

7 in. 90-Degree Arm Wall Mount Bracket for Outdoor Pole Lights

PRODUCT DESCRIPTION

The 90-degree arm wall mount bracket with a 2-3/8 in. tenon offers versatile attachment options for flood and area lights on various surfaces. Crafted with durability in mind, this heavy-duty bracket is suitable for mounting on walls, roofs, or wooden poles. It features convenient wiring access and includes a built-in 2-3/8 in. O.D. tenon for effortless fixture mounting using our adjustable slip-fitter. Finished with a bronze, all-weather powder coat, it enhances resistance against scratching, fading, wearing, and chipping.
