ENGLISH

Notes

- Please connect all the devices before powering it on. During use, if there is no operation within 10 seconds, the menu will automatically return to the home screen.
- Through the remote control menu option, line out and headphone output can be output simultaneously, or the headphone output is preferred.
- Please keep the remote control and the device on the same level when using the remote control within effective range of 8 meters.
- Please pay attention to whether the RCA and coaxial cables are connected correctly when wiring. If they are connected incorrectly, there will be no sound in one channel.
- The filter submenu defaults to FIR3 direct mode, if you need other modes, please adjust according to the instruction.
- The first time use the remote, please press **ENTER** button on the remote to match this DAC.
- To prevent electric shock, do not open the back cover.
- To ensure that the power supply of the machine is completely cut off, please pull out the power plug from the AC power supply of the socket.

Product Features

- Science and technology promotes industry, and innovation never stops. FXAUDIO 2.0 era's young fashionable design and style is your best choice. Anodized sand blasting metal texture, with various colors, showing high-end fashion.
- The high-end decoding chip ESS938Q2M (from ES company) has the advantages of high resolution, low distortion and wide compatibility. It can better restore the recording scene of songs, with rich sound performance and outstanding human voice.
- CSR8675 lossless Bluetooth chip supports APTX, LDAC and other lossless formats with fast transmission and good performance, making it an ideal choice for advanced audio products.
- OLED screen intuitive display, multi-functional remote control design, convenient and fast to use, fully humanized.
- High power headphone amplifier output chip TPA6120A2DWP, can give headphone enthusiasts an excellent hearing experience.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
