

# 90cm Series 9 Classic 5 Zone Induction Pyrolytic Cooker, 2 SmartZones

Series 9 | Classic

With large oven and cooktops that can be paired to create an expansive cook zone, this is a range made for those who love to cook.

- Five cooking zones that can be bridged to form SmartZones
- Convection oven with 140L total capacity, nine oven functions plus rotisserie, including Pastry Bake with pizza mode and rapid proof for making bread
- Non-tip full-extension shelves for safe removal of hot dishes

- High-temperature self-cleaning function breaks down food residue for an easy clean

## DIMENSIONS

|        |              |
|--------|--------------|
| Height | 898 - 946 mm |
| Width  | 897 mm       |
| Depth  | 600 mm       |

## FEATURES & BENEFITS

### Multi-Shelf Cooking

Our AeroTech™ system circulates air evenly throughout the entire oven so dishes on the top shelf turn out just as perfectly as food cooking on the bottom shelf.

### Quality And Durability

Every detail has been carefully crafted. The solid, perfectly balanced soft-close door, durable cooktop and glowing halo dials all add up to an exceptional, premium range.

### Power & Control

Instant and immediate control from the highest to the gentlest heat. The finely tuned cooktop controls let you sear, stir fry or simmer a delicate sauce to perfection.

### Easy To Clean

Cleaning up spills is effortless. Your cooktop simply needs a quick wipe to keep it looking good as new. The pyrolytic self-clean oven cycle breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

### Even Heat

Accurate, electronically-controlled oven heat ensures a great result every time.

### Large Capacity Oven

The generous 140L total capacity oven gives you plenty of space to cook multiple dishes at once.

### Large, Flexible Cooking Area

SmartZone links two cooking zones and controls them as one, giving you the flexibility to use large pans and griddles and easily handle bigger food items such as a whole fish.

## SPECIFICATIONS

### Accessories (included)

|                                   |                      |

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
