Short introduction of the iSinbox X9. The micro-portable LCD LED projector has an HDTV 1920 x 1080 resolution and 1200 Ansi lumens. The manufacturer iSinbox states a service life of 30000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As iSinbox specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 1200 Ansi lumens, a picture width of 352 cm is possible. In room light, the picture should be a maximum of 235 cm wide. In addition, thanks to the Bluetooth function, the projector can be flexibly coupled with other speakers. The model is also compatible with Full HD 1080P and 4K (compressed).
