

BROR

Storage Solution

CARE INSTRUCTION

Wipe clean with a soft cloth dampened in water and a mild dish detergent or soap, if necessary. Wipe dry with a clean cloth.

QUALITY

BROR storage system can withstand a lot. The widest and deepest shelves actually hold 285 lbs and the smallest shelves can hold 154 lbs. This means that you can store both tires and heavy flower pots without problems. We know this since we tested the storage system by filling the shelves with concrete bags — all to ensure that they can safely hold almost anything you can imagine storing. Regardless if the surroundings are tropically moist or dry and freezing cold.

SAFETY

Secure It! Prevent tip-over injury.

Furniture with included restraints must be secured to the wall according to the assembly instructions.

Different wall materials require different types of hardware. Use hardware (not included) suitable for the walls in your home. **For higher stability, complete every section with a cross-brace.**

GOOD-TO-KNOW

Inspiration for BROR storage system comes from classic industrial furniture. Generous, sturdy furniture that can withstand both dirt and heavy loads, just like BROR. The shelf can actually hold twice as much load as ordinary shelves! And since the design is clean and simple it fits everywhere indoors — regardless if the surrounding environment is tropically moist or dry and ice-cold.

The best thing about BROR storage system is that it's so easy to build. With just a few parts, you can create almost any combination. Start by choosing the posts and shelves. The posts are available in two heights, 43¾" and 74¾" — and the shelves in two depths, two widths and in different materials. Then you just add hooks, cabinets and other parts you need. Just like a puzzle, but here it's you who decides how the parts fit together.

Even though you decide how your storage solution will look, we're happy to offer ideas. You're welcome to take a look on IKEA-USA.com and in your closest IKEA store. Who knows, maybe we've already built the exact solution you need?
