Water Chiller WiFi Setup

Install the Smart Life App

Scan the QR Code or search for "Smart Life - Smart Living" in the App Store. Download and make an account on your device.

Sync the App with Your Chiller

Slide up on the up arrows located on the right side of the screen to unlock the touch screen on your chiller. Press Menu. Then select WiFi Initialization on the bottom right corner. Press Yes to confirm initialization. Open the app on your phone and tap the "+" sign on the top-right corner. Select "Add Device". When your chiller appears, tap it.

Next, enter your WiFi Information. Ensure you are using a 2.4 GHz WiFi network.

Enter your network credentials and tap Next.

Wait for the connection to complete. A green checkmark will appear when successfully added.

Sync the Clock with the App

On the chiller, press Menu and navigate to Date. Tap the Sync button in the top-left corner. The date and time displayed on the chiller's screen (top-right corner) should now match the app. Tap Back and then X to return to the Home Screen.

ORCA

Change the Temperature Unit (°C to °F)

Set °C to °F (Control Panel)

Function Setting

Press the Gear Icon (Function Setting) on the right. Tap the Set button. Input 666666 for the password. Press "OK". Tap Parameter Set. Tap the Left Arrow on the bottom to go to Page 13. Tap Temp Scale Switching. Enter "1" for Fahrenheit "0" for Celsius. Tap OK. Tap the red "X" on the top right to navigate back to the Home Screen.

Set °C to °F (Mobile App)

Press the Set button on the chiller. Tap the F button (bottom-right corner) to switch to Fahrenheit. Press Back to return to the main screen.

Turn On the Water Chiller

Tap the Switch button to turn on the chiller. You should hear it power on. To set the desired temperature, tap Set Temperature. Adjust the slider to your desired temperature, then tap Confirm.
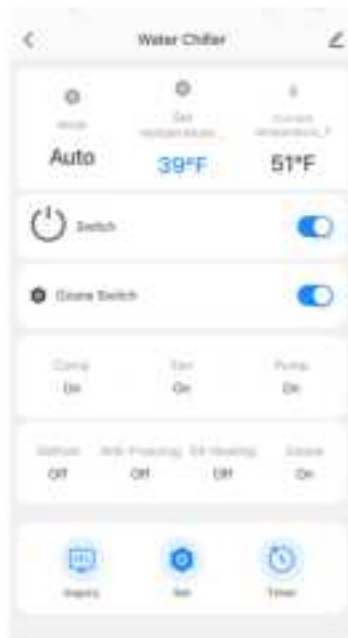

You're Ready to Cold Plunge!

ORCA

You can manually turn **O-zone** on/off through the Control Panel or Mobile App. **The Water Chiller must be turned on to access O-zone.**

Control Panel

Tap the O-zone Switch button on the control panel to turn O-zone on/off.

You will see the o_3 symbol on the top of the screen when O-zone is active. It will run for one hour and automatically turn off.

O-zone

O-zone Switch

Mobile App

Tap the O-zone Switch button in the Mobile App to turn O-zone on/off.

You will see the o_3 symbol on the top of the home screen when O-zone is active.

Ozone Tip:

For best results, we recommend running the ozone at the end of each day. Simply set the Ozone and it will automatically run for an hour and shut off on its own.
