

INSTRUCTION

1 Product description diagram

2. Record Video:

Long press the DOWN key to power on the device, and the blue light will stay on indicating that it has entered video standby mode. The screen displays "  " in the upper left corner and "00:xx:xx" in the upper right corner (as shown in Figure 1). Press the UP button to start recording, and both the blue light on the device and red light inside of screen will flash indicating that it is now recording. Videos are saved every 5 minutes until the TF memory card is full. To stop recording, press UP button again to enter standby mode (as shown in Figure 2).
