Meaning of the safety information

DANGER! If you do not observe this safety instruction, an accident will occur. The result of which is severe bodily injury or death.

WARNING! If you do not observe this safety instruction, an accident may occur. The result of which is likely severe bodily injury or death.

CAUTION! If you do not observe this safety instruction, an accident will occur. The result of which is likely minor or moderate bodily injury.

NOTICE! If you do not observe this safety instruction, an accident will occur. The result of which is possible damage to property.

General safety instructions

- The device must not be used by children. Children must be supervised to ensure that they do not play with the device.
The device can be operated by individuals with reduced physical, sensory or mental abilities or a lack of experience and knowledge if they are supervised or have been instructed in the safe use of the device and understand the resulting hazards.
- People who are not familiar with the instruction manual may not use the device.

Working with the device

Pressure washers can be dangerous if used incorrectly. The jet must not be directed at persons, animals, active electrical equipment or the device itself.

- Do not direct the jet at yourself or others to clean clothing or shoes.
- Do not use the device if other people are within range unless they are wearing protective clothing.
- Take appropriate measures to keep children away from the running device.
- Do not use the device near flammable liquids or gases. There is a risk of fire or explosion if this advice is not heeded.
- Store the device in a dry place and out of reach of children.
- Please also note the safety information of your pressure washer.
- The operator or user is responsible for any accidents or personal injury and/or material damage to third parties or their property.

- WARNING!** This is how to avoid damage to the equipment and possible personal injuries resulting from this:
- Do not use for cleaning windows.
 - Do not work with a damaged or incomplete device or one which has been converted without the permission of the manufacturer.
 - Protect the device from frost.
 - Use only original accessories and do not carry out any modifications.

Preparation

WARNING! Risk of injury due to unintentional start-up.

Control elements

Familiarise yourself with the operating elements before using the device for the first time.

- Switch lock (15)**
 - Locks the on/off switch against unintentional operation.
 - Unlocking: Press

Quick-connect adapter (third-party device)

Procedure (Fig. D)

Quick-connect adapter (21) with safety clip (20) for pressure washers made by third-party manufacturers.

1. Insert the quick-connect adapter (21) into the water connection (11). You will hear it click into place.
2. Pull the safety clip (20) out of the quick-connect adapter.
3. Connect a pressure washer via the quick-connect adapter.
4. Secure the connection by inserting the safety clip into the two holes of the quick-connect adapter.

Using cleaning agents

- Use a neutral, biodegradable cleaning agent.
- Always use the cleaning agent in accordance with the manufacturer's instructions.

Cleaning, maintenance and storage

⚠ WARNING! Risk of injury due to unintentional start-up. Protect yourself when performing maintenance or cleaning work. You should have any repair and maintenance work that is not described in these instructions carried out by our Service Centre. Only use original replacement parts.

Cleaning

- Always keep the product clean.
- Clean the device with a soft brush or a slightly damp cloth.
- Do not use any cleaning agents or solvents.

Maintenance

⚠ CAUTION! Replace a damaged high-pressure hose.

Removing the high-pressure hose (Fig. E)

1. If necessary, detach the flat spray nozzle (1) by pressing, turning and pulling it out (Bayonet locking device) from the elbow connector.
2. Remove the safety clip (3).
3. Pull the elbow connector (2) off the extension arm (4).
4. Press and hold the release (19).
5. Pull the elbow connector (2) off the high-pressure hose (25).
6. Pull the release lever (9) to the connection for the high-pressure hose (8).
7. Pull the high-pressure hose (25) off at the connection for the high-pressure hose.
8. Pull the high-pressure hose out through the opening (7).

Installing the high-pressure hose (Fig. E)

1. Slide the high-pressure hose (25) with connection for the elbow connector (24) first into the opening (7).
2. Push the high-pressure hose through the main tube (5) and the extension arms (4).
3. Fitting the elbow connector (2). Make sure that the holes on the elbow connector are aligned with the holes on the extension arm.
4. Fix the elbow connector with the safety clip (3).
5. Attach the flat spray nozzle (1) by inserting and turning it (Bayonet locking device) on the elbow connector.

- Insert the connection for the telescopic tube (23) into the connection for the high-pressure hose (8). It will lock into place.

Storage

Always store the device and accessories:

- clean
- dry
- protected against dust
- protected against frost
- out of the reach of children

Transport

Always carry the lance with one hand on the handle (13) and the other hand on the insulated grip (6).

Disposal/ environmental protection

The products and packaging should be properly recycled.

Spare parts and accessories

You can get spare parts and accessories from www.grizzlytools.shop. If you have any problems with your order, contact us via our online shop. If you have any other questions, contact the Service Centre, p. 9
