flash</div>	<div>Unwanted User Code + <div><div></div><div></div><div></div></div></div> <div>Succeed Green light flash</div>	
Silent Mode	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 4</div> <div>Wait for green light flash</div>	<div>1 + <div><div></div><div></div><div></div></div></div> <div>Silent Mode Disabled Green light flash</div>	
			<div>2 + <div><div></div><div></div><div></div></div></div> <div>Silent Mode Enabled Green light flash</div>	
Auto Lock	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 5</div> <div>Wait for green light flash</div>	<div>1 + <div><div></div><div></div><div></div></div></div> <div>Auto Lock Enabled Green light flash</div>	
			<div>2 + <div><div></div><div></div><div></div></div></div> <div>Auto Lock Disabled Green light flash</div>	
Set Auto Lock Time	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 8</div> <div>Wait for green light flash</div>	<div>Enter New Duration Time (10-99s) + <div><div></div><div></div><div></div></div></div> <div>Succeed Green light flash</div>	
Add One-Time Code	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 7</div> <div>Wait for green light flash</div>	<div>New User Code + <div><div></div><div></div><div></div></div></div> <div>Wait for green light flash</div>	<div>New User Code + <div><div></div><div></div><div></div></div></div> <div>Succeed Green light flash</div>
Enable Vacation mode	<div><div><div></div><div></div><div></div></div><div>+ Master Code +</div><div><div></div><div></div><div></div></div></div> <div>Wait for long green lights</div>	<div>Press 6</div> <div>Wait for green light flash</div>	<div>Press <div><div></div><div></div><div></div></div></div> <div>Vacation Mode Enabled Green light flash</div>	
Disable Vacation mode	<div>Master Code + <div><div></div><div></div><div></div></div></div> <div>Vacation Mode Disabled The door was opened</div>			

NOTES

1. Beeps only sound when the Silent Mode is disabled.
2. If the indicators flash red light, it means your setting failed and it will require to re-enter master mode if you would like to continue your programming.
