WARNING!-IMPORTANT SAFETY INSTRUCTIONS
BEFORE CONNECTING, READ INSTRUCTIONS

WARNING: To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

CAUTION: To reduce the risk of fire or electric shock, do not remove screws. No user-serviceable parts inside. Refer servicing to qualified service personnel.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

 The lightning symbol within a triangle means "electrical caution!" It indicates the presence of information about operating voltage and potential risks of electrical shock.

 The exclamation point within a triangle means "caution!" Please read the information next to all caution signs.

1. Use only the supplied power supply or power cord. If you are not sure of the type of power available, consult your dealer or local power company.
2. Do not place near heat sources, such as radiators, heat registers, or appliances which produce heat.
3. Guard against objects or liquids entering the enclosure.
4. Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.
5. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when the power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally or has been dropped.
6. The power supply cord should be unplugged when the unit is to be unused for long periods of time.
7. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles and at the point where they exit from the apparatus.
8. Prolonged listening at high volume levels may cause irreparable hearing loss and/or damage. Always be sure to practice "safe listening".

Follow all instructions and heed all warnings
KEEP THESE INSTRUCTIONS!

Overview

The NUX MG-101 is our entry level modeler. MG-101 includes a powerful DSP that drives our high-definition White-Box Amp Modeling algorithm (TSAC-HD) and Core-Image post-effects. Since we released our best selling compact modeler MG-300 a few years ago, people were blown away by the sound and playability, especially with the easy tone tweaking and the intuitive interface. And now, the MG-101 offers you: 10 signal blocks, 12 IR COLLECTION slots, P.L block with MIN/MAX and PRE/POST position setup, an abundant SYSTEM MENU, TRRS headphones out (which supports headset mic), and USB to OTG recording.

Features

- 2.4” 320*240 color LCD with intuitive UI.
- NG, CMP, EFX, AMP, IR, EQ, MOD, DLY, RVB, P.L | 10 independent signal blocks.
- White-box Amp Modeling & Pre-efx algorithm (TSAC-HD) offers realistic playability and analog-chaos response.
- 512 samples IR resolution and USER slot with each patch. (additional 12 IR COLLECTION slots)
- 25 classic electric guitar amp models offer various music style.
- Input trim with Global EQ under SYSTEM MENU.
- PARA. FOLLOW function to track your effect tweaking habits.
- 5 output modes with 3 band EQ for quick tone tweaking.
(Aside from STUDIO DIRECT, the others modes will disengage IR signal by default.)
- USB recording interface, firmware update, QuickTone™ edit software.
- TRRS headphones out support headset mic for live streaming. (OTG with the mobile device.)
- Phrase looper with auto tempo detection drum machine.

**This is a quick manual to drive you quickly operate the MG-101, if you are looking for deep information, please visit the product page and Facebook discussion group.*

Device Connect

Control Panel

Number	Name
1	EDIT/EXIT button
2	SAVE button
3	MODE button
4	JAM button
5	Tap button
6	EXP button
7	LEFT button

Number	Name
8	PAGE button
9	RIGHT button
10	SELECT knob
11	Parameter Adjustment knob
12	DOWN/LOOP FOOT SWITCH
13	UP/DRUM FOOT SWITCH
14	EXPRESSION PEDAL

EDIT/EXIT button

Under PRESET mode, press **EDIT/EXIT** button to enter to AMP editing, to adjust the parameters. Press **EDIT/EXIT** button again to quit PRESET mode.

SAVE button

Under PRESET mode or editing mode, press **SAVE** button to save current patch.

MODE button

Press **MODE** button to select the OUTPUT MODE. Rotate the **SELECT** knob to choose, then short press **SELECT** knob can recall the global EQ default parameter. **1~3 Parameter Adjustment** knob adjusts the LOW, MID, HIGH global output EQ parameters.

Press **EDIT/EXIT** button to quit OUTPUT MODE.

JAM button

Press the **JAM** button to enter to drum & loop, in the meantime, press the **PAGE** button to visit the 2nd , 3rd pages for additional DRUM options and DRUM EQ tweaking. Rotate **SELECT** knob, **1~3 Parameter Adjustment** knob to tweak related parameters.

- You can choose STEREO / MONO loop. (Stereo is 20 seconds, mono is 40 seconds.)
- NR = Normal Recording, AR = Auto Recording.
NR works as regular loop function, while you press **LOOP** footswitch, it starts to record the phrase loop. AR will stand by while you press **LOOP** footswitch, once you hit the strings, it will start to record your phrase loop.

- **DRUM footswitch** can trigger the drum machine under JAM function.

TAP button

Tap the **TAP** button under PRESET mode to assign a current BPM for DLY SUB D. reference. (The TAP button/indicator will flash 16 times to present the BPM speed.) Under JAM, the **TAP** button can set the DRUM tempo.

EXP button

Press **EXP** button to choose the EXP control block: WAH, EFX, AMP, MOD, DLY, RVB, ---.

PAGE button

While in Edit Mode, press the **PAGE** button to go to the next/previous page.

LEFT & RIGHT button

Under PRESET mode, press **LEFT/RIGHT** button can go to 1~9 patch group quickly. For example, if you located in 1A currently, press **RIGHT** button, then the digit flashes 2, press **RIGHT** button again, it flashes 3. Once you press **UP/DOWN footswitch**, it will go to 3A immediately.

Under edit mode, press **LEFT/RIGHT** button to change the GREEN target block to tweak the related block parameters.

Short press **SELECT** knob can engage/disengage the current block.

SELECT knob & 1/2/3 Parameter Adjustment knob

While you enter to edit mode (press **EDIT/EXIT** button), you can rotate the **SELECT** knob to choose the model under the current block, and short press **SELECT** knob to engage/disengage the current block. Additionally, you can use **1/2/3 Parameter Adjustment** knob to adjust the related parameters. Press **PAGE** button to go to different page.

UP & DOWN FOOTSWITCHES

DOWN FOOT SWITCH: During preset display, press once can go 1 patch down.

UP FOOT SWITCH: During preset display, press once can go 1 patch up.

Press **UP & DOWN footswitches** simultaneously, to access the on board TUNER. Short press **SELECT** knob to switch “mute / monitoring”, rotate **SELECT** knob to switch “CHROM. / G CPS / G STD” tuning, rotate knob **3** to adjust A4: 430~450 Hz.

Note: G CPS is guitar compensated tuning algorithm.

Press **UP & DOWN footswitches** again to exit TUNER. (Pressing **EDIT/EXIT** button also allows you to exit TUNER.)

Rear Panel

Number	Name	Number	Name
❶	DC 9V jack	❷	USB port
❸	PHONES jack	❹	AUX IN
		❺	OUTPUT jack
		❻	INPUT jack

DC 9V jack

Connect the included adaptor (ACD-006A) to the DC 9V jack.

USB port

Connect the USB cable to computer for firmware update, USB recording, or QuickTone™ edit software editing.

Note: Connect USB cable to computer, and hold DOWN & UP footswitches to turn on MG-101, then you can enter to DFU (Device Firmware Update) mode to do firmware update. For more details, please visit product page to check the firmware update guide and download the newest firmware & QuickTone™ edit software.

*To avoid QuickTone™ and USB audio stream connection issues, please unplug any other unnecessary USB MIDI devices or HUBs, and connect MG-101 directly to a USB port. If your laptop experiences connection issues, please try to update and reinstall the laptop's USB port driver or Windows Service Pack. MG-101 uses standard USB communication, there may be some interferences related to USB hardware and/ or HUBs, especially USB MIDI devices.

*For tech support issues and questions, please include the following information. This will help us identify the issue and offer a solution.

1	Firmware version before Firmware Update.
2	DFU Updater version.
3	PC OS version (for example, MAC Big Sur 11.0.1).
4	Current Firmware Version which has issues.
5	Issue description.
6	Screenshot of QuickTone™ connection or issue video.

PHONES jack

Connect your headphone to the 1/8" phone jack. The phones out support TRRS headset mic. It's convenient if you want to use MG-101 for live streaming.

You can adjust the phones level through GLOBAL SETTING -> GLOBAL EQ.

You can adjust the mic level through GLOBAL SETTING -> MIC & USB

AUX IN

Connect your MP3 player to the 1/8" AUX IN jack for playback.

OUTPUT jack

OUTPUT support 1/4" TS or TRS for MONO or STEREO signal.

INPUT jack

Connect your guitar to INPUT jack.

Global Setting

Here we will explain more details about GLOBAL SETTING's. It's intuitivly designed to enable you to operate it easily.

Press **EDIT/EXIT** & **SAVE** buttons to enter to GLOBAL SETTING.

INFO

It will show the current firmware version.

EXP

EXP Independent with patch means it's like a physical EXP pedal, while you engage it, it's always On, even when you select another patch.

EXP CALIBRATION, just follow the simple instruction to calibrate the EXP pedal.
*Remember to do EXP CALIBRATION after performing a FIRMWARE UPDATE.
Short press **EDIT/EXIT** to quit to SYSTEM MENU.

GLOBAL EQ

You can tweak the INPUT TRIM & EQ here, and also adjust the PHONES & OUPUT level.

Note: MG-101 doesn't offer global master volume control, so you can adjust the OUTPUT level under GLOBAL EQ.

PARA. FOLLOW

If you engage PARA. FOLLOW, while you leave the current efx model, MG-101 will remember the parameters while you choose the model again. If you turn off PARA. FOLLOW, while you choose the efx model, it will revert to the default parameters.

FACTORY

After firmware update, remember to perform a FACTORY RESET to rearrange system data.
Hardware inspection can help you detect the hardware work status.

MIC & USB

You can adjust the microphone parameters like VOLUME, MIC NOISE GATE (THRE. & DECAY), AUX IN VOLUME, USB IN & OUT LEVEL.

QuickTone™ Editor

You can download QuickTone™ editor from the product page. Here, you can see the interface for tweaking parameters, save patches, load patches, export patches, load IRs on QuickTone™.

For more details, you can check MG-101's tutorial videos on NUX YouTube channel.
