
Product Instruction Manual For **BMW Motorcycles**

BMW Motorcycle Smart Screen

The DB601 intelligent motorcycle infotainment system, specially designed for BMW motorcycles, features excellent computing power and enables interaction with motorcycle data. It supports the control of the original BMW wonder wheel and is compatible with the Tire Pressure Monitoring System (TPMS).

Equipped with a 6-inch high-definition display screen, it supports CarPlay, Android Auto, and a high frame rate screen projection mode of 60 frames per second. With an anti-glare screen design, it offers an excellent image.

The DB601 main unit has an IP68-level waterproof rating and can withstand high temperatures up to 65 degrees Celsius, ensuring stable operation even in harsh environments. This intelligent infotainment system will give you a full riding experience and safe road trip.
