Installation Guide

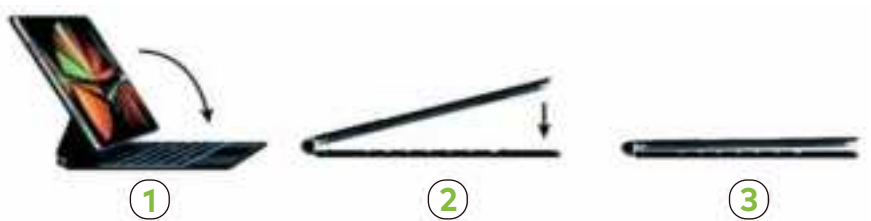

1. Place your iPad on the magnetic stand as illustrated, ensuring the camera hole aligns perfectly with the camera.

2. To detach your iPad, simply pull it upward from the stand.

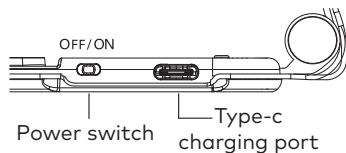

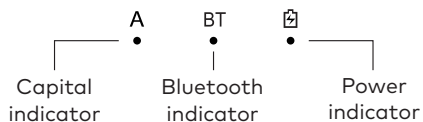

3. Insert your iPad into the case, then fold the case for convenient portability.

Keyboard Instructions

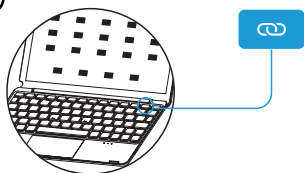

Please read the operating instructions carefully before use.

Connection Guide

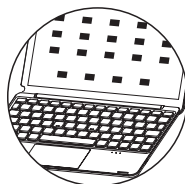

Connect with your iPad

1

Turn on the keyboard power. Long press the Bluetooth key  for three seconds until the keyboard pairing light starts flashing.

2

Go to iPad Settings.

3

Enable Bluetooth on your iPad and keep it turned ON.

4

In the search menu under Other Devices, select "GL-Magic Keyboard". The wireless signal light will turn off once paired successfully.

Notice: The Bluetooth will automatically reconnect with your device the next time you use it.

Power switch	Pull up to turn ON and pull down to turn OFF	To activate Siri	Open Settings and navigate to Siri and Search, then press the top button to use Siri →  + S key.

Bluetooth Pairing and Indicators

1. Power On Indicator

1.1 When turned ON, the red light stays on for 1 second and then turns off.

1.2 If the battery level is below 20 %, the red light flashes slowly to indicate low power.

1.3 When turned OFF, the keyboard stops working.

2. Bluetooth Connection Methods

2.1 Initial Pairing:

a. Turn ON the keyboard; the red light stays on for 1 second and then turns off.

b. The Bluetooth indicator flashes to enter pairing mode.

2.2 Re-pairing:

a. Long press the Bluetooth key  for 3 seconds to enter pairing mode.

b. The blue light flashes 3 times per second to indicate pairing mode, with a broadcast time of 180 seconds.

c. The blue light turns off upon successful pairing. If pairing is unsuccessful, the backlight and all other indicators turn off, and the keyboard enters sleep mode.

3. Reconnect Bluetooth Indicator

3.1 After the first pairing is successful, turn off and on the keyboard to automatically enter Bluetooth reconnection mode.

3.2 The blue light flashes 3 times per second during reconnection mode.

3.3 The blue light turns off upon a successful connection within 5 seconds. If the connection fails, the backlight and all indicators turn off, and the keyboard enters sleep mode.

4. Charging Indicator

4.1 During Type-C charging, the red light stays on.

4.2 The red light turns off when fully charged, and the green light turns on.

4.3 Low Battery Indicator: When the battery power is less than 20%

(3.2V), the red light flashes slowly (once per second) until the keyboard is turned off.

5. Caps Lock Indicator

5.1 For uppercase/lowercase ON/OFF, the white indicator light remains ON/OFF.

5.2 After connecting to an iPad, go to 'Settings' → 'General' → 'Physical Keyboard' to turn off the indicator using the Caps Lock key for language switching.

6. Keyboard Sleep Mode

6.1 The keyboard stops pairing if not operated within 3 minutes or if there is an abnormal connection. The backlight and indicators turn off, and the keyboard enters sleep mode.

6.2 After pairing, if the keyboard is idle for 30 seconds, the backlight turns off, and the keyboard enters standby mode.

6.3 If unused for 10 minutes, the keyboard enters sleep mode and can be woken by pressing any key on the keyboard (**note:** the trackpad cannot activate it).

6.4 Low Battery Behavior: If the battery is below 15%(3.1V to 3.15V), the backlight turns off. When the battery is above 20 %, the backlight turns back on.

Reset settings

Press  +  +  for 3 seconds. The indicator flashes 3 times to clear the keyboard pairing information and return to the second level of white backlight.

Gesture Instructions

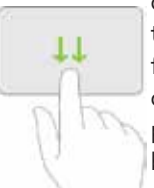

Tap:
Press with one finger until you feel a slight click.

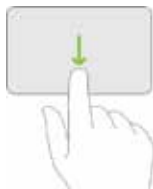

Tap and hold: Press and hold with one finger.

Drag:
Tap and hold an item, then swipe your finger across the trackpad to move it.
