

Buster - Boats that are built to last

Our design has always been guided by uncompromising goals regarding ruggedness, everyday practicality and seaworthiness. These values, combined with generations of industrial, hand crafted traditions have created a quality level that already carries a legacy of its own: Buster.

Of over 125.000 boats that we have launched over the past 6 decades, the majority is still in use. The exceptional durability and longevity of a Buster is beneficial to owner and environment alike.

AHT – Aluminium Hull Technology by Buster is living proof of the experience and relentless work spanning 60 years that we have committed to in order to make our boats ever better.

- Great handling and a comfortable ride
- Buster Q 16" as standard
- Look & feel like Phantom
- Aluminium floor & rougher styling
- Fixed, 300L aluminium fuel tank
- Certified for 8 pax
- Wide engine range, 175-225 hp
- Top speed of almost 50 knots
- Integrated canvas garage as standard
- Deck hardware in stainless steel
- Trimtabs as standard

Contemporary and distinct

The hull offers a generous interior volume and best in class handling. The spacious seating arrangement allows for 8 people to travel and socialize in comfort. Several engine alternatives allow you to customize your boat engine package according to your needs.

The Buster Magnum, launched in 1994, has become a legend on the Nordic boat market. The seaworthy and safe hull is easy to handle even in adverse weather, and due to the spacious interior the trip and the time spent on board is always pleasant.

The modern windscreen, consoles and seating arrangement gives the boat an exclusive feel - without compromising on practical details. The 16" Buster Q smartscreen provides information regarding navigation, engine data and weather. The aluminum floor is robust, while being practical and carefree.

Spacious

The spacious hull offers a generous interior volume and best in class handling. The generous seating arrangement allows for 8 people to travel and socialize in comfort. The optional U sofa aft contributes to stress-free socializing on board.

Wide range of standard equipment

The 16" Buster Q smartscreen gives the skipper all necessary information regarding navigation, engine data and weather. The aluminum floor is robust, while being practical and carefree. Other standard equipment include hydraulic steering, trim tabs with joystick control, tilt steering wheel etc.

Stylish design

The modern windscreen, consoles and seating arrangement gives the boat an exclusive feel - without compromising on practical details such as stowage. The new Magnum is well suited for a variety of needs.
