Precision Pen 3

Safety, Warranty
& Quick Start Guide

Lenovo

English/Français/Español/Русский

Read this guide carefully before using your device.

Lenovo Precision Pen 3

You can use Lenovo Precision Pen 3 in place of your fingers for a better experience, such as working with specific applications to write or draw on the screen.

- 1 Pen Cap 2 Pen Body 3 Button 4 Tip

Pairing activation and charging storage

When using it for the first time, please attach the pen to the magnetic position on the back of the tablet for pairing activation. After use, please attach the pen to the magnetic position on the back of the tablet for charging and storage.

Product use

Use the stylus button to realize quick operation. For detailed shortcut functions, please visit <http://support.lenovo.com.cn>, and then search for the user guide by the product model.

- The stylus is subsequently updated through the operation of the paired tablet device.
- If you need to switch to other Lenovo tablet products, you need to re-pair.
- If it is not used for a long time, the battery of the stylus will enter the protection state, and it needs to be charged for 5-10 minutes.
- Please use the stylus carefully. The stylus contains electronic components. If it is dropped accidentally, the stylus may be damaged.

Replace tip

1. Rotate the pen tip counterclockwise until it comes out of the pen barrel.
2. Remove the tip.

3. Insert the end of the new nib vertically into the pen.
4. Rotate the pen tip clockwise until it is firm enough to prevent it from falling loose.

- Please keep the stylus carefully to prevent damage to the nib by dropping it.
- The pen tip may wear out with daily writing, and writing on a rough film surface will accelerate wear.
- This product includes a detachable pen nib, please keep the nib out of the reach of children. Children may inadvertently damage the nib, or swallow the nib, causing suffocation or other hazards.

Lithium-ion battery notice

Do not:

- Throw or immerse into water
- Operating temperature exceeds 0-45°C
- Repair or disassemble
- Leave in an extremely low air pressure environment
- Leave in an extremely high-temperature environment
- Crush, puncture, cut, or incinerate

Environmental, recycling, and disposal information

General recycling statement

Lenovo encourages owners of information technology (IT) equipment to responsibly recycle their equipment when it is no longer needed. Lenovo offers a variety of programs and services to assist equipment owners in recycling their IT products. For information on recycling Lenovo products, go to <http://www.lenovo.com/recycling>.

Important battery and WEEE information

Batteries and electrical and electronic equipment marked with the symbol of a crossed-out wheeled bin may not be disposed as unsorted municipal waste. Batteries and waste of electrical and electronic equipment (WEEE) shall be treated separately using the collection framework available to customers for the return, recycling, and treatment of batteries and WEEE. When possible, remove and isolate batteries from WEEE prior to placing WEEE in the waste collection stream. Batteries are to be collected separately using the framework available for the return, recycling, and treatment of batteries and accumulators. Country-specific information is available at: <http://www.lenovo.com/recycling>

Recycling information for Japan

Recycling and disposal information for Japan is available at:

<http://www.lenovo.com/recycling/japan>

Additional recycling statements

Additional information about recycling device components and batteries is in your *User Guide*. See “Accessing your User Guide” for details.

EurAsia compliance mark

Service and support information

If the product does not function as warranted during the warranty period, you may obtain warranty service by contacting your product dealer for service support.

European Union compliance statement

European Union conformity

Compliance with the RE Directive

Lenovo PC HK Limited declares that the radio equipment type Lenovo Precision Pen 3 is in compliance with Directive 2014/53/ EU.

The full text of the EU declaration of conformity is available at the following internet address:

<https://www.lenovo.com/us/en/compliance/eu-doc>

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

IC statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux

CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1) L'appareil ne doit pas produire de brouillage;

2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
